How do we do it?

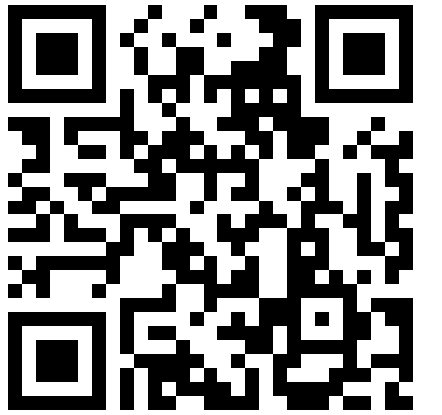

We offer a wide choice of references for our pets, focusing on **sustainable and natural products**, on high quality and on Made in Italy. We are also official distributors of the **primary brands of the pet industry**.

Not only we want to **take care of our pets**, but we also want to cherish **the environment we live in**.

We actively and constantly source for **partnerships** with companies who commit on **environmental preservation**.

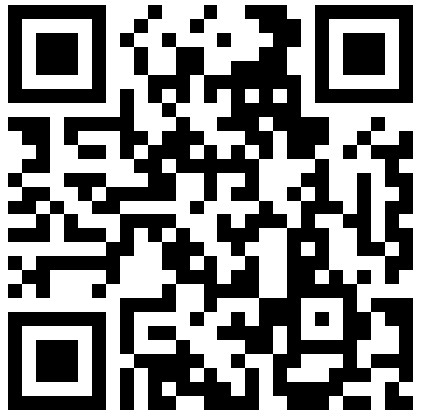

Our Brands

We developed different brands to convey **the right values and feeling** to the various products in Farm Company's assortment.

Our Catalogue

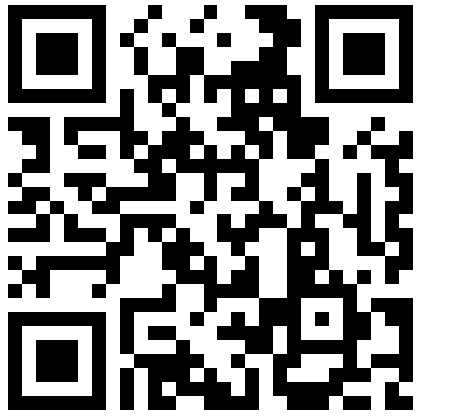

Farm Company product catalogue is a constantly updated tool: the number of available references grows rapidly month after month; all product categories are periodically revisited and updated.

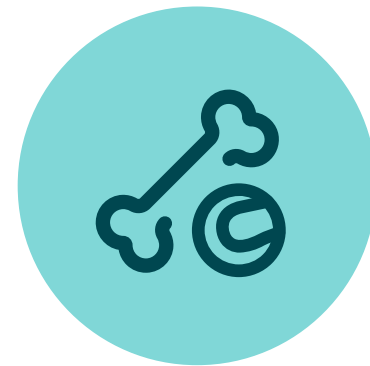

The **selection of new products** originates from a regular overview of the latest market trends, constant and accurate attention to what is presented in the latest trade shows, but most of all from the daily exchange of feedbacks and ideas with our numerous customers.

PET CARE

FARM COMPANY

Farm Company Green

Farm Company Green project was born with the aim to offer all pet owners the opportunity to make a **green oriented purchase** when buying for their pets, in all fields, from toys to snacks, from care products to natural cat litters.

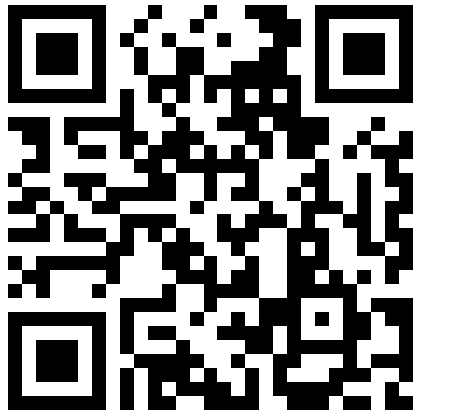

Natural and sustainable products, better for our pets and better for our environment.

