Expandable Batons — Handcuffs — Police Shields — Pepper Sprays and Spray Flashlights

Stun Guns — Tactical Flashlights — Rescue and EDC Knives — Tactical Pens and Palm-Sticks

Straight Police Batons — Plastic and Expandable Tonfas — Holders for Magazines

Equipment for Training — Duty Belts — Safety Mirrors — Tactical Equipment

Easy Lock Expandable Batons with Tactical Flashlight

- The flashlight on the Easy Lock baton **greatly broadens** its range of use
- Batons with the flashlight are available in **lengths of 16" and 18"**
- **Up to 1200 lm** thanks to **Luminus SST-40 LED chip**
- **4 modes of lighting:**
100% • strobe • 50% • 10%
- Flashlight is easily operated by a **single swiveling ring**
- A **quick instinctive twist** of the control ring to its end position instantly activates 100% brightness
- **IP68 certified** (withstands a 2m dive)
- Body made of highly durable **aero-space-grade duralumin type 6061**
- Powered by a **18350 type battery**
- The 18350 battery delivered with the flashlight has a **built-in charging module**
- The battery can be charged separately via a USB-C cable or with a compatible charger, e.g. type **FLBC-02** made by ESP

| Mode | Output | Runtime | Beam range |
|--------|----------------|---------------|--------------|
| 100% | 1200 lm | 1,1 h | 188 m |
| 50% | 510 lm | 1,25 h | 103 m |
| 10% | 100 lm | 4 h | 51 m |
| Strobe | 1200 lm | – | 188 m |

| Designation of the baton | | Type of handle | Weight (incl. battery) | Length (expanded) * | Length (closed) * |
|--------------------------------------|----------------------|----------------|---------------------------|------------------------|----------------------|
| in set with the BHT-54 holder | without holder | | | | |
| ExBT-16H+BL | ExBTO-16H+BL | anti-slip | 459 g | 465 mm | 247 mm |
| ExBT-16HE+BL | ExBTO-16HE+BL | ergonomic | 467 g | | |
| ExBT-18H+BL | ExBTO-18H+BL | anti-slip | 495 g | 517 mm | 264 mm |
| ExBT-18HE+BL | ExBTO-18HE+BL | ergonomic | 502 g | | |

* length tolerance: -0,6" / +0,4" (-15,2 mm / +10,1 mm)

Holders for ESP Expandable Batons with a Leather-Imitation Grip

- It enables very quick drawing of the baton **just with one hand**
- Thanks to an **innovative friction-based design**, there is no need to unfasten any straps – **just pull the baton out of the holder**
- Designated for **professional use**
- Compatible with both Easy Lock (holder type **BHT**) and Friction Lock (type **BH**) expandable batons made by ESP
- Made of highly durable polyamide

BHT-55-HL

SMARTAX

Tactical Police Flashlight

- We developed this flashlight in collaboration with armed forces experts to meet their exact requirements for service use
 - Equipped with **two fully independent switches** – tactical and head switch
 - **Tactical switch with medium light intensity** for searching enclosed spaces – prevents the user from being dazzled by light reflected from walls
 - **High-intensity light** can be activated without changing the position of the thumb on the tactical switch – its **sideways press** illuminates distant areas or reduces an adversary’s orientation
 - Head switch with **low light intensity** for illuminating documents or searching inside a vehicle without dazzling the driver
 - **Up to 1800 lm** thanks to the **Luminus SFT-40 Gen 2 LED chip**
 - **5 modes of lighting:**
100% • strobe • 25% • 5% • 1,5%
- Body made of highly durable aerospace-grade duralumin type 6061 with **IP68 certification** (withstands submersion up to 2 m)
 - Polycarbonate front glass
 - Distinctive grooved surface ensures a secure and firm grip
 - **Colored battery level indicator** on the head switch
 - Powered by a **unique 3-pole 18650 battery**, essential for the correct function of both independent switches (**included in the package**)
 - **Built-in USB-C connector** allows direct charging of the inserted 18650 battery
 - It takes about 4 hours for the flashlight to be fully charged
 - Can be used as an alternative self-defense device thanks to **punch tips** on the head
 - Detachable metal clip

| Mode | Output | Runtime | Beam range |
|--------|------------------|--------------|------------|
| 100% | 1800 lm – 350 lm | 90 s – 3,5 h | 510 m |
| 25% | 400 lm | 5,8 h | 245 m |
| 5% | 100 lm | 24 h | 134 m |
| 1,5% | 27 lm | 180 h | 67 m |
| Strobe | 1800 lm | – | 510 m |

