

Company Profile

About ARBOR Group

A global company that leads Edge AI HPC and mobility solutions

Intelligent mobile services provider, founded by ARBOR Technology and MediaTek

System integrator and service provider

ARBOR: From Edge to Action

From Edge

From edge, we're empowering devices to make intelligent decisions in real time, right where the data is created

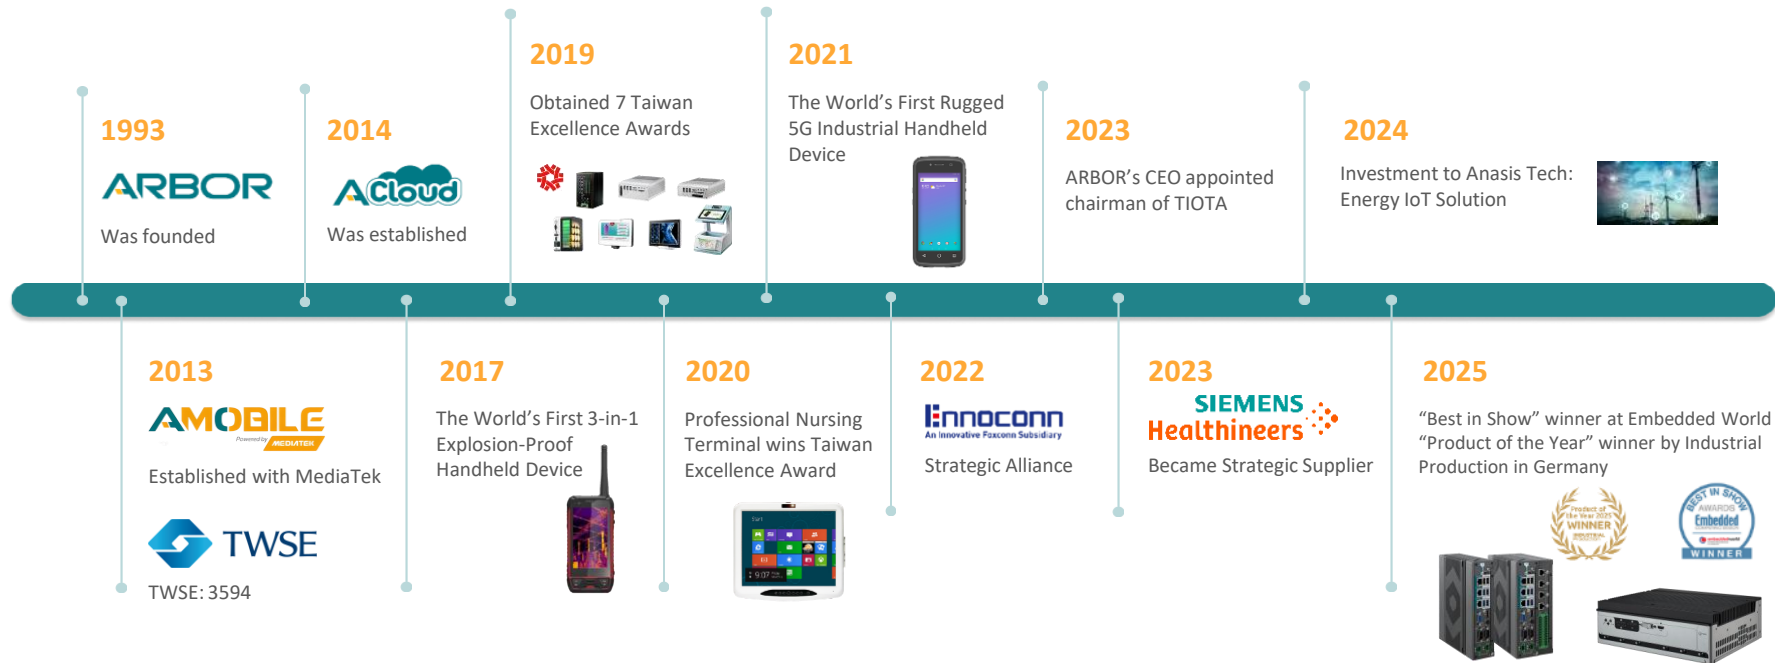

To Action

This accurate processing and analysis allow us to action on critical insights without delay, transforming raw data into tangible results

- ▶ ARBOR provides comprehensive system integration, customer-centric design services, Edge AI HPC and embedded systems, automation products, and global logistics support
- ▶ We offer instant Design-Manufacturing-Service (OEM / ODM) to help clients maximize their business success

Milestones

Internet of Everything on Edge AI HPC

Application

AI HPC

Edge Computing

Terminal Device

ARBOR Global Operations

ARBOR is a global provider of Edge AI HPC, industrial IoT computing and mobility solutions

32+ Years Operations

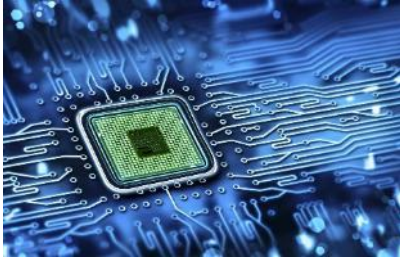

8 Branch Offices

4 Local Design-in Centers

2+2 Global Production Sites (w/ partners)

130+ R&D Engineers Globally (ARBOR)

Technology Leadership

01

WattSaver

ARBOR delivers optimal performance solutions through BIOS / Firmware development technology

02

BIOS Anti-Crash

If the system BIOS flash is corrupted, the MCU's external flash memory can automatically restore the system

03

Certifications

The EN-50155, E13/E24 Mark, MIL-STD-810, etc., enabling rapid fulfillment of market and customer needs

04

Customization

Modular design, highly customizable, easy to upgrade and cost-effective to meet a variety of projects

Strategic Partners

Strategic Alliances

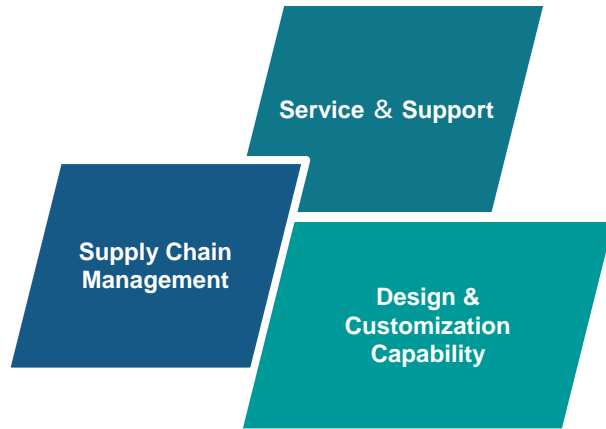

Industrial Partners

Association

Design and Manufacturing Services

- ▶ Systematic, customized and fast market responsive product development
- ▶ Fast OEM / ODM service to help customers improve business success rate

Benefits of an IoT Factory

Facilities

Clean room, burn-in room,
communication, testing

Manufactured Equipment

Auto burn machine in production line

Quality Management

100% full function test, 100% B/I, FQC,
ORT & MES system

Manufactured by Factory

With a completely e-SOP manufacturing
process

After-sale Service

Excellent e-RMA management system

Production Line

Full variety of production lines can
adapt to different clients' needs

Thank You
