

GO 900 "MAXIMUM THROUGHPUT. MINIMUM LABOR."

TOTAL SURFACE PROTECTION FOR PREMIUM FINISHES.

- Designed for Interior Doors, Cabinets, and Panels.
- ZERO-SCRATCH DELIVERY: Eliminate customer claims by ensuring 100% tension-controlled protection for lacquered doors and delicate cabinet surfaces.
- LABOR-FREE ASSEMBLY: Use the machine to "clamp" or hold protective corners in place while wrapping—reducing the need for a second worker.
- 6-MONTH PAYBACK: Even with larger components, the ROI remains under 6 months due to reduced damage claims and lower film waste.

TECHNICAL DETAILS	
Net Passing Diameter (mm) / (inch)	920/36.22
Standart Dimensions (WxLxH)	(1480x1680x2150) / (58.27 × 66.14 × 84.65)
Max. Rotational Velocity (rpm)	5 to 90 rpm
Total Weight (kg)	380 kg
Installed Power (kw)	0.375 kw

STRETCH FILM	
Max. Exterior Diameter (mm/in)	190mm / 7.50 in
Reel Core Diameter (mm/in)	76 / 3 (Opt. 38 / 1.5)
Film width (mm / in)	(125/167) (4.92/6.57)
Recommended Thickness (microns)	15,17,20,23,30

GLOBAL READY: PLUG AND GO FOR EU & US

GLOBAL READY: 110V (US/Canada) & 230V (EU). Arrives assembled. Start wrapping in 5 minutes."

WHY UPGRADE?

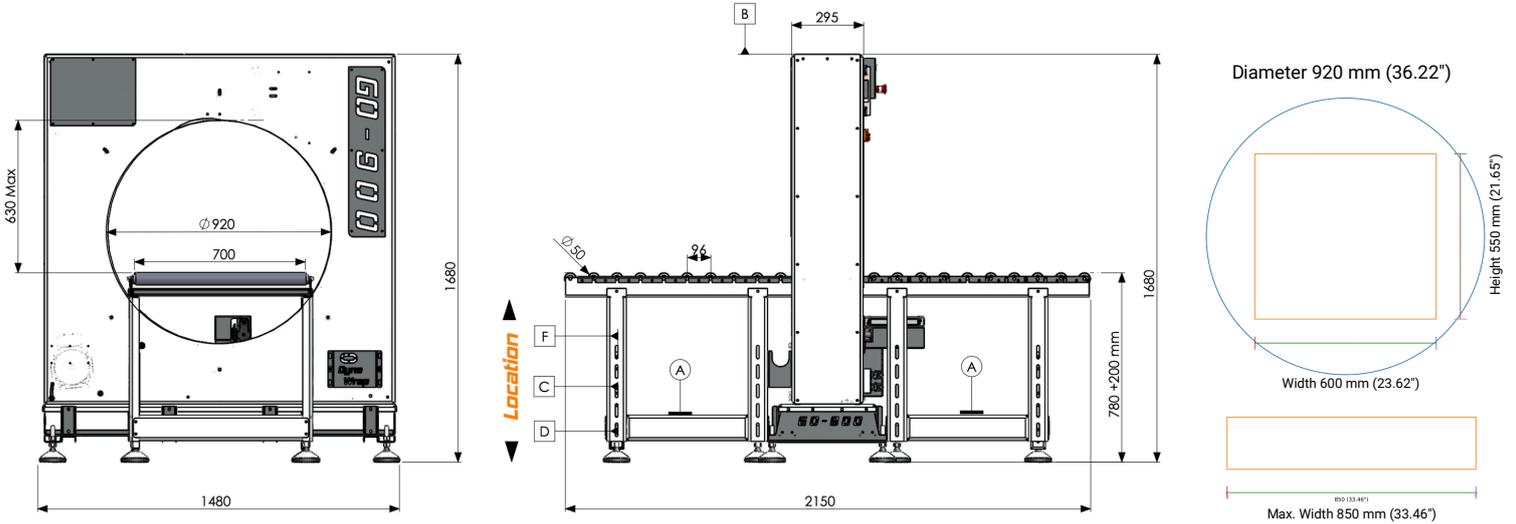

MANUAL HAND WRAPPING	DYNAPWRAP GO 900
EDGE PROTECTION: (LOOSE /INCONSISTENT COVERAGE)	TIGHT, HIGH TENSION EVERY TIME
PRODUCT SAFETY: RISK OF DROPPING & SCRATCHING	STABLE, CONVEYOR SUPPORTED FLOW
AESTHETICS: UNPROFESSIONAL "HAND-WRAPPED" LOOK	RETAIL-READY INDUSTRIAL FINISH
TIME PER UNIT: 4-6 MINUTES	30 SECONDS
