### FLASH LIGHT

#### --- NIGHT LIGHTING ---

In the dark environment, the light can be continuously illuminated and is an essential tool for outdoor activities.

#### --- TRAINING AND INTERACTION ---

The light beam can be used as a training and interactive tool to promote athletic and intellectual development.

#### --- OBSERVING BEHAVIOR ---

When the pet vomits, eats garbage or excretes outdoors at night, turning on the flashlight can detect the problem and take action in time.

**28H**  
CONTINUOUS  
USE

**48H**  
CONTINUOUS  
USE

### AMBIENT LIGHT

#### --- CAMPING ---

The ambient light can enhance the warmth of the environment and create a unique romantic atmosphere.

#### --- NIGHT FEEDING ---

When your pet needs to eat and drink at night, turning on the ambient light can accurately control the water output, or prevent drinking water from spilling.

### EMERGENCY LIGHT

#### --- EMERGENCY SIGNAL ---

In a field emergency, flashing signals can attract others' attention.

#### --- LOCATION IDENTIFICATION ---

Helping pets to find their owner's location more easily at night and avoiding the risk of getting lost.

#### --- ENHANCED VISIBILITY ---

The obvious flashing light is easy to attract the attention of vehicles and pedestrians to avoid potential dangers,