Distributed Brands

In order to provide a complete and accurate service to our customers, Farm Company is also official distributor of **primary and world known brands** in the pet business.

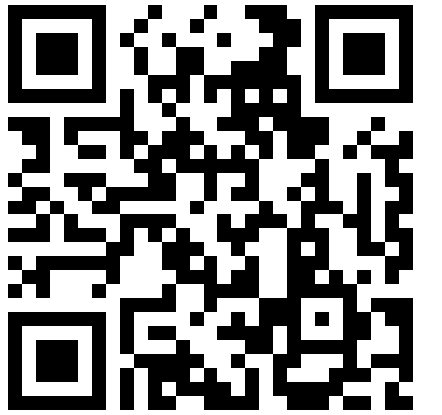

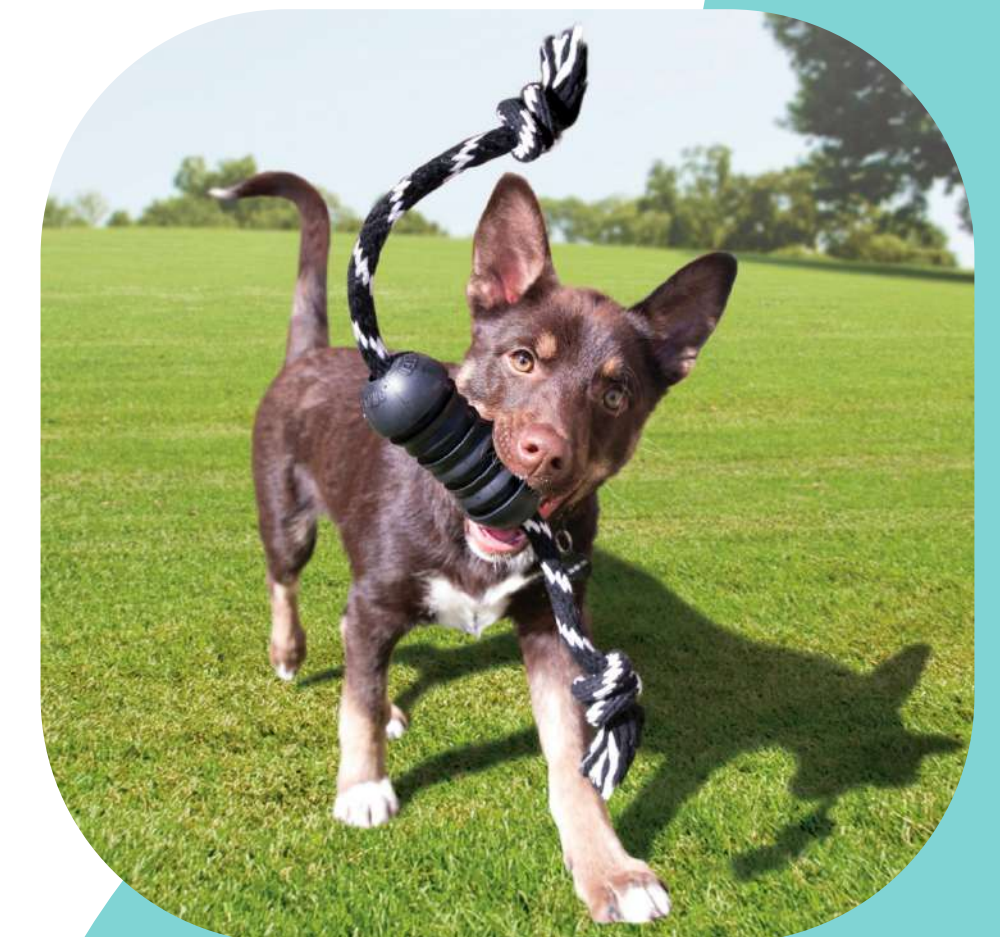

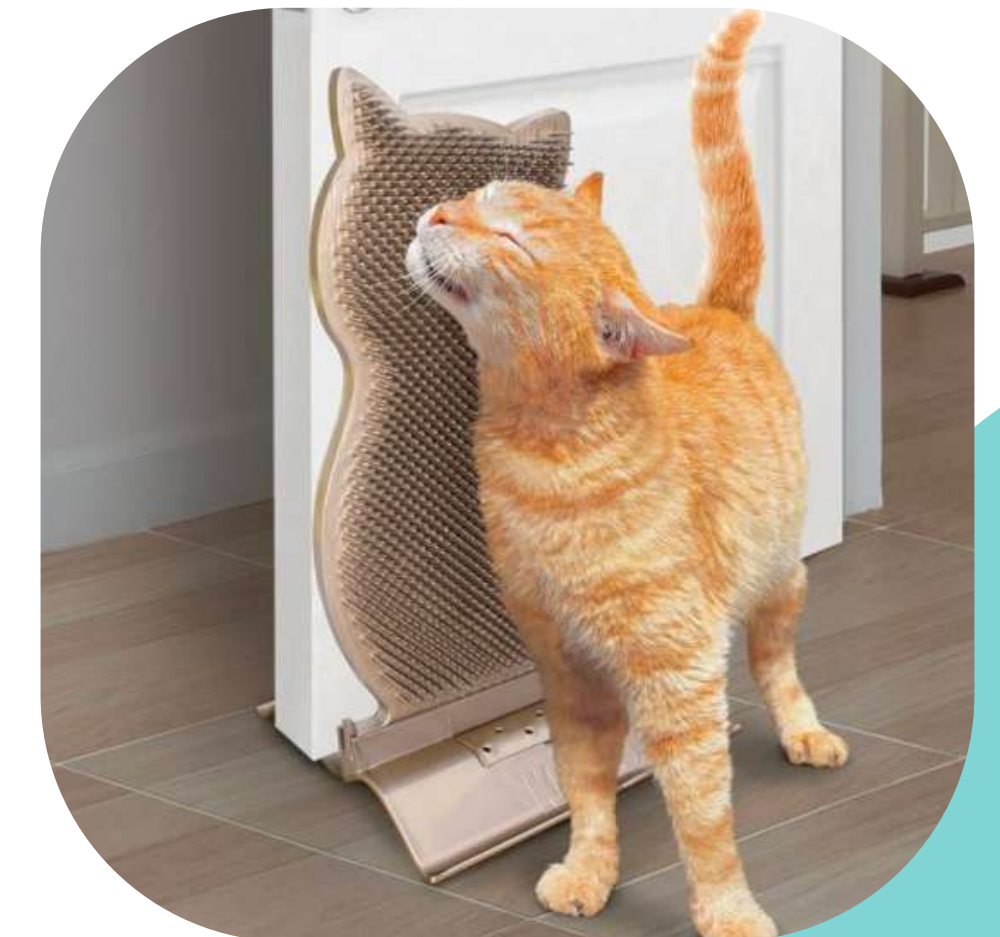

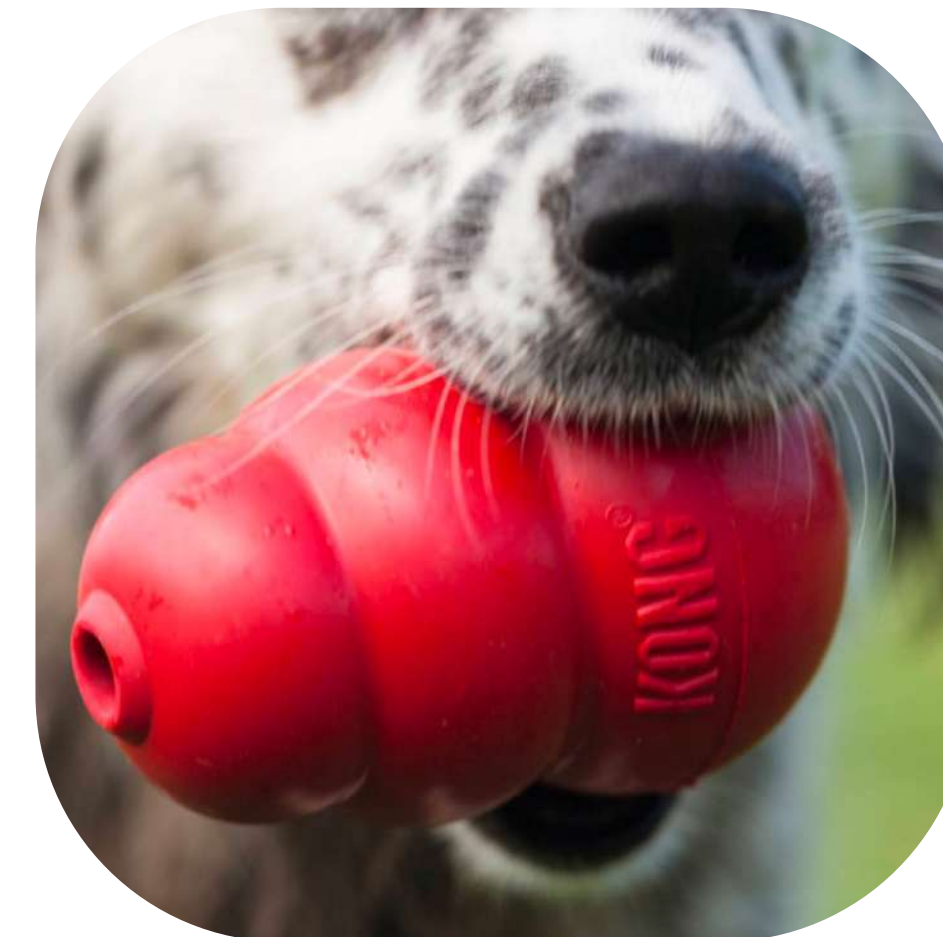

Beco was born in 2009. Since day one, they have been working to **help reduce the environmental impact of our pets.**

It started with a love of dogs, followed by the acknowledgement that giving them the life they deserve (plus a little extra) has an impact that needs to be challenged.

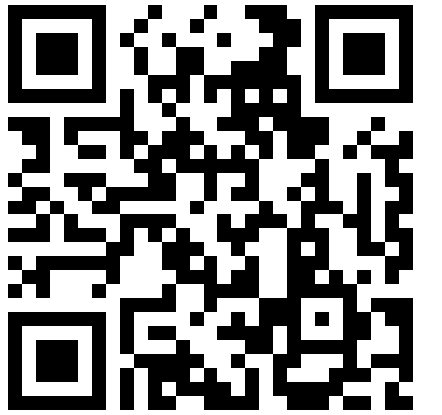

Dogs need to play. That's why since 1976 KONG works **to provide our pets with the safest and most innovative toys**, made from **the best and most durable materials**. Thanks to the attention to detail and a constant job of research and development, KONG offers pet parents the best way to interact with our beloved four legged friends.

