- [21] MOLLE loops on the base

Large escape and survival backpack with versatile organization options. The TT Modular Grab Pack 30 IRR offers 30 liters of volume and two large, fully opening compartments. The front compartment is equipped with four hook-and-loop zipped pouches of different sizes, and there are flat organizer pockets in the lid. The back wall of the rear compartment features a large hook-and-loop surface and two MOLLE strips for individual customization. Documents, for example, can be stowed in the flat front pockets. The backpack has a padded carrying system that can be adjusted to your own back length. Shoulder straps and waist belt can be removed, for example when the backpack is stowed in vehicles. Both the CORDURA® materials and the straps, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).
