

## Ziegelmüller Beschlagtechnik Halle 12.0 Stand 905

with a comprehensive range of new products

At HOLZ-HANDWERK 2026 in Nuremberg, Ziegelmüller Beschlagtechnik will be presenting a comprehensive range of new products for carpenters, interior designers, and contract furnishers in Hall 12.0, Stand 905.

The focus will be on exclusive decorative fittings in every size, color, and style, allowing furniture and interior design projects to be refined individually.

Visitors can also look forward to smart electronic locking systems that can be easily programmed via a free app, offering greater comfort and security – both for furniture construction and for commercial and residential applications.

Another highlight will be innovations for the kitchen, including the new Magic Corner II from peka, available from autumn 2026, which takes storage space and ergonomics to a new level. In addition, Ziegelmüller Beschlagtechnik will showcase stylish table frames, highly efficient lighting technology, and compact, powerful electrification solutions for furniture.

At Stand 909, visitors can experience the products live and receive personal advice from the experts.
