Pea Protein

Pea Protein powder is a plant-based source of protein made by extracting protein from peas. It is a great alternative for those who follow a vegetarian or vegan diet, as it provides a complete amino acid profile similar to animal-based proteins.

- High-quality protein source and builds muscle mass.
- Can be added to smoothies, juice, or water as a post-workout beverage.
- Naturally hypoallergenic
- Adds a boost of protein to various dishes.
- Easier to digest and rich in iron.
- Has a positive effect on heart health.
- Helps to burn fat and tone muscle.

Dietary Fiber

Pea dietary fiber (PDF) is the by-product in the production of pea starch or pea protein. It mainly consists of insoluble dietary fiber with a hard texture, which is related to the tight structure composed of cellulose, hemicellulose, and lignin.

- Has strong water absorption and retention properties
- Gluten and allergen free
- Contains both types of soluble and insoluble fiber but rich in insoluble fiber
- Regulates effect of obesity
- Widely used in food, beverage, agricultural, pharmaceutical industries

Plant Based Protein
Organic and Conventional

- Pea Protein
- Mung Bean Protein
- Fava Bean Protein
- Chick Pea Protein

Plant based dietary fiber
Organic and Conventional

- Pea
- Mung Bean
- Fava Bean
- Chick Pea
- Cinnamon-Derived Microcrystalline Cellulose (MCC)
- Cinnamon-Derived Lignin

Natural Liquid Smoke

Liquid smoke is a natural product made from condensing the smoke from burning wood. The exhaust of a wood fire is condensed through a cooled tubing, capturing the smoke.

Natural Liquid smoke:

- Adds a delicious smoky flavour for cooking
- Designed as a flavour enhancer
- No calories and fat
- Not recognized as a nutrient source
- Smoky flavour from 100% pure and natural substances
- Tantalizing aroma and flavour to the food with just few drops

Liquid Smoke Cinnamon

Liquid Smoke Pepper

Liquid Smoke Nutmeg

Liquid Smoke Clove

Liquid Smoke Powders

Gum Arabic Spray Dried Powder

Gum Arabic, also known as Acacia gum, Arabic gum and by various other names, is a natural gum consisting of the hardened sap of various species of the acacia tree. Gum Arabic is collected from acacia species, predominantly Acacia Senegal and Vachellia (Acacia) Seyal.

Product Details

Physical State -	Spray Dried Powder
Country of origin -	Sri Lanka
Color -	Pure white-Senegal Ivory color-Seyal
Grade/Purity -	Food Grade
Taste -	Tasteless

Odor -	Characteristic
Solubility -	Soluble in water
Foreign matters -	Nil
Storing condition -	Store in a cool, dry, well ventilated place protected from direct light.

Health Benefits

- Excellent Source of Soluble Dietary Fiber
- Prebiotic – Nourishes Good Gut Bacteria
- Helps Lower Blood Sugar & Cholesterol
- Supports Weight Management
- Anti-inflammatory Properties
- Protects the Liver (Hepatoprotective)
- Helps Manage Kidney Function

Potential Applications

Food Industry:

Emulsifier in flavor oils, beverages, soft drinks. Encapsulation of flavors, essential oils, oleoresins (e.g., cinnamon bark oil). Stabilizer for confectionery, gummies, marshmallows. Fiber source in functional foods. Foam stabilizer in beer and soft drinks.

Pharmaceuticals:

Binder in tablets. Suspending agent in syrups. Film-forming agent for coating.
