

# **Olly & Molly<sup>®</sup>**

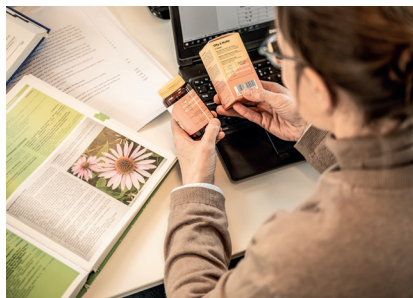

Premium Pet Supplements

## **A touch of nature for your pet's health**

**Discover our range of plant-based pet supplements**

# Olly & Molly stands for high-quality natural pet supplements

To keep our pets in tip-top shape, we have developed a range of high-quality nutritional supplements, formulated with the greatest care and out of love for our best friends.

## Plant-based

Our supplements consist of natural materials such as herbs, leaves, flowers, vegetables, fruits and other naturally occurring botanicals. Our aim is to provide preventive support to body functions and/or structures, as well as protection where needed.

## In-house R&D and manufacturing

We understand very well how important it is to know the origin and composition of the products we give to our furry friends which is why we maintain full control over our R&D and production facility. This way, we can guarantee safe and healthy supplements for our pets.

## Good quality requires investment

Our product engineers only use high-tech machines, so precise mixing, processing and dosing of ingredients is guaranteed.

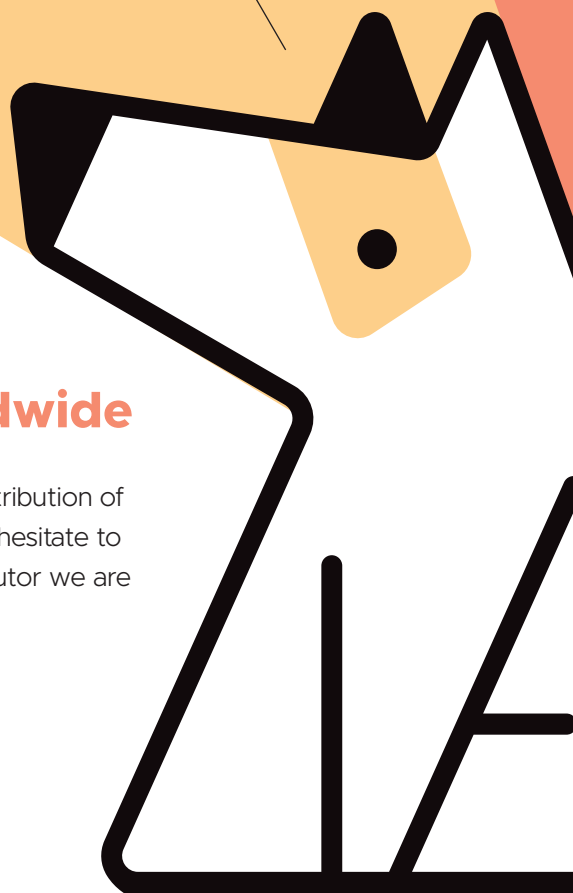

# Would you like to become our distributor?

**Olly & Molly is  
actively seeking  
distributors worldwide**

Would you like to join our global distribution of natural supplements for pets? Don't hesitate to contact us. You might be the distributor we are looking for...