Body diameter: 25,4 mm

Head diameter: 30 mm

Length: 140 mm

Weight: 146 g
(incl. 18650 battery)

LHU

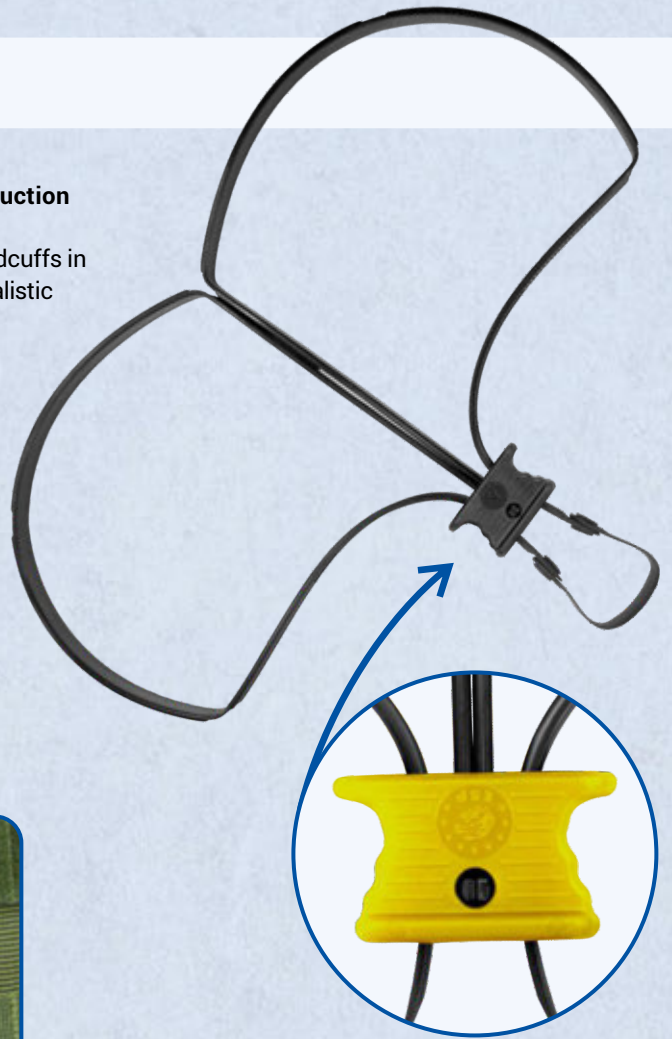

Plastic Holder for SMARTAX Flashlight

- Designated for **professional use**
 - Enables very quick drawing of the flashlight by tilting it out
 - **Safety lock prevents spontaneous release** of the flashlight
- Can be **rotated in the full scope of 360 degrees** without the use of any tools (it has 16 fixed positions)
 - Available with different clips for attaching to a belt or to MOLLE systems