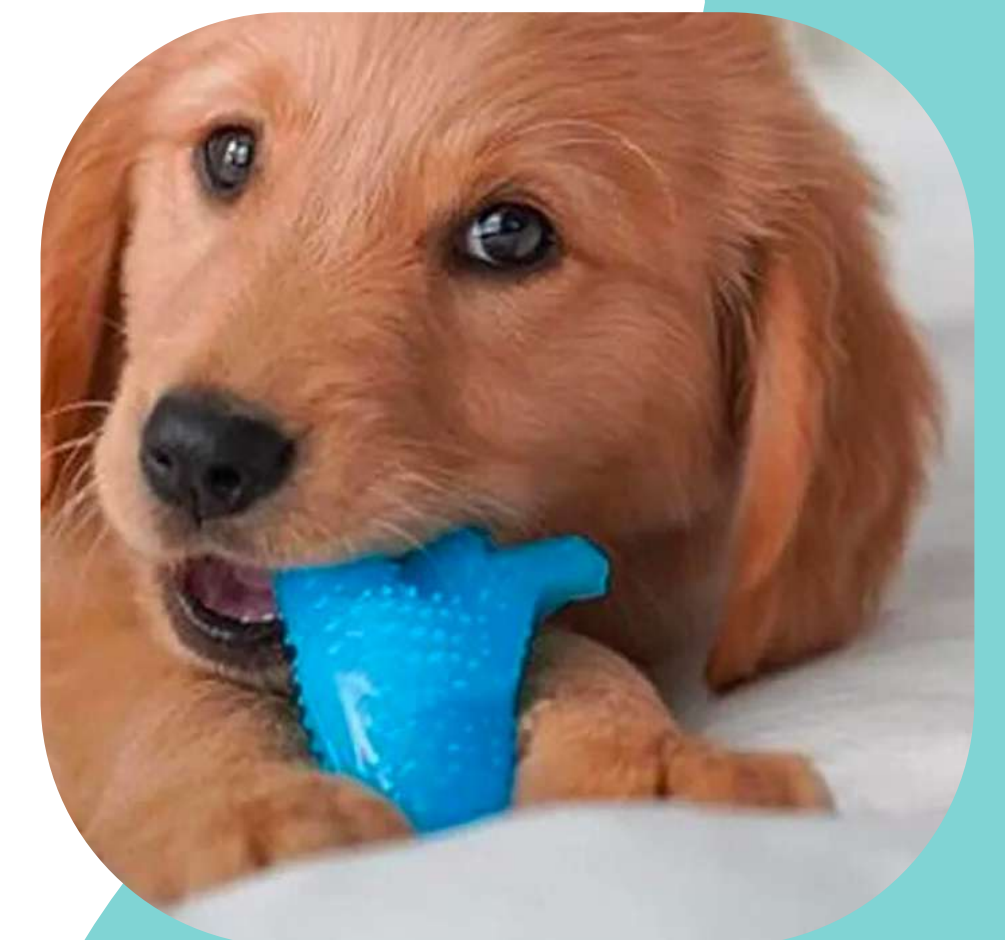

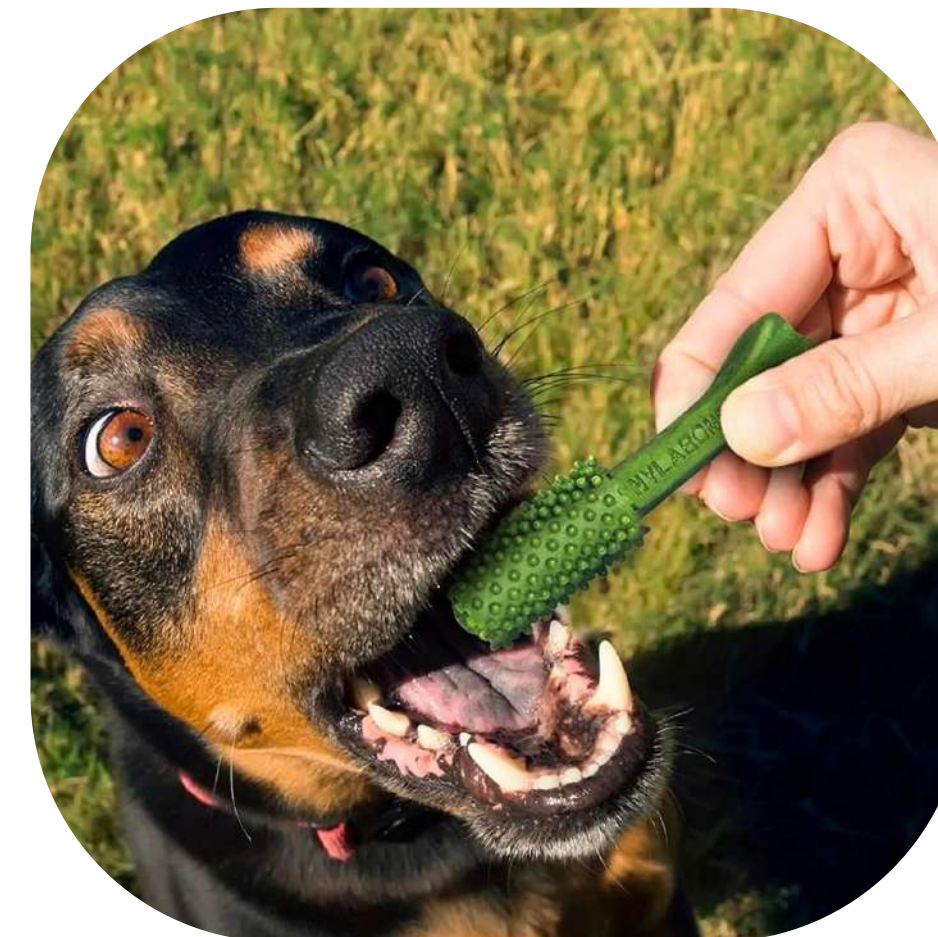

Nylabone®

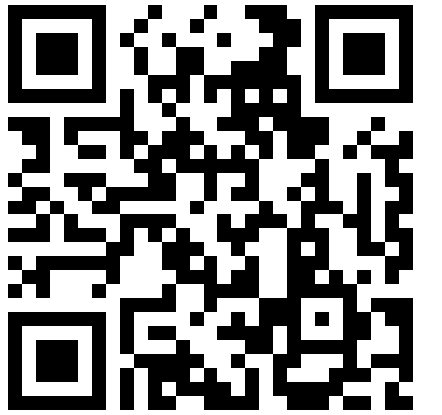

Nylabone **satisfies the natural chewing instinct** of our dogs, thus relieving the stress related behaviors such as boredom and separation anxiety, while taking good care of their teeth and gums.

Different consistencies, shapes and flavours to offer the best solution to each age and breed, according to the chewing power of our dogs.

FARM  COMPANY

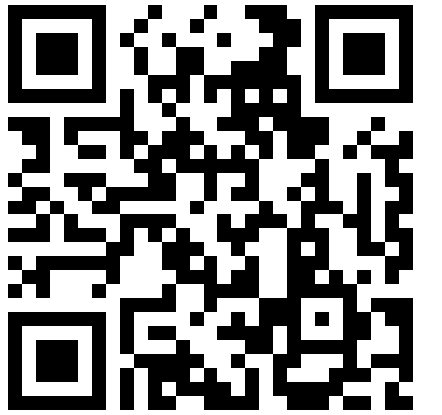

Since 2012 Solano develops **innovative products** for dogs and cats: from **ECOLIFE natural protection** range to **Relax-Sol natural calming line**, to the innovative **Go-Flex Collars for hips and joints mobility** and **Derma Protect range for a healthy skin and coat** of our pets.

Advance research and the best patented technology for the wellbeing of our beloved pets.

Nothin'to Hide™

Innovative **Collagen based** snacks, Nothin'to Hide provide a **natural, safe and healthy alternative to rawhide and to traditional chewing products.**

Collagen has numerous functional properties, among which promoting healthy skin and coat, reducing hip and joint pain, improving digestive process, supporting the organism especially in puppies and elderly dogs. Added with tasty beef, chicken and peanut butter flavours, they help to keep teeth clean and healthy.

