How Yonghe is different

Quality.Honesty

- 1,Experienced scissor masters keeps the **steady of quality**
- 2,High production capacity guarantees the **on-time shipping**
- 3,The purpose of long-term cooperation forces us **SELL WHAT WE TELL**, never cheat on the materials we use.

At Yonghe,

Each pair of scissors are well tested

Each customer is fully respected

Each order is on-time shipped

Each word is kept

Each feedback is seriously treated

Each cooperation is cherished

Quality:

At Yonghe, quality is always the most important. **QC** is done after **each procedure**, and also advanced machines, and tech. are used to guarantee and improve our quality.

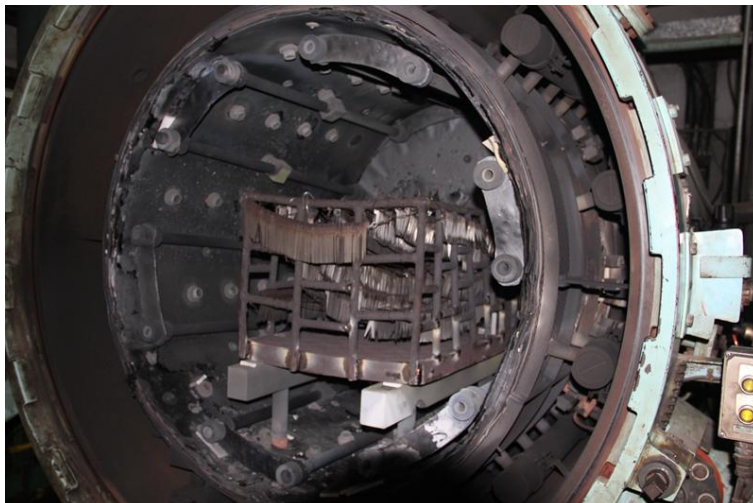

1,Hole drilling:

Since Dec. 2014, a drilling machine has been used for screw hole drilling, to guarantee the precise screw hole.

2,Heat Treatment:

The heat treatments for scissors of different materials are separated. Only the central part of furnace is used to guarantee the even-hardness of each blade.

3,Designing:

Yonghe adds several new models each year so that our customers can have more options.

Where is Yonghe