HP-01-V2 Plastic Disposable Handcuffs

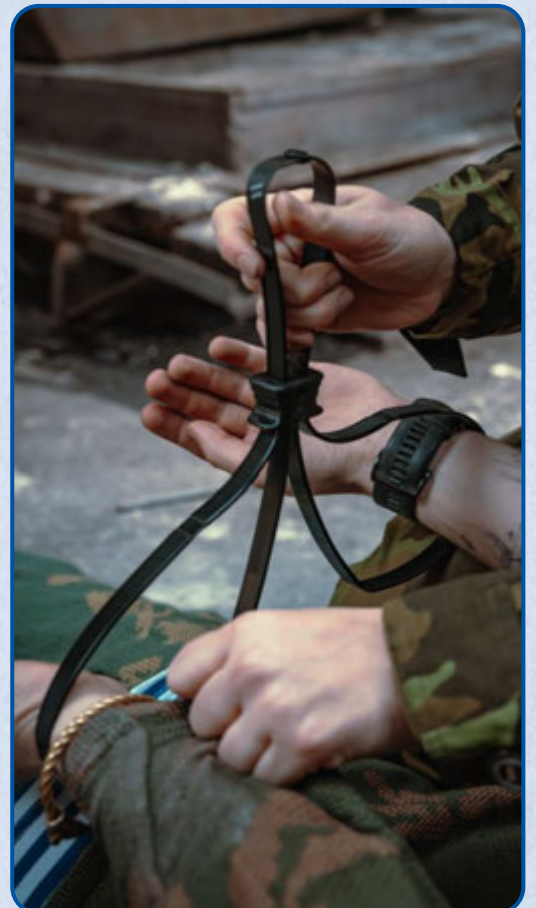

- **Foldable design and low weight** for easy handling
- Unique **wedge-locking** system ensures maximum security **without the need for any additional handcuff locking**
- 3 tapered points for bending on each eye
- Tearing strength of the plastic strap is over **200 kg**
- **Patent pending construction**
- **Training version** of handcuffs in red color serves for a realistic training experience
- Available in **black** and **yellow** color
- Weight: 50 g (without transport lock)
- Made of **highly resistant polyamide**

HPH Holder for Plastic Disposable Handcuffs

- This plastic holder is designed for comfortable all-day carrying of **2 or 4** ESP plastic disposable handcuffs (both type **HP-01-V1** and **HP-01-V2**)
- Available with **different types of clips** to suit your needs for attaching the holder to your gear (belt, MOLLE)
- The holder can be **smoothly rotated** in the range of 360 degrees **without the use of any tool** (there are 16 possible fixed positions)
- Made from highly durable polyamide

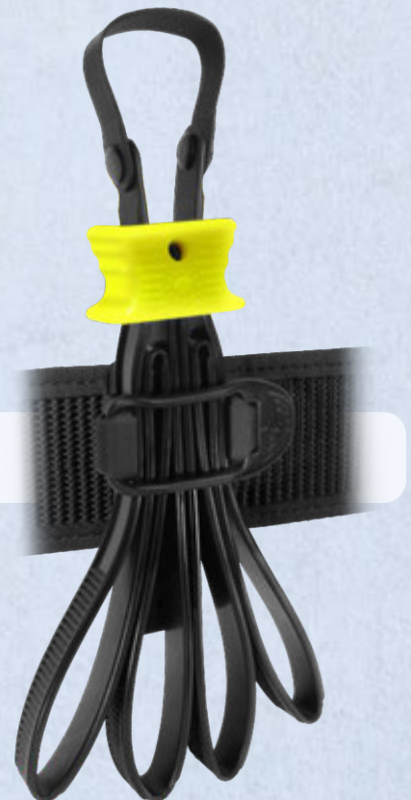

HPH-54 holder

HPH-52 holder

HPC Tactical Clip for ESP Plastic Handcuffs

- Designed for **comfortable all-day carrying** of ESP plastic handcuffs (type **HP-01-V1** or **HP-01-V2**)
- A **flexible flap** securely holds the handcuffs in place and prevents them from loosening
- Made of highly durable polyamide
- Type **HPC-01** is designed for attachment to **MOLLE gear**
- Type **HPC-61** features a **metal clip** for carrying handcuffs on a belt

HPC-61 tactical clip

HPK-01 Cutter for ESP Plastic Disposable Handcuffs

- Designed for the **safe removal** of ESP plastic disposable handcuffs
- The cutter has an **ergonomic design** for a **secure grip**
- The sharp edge **is embedded** to prevent injuries during handling
- Made of highly durable polyamide
- Includes a hole for attachment to clothing or a key ring
- The unique design of this cutter is protected in the EU and the USA
- Dimensions: 72 × 60 × 15 mm (height × width × depth)
- Weight: 22 g (including the key ring)