FARM  COMPANY

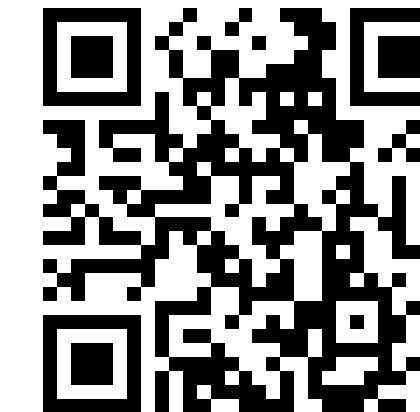

Les Filous: tasty and yummy snacks to share moments of joy and interaction with our four legged friends.

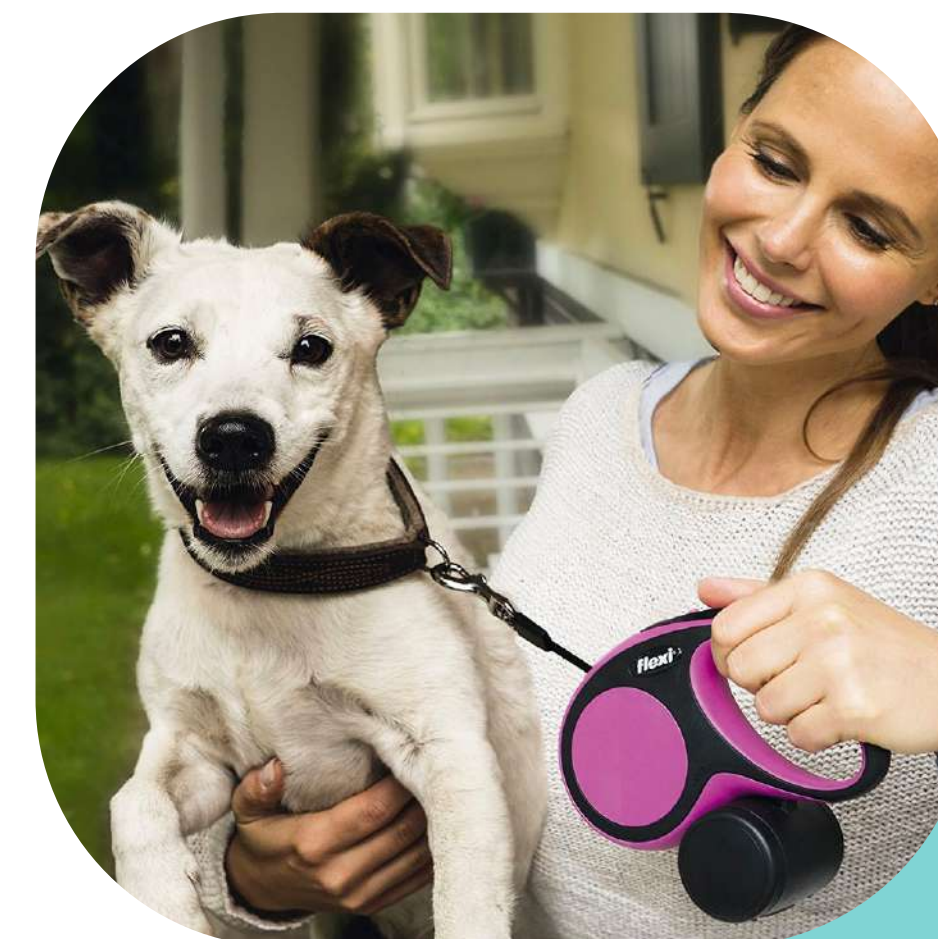

Various recipes, flavours and shapes to satisfy the palatability of every dog and cat.

A unique German invention, market leaders in over 90 countries worldwide.

Since 1971 Flexi has been producing its **famous retractable leashes** with the highest attention to technology and innovation to provide the best walking experience to all pets and to their owners.

International Trade Shows

Each year we take part to the primary national and international trade shows in the pet industry, presenting our newest developments to customers from all around the world.
