air-permeable
design

Built according
to EN 1176

Project Example | 2025

PLAYLETTER B, BAVARIA FILMSTADT

Eight meters high, it towers over the entrance area of the Bavaria Filmstadt in Munich, Germany: a giant turquoise “B.” From the outside, it is an absolute eye-catcher. Inside awaits a maze-like adventure world: chambers, hatches, beams, and ramps invite children and teenagers to play and hide across several levels. Numerous plexiglass windows ensure bright interiors. A stainless-steel slide leads outside from halfway up, completing the XXL letter.

KristallTurm® PlayLetter

A LANDMARK TO EXPERIENCE

High play value in a small space

The PlayLetter offers a unique and dynamic play experience. Its compact vertical design makes it also ideal for locations with limited space.

Strong Branding

The PlayLetter is both landmark and attraction. At leisure destinations, it becomes a symbol for an entire region.

Customization

Themes, your corporate identity, and elements such as slides, nets, climbing walls, and more make each PlayLetter unique

Modular System

The PlayLetter is available in two standard sizes (6.2 m & 8 m). With just a few basic modules, all letters can be created.