HPK-01 cutter

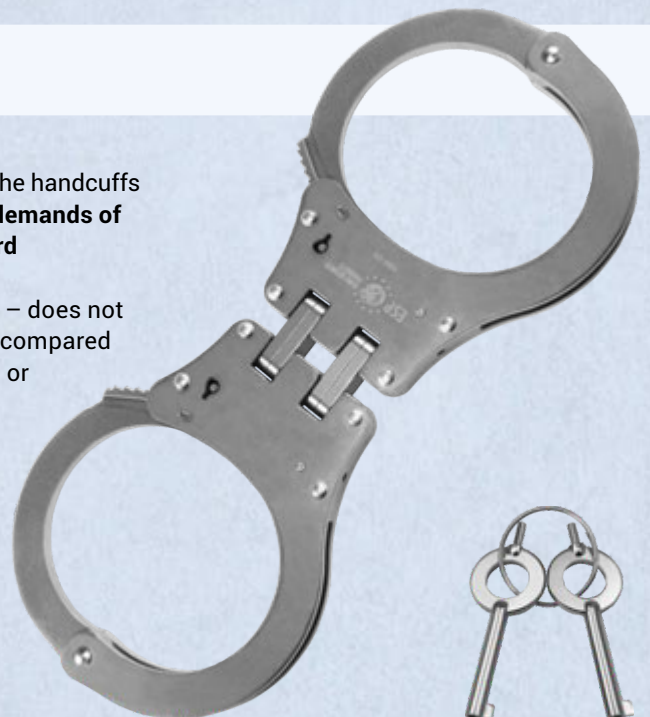

HM-04 Stainless Steel Chain Handcuffs

- Crafted from highly durable stainless steel
- **Double-lock system** for maximum protection against unlocking attempts
- Mechanical strength of the handcuffs **complies with the high demands of the NIJ 0307.01 standard**
- Hypoallergenic material – does not cause skin allergies (as compared to handcuffs with nickel or chrome surface cover)
- Supplied with a pair of universal keys
- Weight: 320 g

HM-05 Stainless Steel Hinged Handcuffs

- Crafted from highly durable stainless steel
- **Double-lock system** for maximum protection against unlocking attempts
- **Hinge with a 180° opening limit**
- Restrains hand movements and prevents unwanted unlocking
- **Keyholes face the detainee's body, keeping them out of reach**
- Mechanical strength of the handcuffs **complies with the high demands of the NIJ 0307.01 standard**
- Hypoallergenic material – does not cause skin allergies (as compared to handcuffs with nickel or chrome surface cover)
- Supplied with a pair of universal keys
- Weight: 356 g

HMH-02 Nylon Holder for Metal Handcuffs

- Compatible with **most standard metal handcuffs**
- Strap on the rear side enables mounting on **MOLLE systems**
- Made of **durable, lightweight, specially shaped nylon**
- Features an **inner pocket for a spare key** that stays easy to reach
- Weight: **69 g**

HMHP Plastic Holder for Metal Handcuffs

COMING
SOON

- Compatible with **most standard metal handcuffs** – both **chain and hinged**
- It is equipped with a **metal clip** that allows quick attachment to a **belt** (without having to unbuckle it) or to a tactical vest with MOLLE systems
- It has a **locking strap** that keeps the handcuffs secure
- The holder is made from **highly resistant plastic**

HURRICANE Max Pepper Spray 20 ml

- A practical choice for **effective personal defense**
- **Compact size** that fits comfortably in a backpack or pocket
- **Trendy signal colors** for easy **recognition** of the spray in a bag
- **Safety lock** of the button prevents unwanted release of the spray
- 20 ml of 10% OC (Oleoresin Capsicum) in **non-flammable** solution
- **Jet form** – less susceptible to dispersion by possible mild wind
- Enables approx. 25 short shots at the **distance of 3 m**
- Height 109 mm, weight 39 g

