

Always a cut ahead!

ABOUT US!

**SUSTAINABLE PRODUCTION FROM THE SOUTHERN
BLACK FOREST SINCE 1992**

Immer einen Schnitt voraus

ABOUT US

Made in the southern Black Forest.

Based in the Black Forest, we have been offering 100% quality in the manufacture of rip saws, cross-cut saws and panel saws for more than 30 years. We guarantee our customers maximum care, precision and expertise - from the selection of materials to production and assembly.

Our company consists of a team of qualified and experienced employees who actively and enthusiastically contribute their expertise. At the same time, our team includes many young employees who contribute their youthful spirit, which is why we can proudly say that our team is well-balanced and well-positioned for the future.

Stoll Maschinenbau GmbH | Robert-Bosch-Straße 1 | 79585 Steinen

Why us? Quite simple:

- 100% produced and assembled in Germany
- Over 30 years of experience in sawing technology
- Wide range of uses for over 12 materials
- High-quality components from German manufacturers
- Certified and CE-compliant machines
- Customised solutions for special machine construction
- High value retention and good resale values
- Intuitive user interface for easy operation
- Ergonomic workstations for employees
- High machine availability and reliability with low maintenance requirements.

Our company values

Our actions are based on three core values: **ecological, economic and ethical**. These principles form the foundation of our business and influence every aspect of our work
