Since 2000, year of our foundation, the passion for nature has led our scientific team to dedicate the results of our studies and botanical research to **animals** and **environment**.

We formulate, produce and sell natural products result of our scientific research for the care of **dogs, cats, horses** and for the **hygiene** and **protection** of the places where we live.

We develop also tailored products for Private Labels and specific market.

Nature, scientific research, bio-inspiration and well-being:
this is Union B.I.O.

WE THINK ABOUT THE ENVIRONMENT

We formulate in our laboratories and produce in our company based in Tuscany. Our products are the result of a constant synergy amongst **scientific research, innovation** and **botanical knowledge**... *a tight embrace between human creativity and Nature.*

SCIENTIFIC RESEARCH IS OUR NATURE

We carefully select the **ingredients of plant origin** contained in our formulations so that the products are effective and safe for humans, animals and environment.

MATRICE U.B.®

The validity of our products is given by the synergy between the formulations elements and by the **MATRICE U.B.®** - *our registered trademark* - an extract of the olive tree able to strengthen the officinal plants properties.

THE FORMULA OF WELLBEING

We work every day with one goal: **the welfare of our animal and the protection of the environment.**

WHY CHOOSE UNION B.I.O. PRODUCTS

LABORATORY
QUALITY
CONTROL

PRODUCTS RESULTING
FROM THE SCIENTIFIC

plant-based products for care, hygiene and beauty of
dogs and cats

plant-based products for care, hygiene and beauty of **horses**

environmental
products to keep on
distance unwelcome
insects and animals with
the safety of ingredients
of plant origin

plant-based products for
hygiene and cleaning and
personal care products

CERTIFICATIONS / AUTHORIZATIONS / PROJECTS

Union B.I.O. Union B.I.O. follows the standard **ISO 9001:2015** (certificate no. 57551).

For the first time, the scientific team of Futuro in Ricerca Consortium Labs tested the efficacy of **plant-based products with repellent activity** formulated by Union B.I.O.

The efficacy tests were performed in a controlled environment and in the field.

The results demonstrated an effective repellent action against the most common insects. The products "No Flying Insects" and "No Flying Insects Plus" are **authorized by the Italian Ministry of Health as Medical Surgical Devices**.

Union B.I.O. is the leader of **AGROCEUTICAGREEN** co-financed by Regione Toscana under POR CreO Regione Toscana - European Regional Development Fund (FESR). The project aims to produce and use new formulations based on natural bioactive molecules for the antifungal and antibacterial treatment of soils and to control the proliferation of aphids in crops.

Receiving this fund is a milestone in favor of the environment to reduce the risk of bio-accumulation in treated soils and exposure of agricultural operators to synthetic chemicals.

SALES CHANNELS:

Specialty retail store for Animals

Grooming

Saddlery

Agricultural and Farming supplies

Pharmacies / Parapharmacies

Herbal shop