Door-Mounted Pepper Spray with Light

- **Strong pepper spray** (15% OC) **combined with the LED light** will always be handy and **ready for an instant defense**
- Door mount can be attached with **4 screws** or a **double-sided tape** (both included in the package) to the front door, under a desk top or on the dashboard of your car
- You can **swivel the spray** to find the best position for its **fast drawing** in emergency situation (16 fixed positions, without the use of any tool)
- Made of **highly resistant polyamide** in **black and white** color
- The covering cap prevents any **unintentional activation** and serves as a light switch
- You can operate both flashlight and the pepper spray **with one hand only**
- Intensive spotlight lights the aggressor's face and blinds him

- Can be used in darkness as an **ordinary flashlight**
- Dimensions of the base: 50 × 110 mm (width × height) with possibility of shortening to 50 × 65 mm
- You can choose **POLICE TORNADO** in **63 ml** or **100 ml** size
- **Non-inflammable** content suitable for **professional use**
- Powered by two batteries CR 2032

| Volume | Diameter of the spray can | Height of the spray | Weight of the spray |
|--------|---------------------------|---------------------|---------------------|
| 63 ml | 35 mm | 137 mm | 124 g |
| 100 ml | 40 mm | 165 mm | 165 g |

up to 6 m
JET form

Perfect defense solution not only for:

- receptionists and sales clerks
- petrol station attendants
- drivers
- clerks
- doormen and security services
- households...

WB-01 EDC Safety Kit 2 in 1 – Pepper Spray and Window Breaker

- Two safety products in one handy tool – pepper spray and window breaker
- **HURRICANE pepper spray** is located on the upper side, so its switch is available for immediate defense
- 15 ml of 10% OC (Oleoresin Capsicum) for reliable self-defense at the distance up to 3 m
- **Jet form** – less susceptible to dispersion by mild wind
- **Safety lock** prevents accidental discharge
- Enables approx. 20 short shots
- The pepper spray can be easily replaced with a spare **HURRICANE** spray (15 ml)
- The **window breaker**, with a tungsten carbide tip, is located at the lower end of the body
- A mild strike is sufficient to reliably break glass, such as a car window

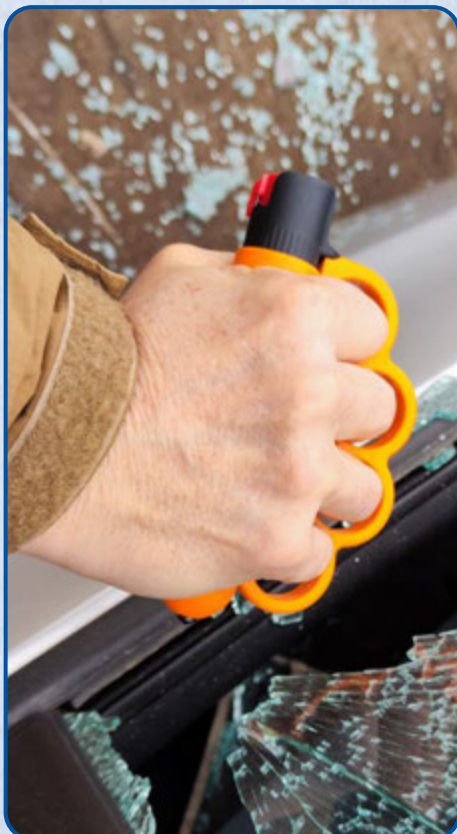

← pepper spray →

→ window breaker

- The breaking tip is not too sharp, preventing accidental injury during regular handling
- **The robust body** is made of polypropylene in black or orange
- The HURRICANE spray can be delivered in black or yellow
- Ergonomic handle for a secure grip
- Dimensions: 144 × 75 × 30 mm (height × width × depth)
- Weight: 75 g (including the spray)

EK-01 Knife for Everyday Carry

- Made of **cutlery steel type AUS-8** with **PVD surface** for maximum resistance
- **Flat clip** – innovative solution of the metal clip, which is **partially embedded in the handle**
- **Liner lock** type safeguard
- Handle is made from **resistant PA 66 polyamide**
- Handle fits both right-handed and left-handed users
- Knife's unique construction is protected by a European Community Design
- Handy **ring** for attaching the knife to the gear or to a key chain
- Fine pattern on the surface of the haft prevents the knife from slipping from the user's hand
- The knife is available in many color variations and with 2 types of blade

