sysdig

Cloud security, the right way.

**No guesswork. No black boxes.
Just cloud defense done right.**

Founded by the creators of open source standards — Falco, Stratoshark, and Wireshark — and built on agentic AI, **Sysdig delivers real-time cloud defense grounded in the uncompromising truth of runtime.**

Security and development teams can tailor defenses together — the right way.

Agentic AI
Brings clarity and precision to the moments that matter most.

Open innovation
Creates transparency, customizability, and shared trust across a global community.

Runtime insights
Reveal what's real, what's risky, what's important right now, and why it matters.

SOLUTIONS

- AI workload security
- Cloud detection and response
- Cloud infrastructure entitlement management
- Cloud-native application protection platform
- Cloud security posture management
- Cloud workload protection platform
- Container & Kubernetes security
- Data security findings
- Vulnerability management

INTEGRATIONS
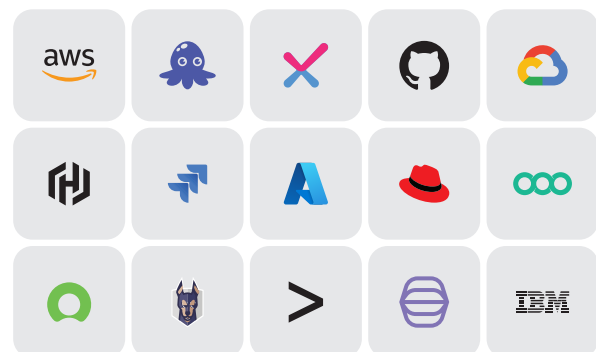

ENVIRONMENTS
REAL-TIME CLOUD SECURITY PLATFORM

Complete protection across the entire cloud lifecycle — from prevention to response — powered by deep runtime insights.

Falco is the engine behind these insights, driving everything from real-time threat detection to prioritization, and enabling capabilities like Sysdig Sage™ and Cloud Attack Graph to zero in on what really matters.

✓ **Zero in on real risks**

Runtime insights surface critical vulnerabilities, and Sysdig Sage™, our AI cloud security analyst, guides actions with precision.

✓ **Stop threats in the moment**

Respond in real time with curated detections, deep investigation tools, and guided workflows that accelerate decisions.

✓ **Unify security and development teams**

Bridge the collaboration gap with shared context, complete visibility, and actionable security.

Save time, respond faster, and defend smarter — without slowing down innovation.
