# ABOUT US

ITALDOOR was founded in 2019 under the Egyptian investment law NO. 2017/72 as a limited liability company LLC. Specialized in ISO-Thermal industrial doors and semi-insulated doors.

Our factory was established in the industrial zone in 6th of October City in Egypt over 2000 Sq. Which gave us the ability to produce over 6000 units of hinged, swing, and office doors and 2000 units of sliding doors yearly using Italian production lines.

ITALDOOR factory is specialized in ISO-Thermal industrial doors and semi-insulated industrial doors using Italian components and hardware in cooperation with our partner INTERTECNICA that allowed us to consistently deliver high-quality products and ready stock.

By merging the experience of our GM with the enthusiasm of our experienced team for more than 10 years in the field of industrial refrigeration for the food and medical sectors, we are aiming to become the innovative leader of ISO-Thermal and fire-rated industrial doors manufacturer by providing and assure the ultimate quality to gain our customer satisfaction and trust.

# VALUE PROPOSITIONS

## **Innovation**

We are pioneering new smart Solutions in ISO-thermal industrial doors to help you operate easily and safely.

## **Quality**

Because quality is the reason for success, ITALDoor cares to constitute the ultimate quality products manufactured of Italian components and hardware following the European standards to exceed our clients` expectations.

## **Delivery**

Now you can have the Italian products at your door customized to meet your facility needs within the perfect estimated time and the most competitive price.

## **Fully Support**

We don't only sell. ITALDOOR provides its products with 18 Months warranty, spare parts, and a fully experienced installation and maintenance team always available for your support.

# WHY ITALDOOR?

After mastering our industry for more than 10 years we became the 1st Egyptian factory specialized and innovating in the industry of ISOThermal Insulated doors and Semi-Insulated doors.

Being specialized in manufacturing ISO-Thermal Insulated and Semi-Insulated doors made us concentrate on the products` efficiency by using Italian components in manufacturing our doors to supply the Egyptian market with European quality products that last for a lifetime.

ITALDOOR is pioneering new solutions in manufacturing semi-insulated industrial doors and ISO-Thermal industrial doors whether the freezing or cooling doors by using materials preventing temperature leakage from inside to outside the room and vice versa to save your product from damage.

Our success in manufacturing smart, reliable, and durable products with European standards allowed us to export for more than 14 countries in the MENA Region and be their first choice.

# VISION

**Become the innovative leader of ISO-Thermal and fire-rated industrial doors manufacturer in MENA.**

# MISSION

Office Doors

1

## Hinged Doors

ITALDOOR manufactures ISO-Thermal insulated hinged single and double doors using Italian components suitable for cold, freezing, and clean rooms. We introduce a new Solutions of anti-bacterial hardware with premium quality following European standards.

2

## Sliding Doors

ITALDOOR has developed ISO-Thermal insulated sliding doors with two types; manual and automatic to help you continue operating easily whatever the frequency of passages, ITALDOOR is following the safety requirements because safety is the most important. Also, we added smart features to our doors that help you control them remotely.

3

## Swing Doors

It's mainly customized to help the large facility to save time and effort. Making allowances for its high quality that prevents temperature leakage in order to operate perfectly and in an easy yet effective way especially when passing through it repetitively which not cause any damage to it.

**4**

## **Office Doors**

**“Office door is indispensable” ITALDOOR manufactures semi-insulated high quality and durable office doors specially designed to insulate and prevent the transmission of sound between adjoining offices, helping to achieve privacy and comfort at work.**
