BRING YOUR  
IDEAS TO LIFE**

# » ABOUT US

## » OUR MOTIVATION

We are driven by our customers, their companies, and their employees. We work together to ensure that their projects are a success, while acting in an environmentally conscious manner and ensuring the sustainable use of resources. "Can this be thrown away or perhaps repaired or recycled?"

## » SEE A NEED AND FULFILL IT

We believe that standards alone are enough to provide our customers with the perfect solutions for their projects. That is why we are always on the lookout for the best materials the market has to offer. True to the motto: "Battle-Tested Materials." Personal contact with our customers is essential, because only through direct interaction can we truly understand and support them with our know-how in their projects.

## » TEAM SPIRIT

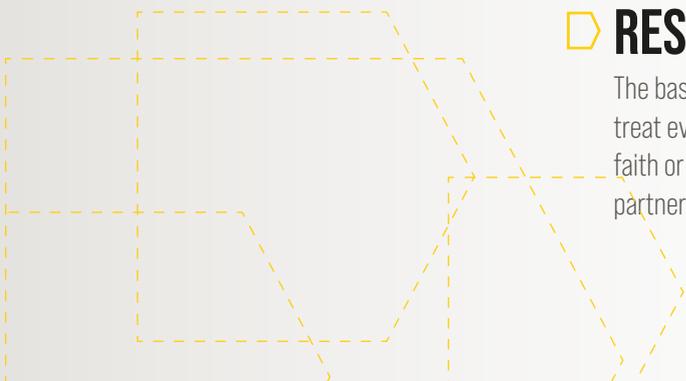

Every single employee is important to us, and we are delighted that we continue to grow. Here, too, we believe that great things can only be achieved as a team. A diverse mix of personalities, experiences, and talents – regardless of age or nationality – we support and look out for each other. We want team players, not lone fighters. Working together rather than against each other brings more joy, and only those who enjoy what they do and work with passion can truly be happy.

## OUR VISION

To provide everyone interested in repairing their equipment or outdoor clothing, or creating new ones, with a comprehensive platform to achieve their goals.

## » RESPECT AND TOLERANCE

The basis of all our values is respect and tolerance. Regardless of their social status, we treat everyone with the respect they deserve. Regardless of gender, language, race, origin, faith or political ideology, we treat people equally. We expect the same from our business partners and colleagues.