Length: **118 mm**
(closed knife)

Length: **206 mm**
(open knife)

Weight: **160 g**

Blade width: **3 mm**

ESP Scissors

- Handy tool for work and home
- **Finger rest** for comfort cutting
- For both right-handed and left-handed users
- **420J2 cutlery steel** for precise cutting

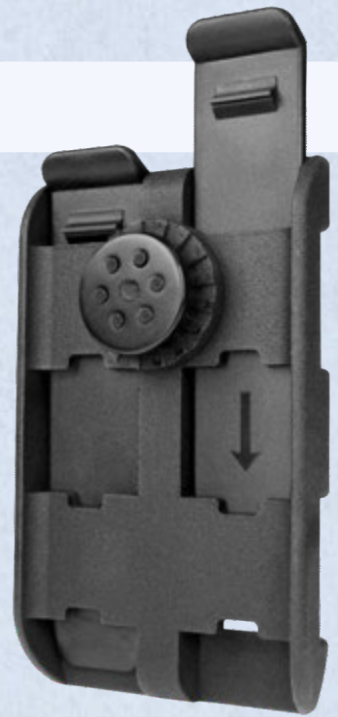

- **Highly resistant against corrosion**
- Length: 175 mm (incl. finger rest)
- Weight: 50 g

UBMC-07 MOLLE to Belt Clip

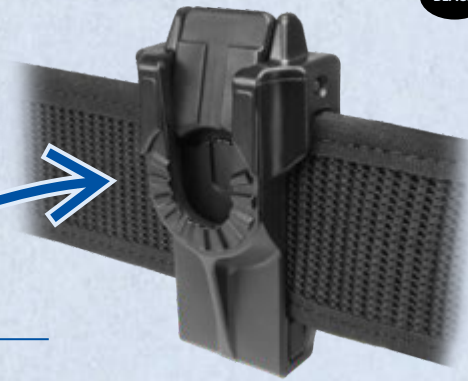

- Thanks to this clip you can carry any holder with MOLLE straps **either on your belt and on a tactical vest or backpack** with MOLLE system
- Enables the holder to be **rotated in the full scope of 360 degrees** without the use of any tools (it has 16 fixed positions)
- Perfect solution **for carrying of your first-aid kit** or document pouch
- You only need to **click the holder** with fastened UBMC clip on the UBC clip already attached on your gear
- Delivered in set with UBC-07 MOLLE clip and/or UBC-05 belt clip – upon customer's request
- Both belt clips enable rapid attachment of the holder to a belt **with one hand only** and **without the necessity of unbuckling the belt**
- Made of **highly resistant polyamide** in **black** and **khaki** color
- UBMC clip can fit MOLLE straps in 2 rows and 2 columns
- Dimensions: 65 × 108 mm (width × height)

ASQ Square Police Shields

- Made of high-quality, **extremely resistant polycarbonate** with thickness of **3 mm**
- Provide sufficient coverage without restricting the user's movement during intervention
- An ergonomically shaped inner reinforced plate **effectively dampens impacts and vibrations**
- ESP shields **absorb approximately 85 % of impact energy** (verified by an expert report)
- Rubber handles with deep reeding ensure a secure grip
- Available with a protective edge upon request
- Width: 560 mm ± 10 mm

ASQU-57-60

Police Shields with Protective Edge

- Made of **highly resistant EPDM** (synthetic rubber)
- Edge is **sewed to the shield** – it is highly resistant and can't distort polycarbonate as a glued edge
- Weight: 330 g (thickness of 3 mm)
- **ASR, ASC** and **ASQ** type shields with the thickness of 3 mm and 4 mm can be delivered with this protective edge
- These shields are available upon request only

Police Shields in Smoke Color

- It has **approx. 50% light transmittance**
- These shields are available upon request only
- Minimum ordering quantity is 500 pcs (negotiable)

ASCU-57-60
