

# Felizone

## CAT PHEROMONE DIFFUSER

**48 mL per bottle with an electrical plug**

Feline pheromone, Isoparaffinic Hydrocarbon

Felizone Diffuser mimics the properties of feline facial pheromones, which help promoting relaxation, reducing stress-related behaviors, and alleviating signs of anxiety and aggression in cats.

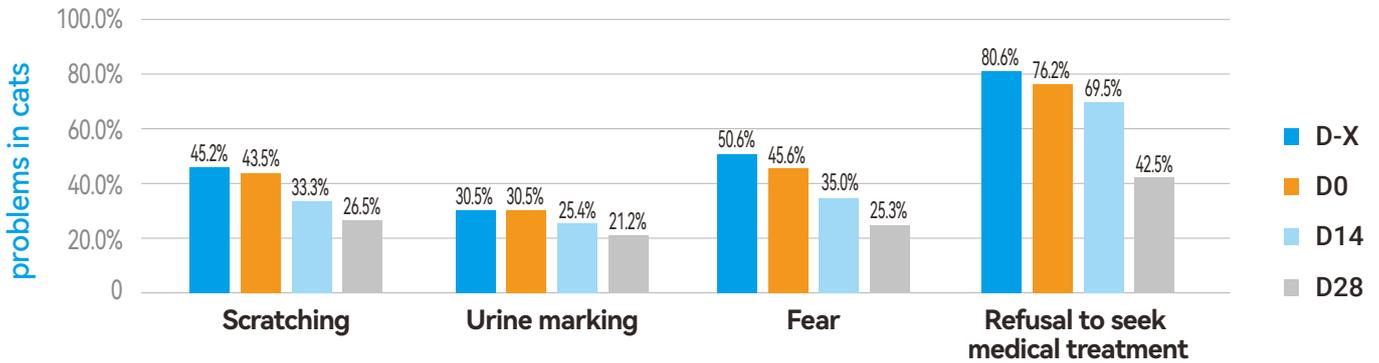

- Convenient, continuous pheromone supply, plug in and switch on.
- Suitable for use at home, in cat waiting areas, consultation rooms, hospital wards and treatment areas.
- Relax cat quickly without sedation, drug free.
- Each refill bottle (48 mL) lasts up to 30 days and covers up to 70 m<sup>2</sup>.
- Avoid plugging in the diffuser under shelves and furniture, or behind doors, curtains and furniture.
- The plug should be checked monthly and replaced every 6 months to ensure optimum effect.

### Clinically Proven Effective

Felizone Diffuser improves stress-related behaviors in cats such as scratching, urine marking, fear, and refusal to seek medical treatment.

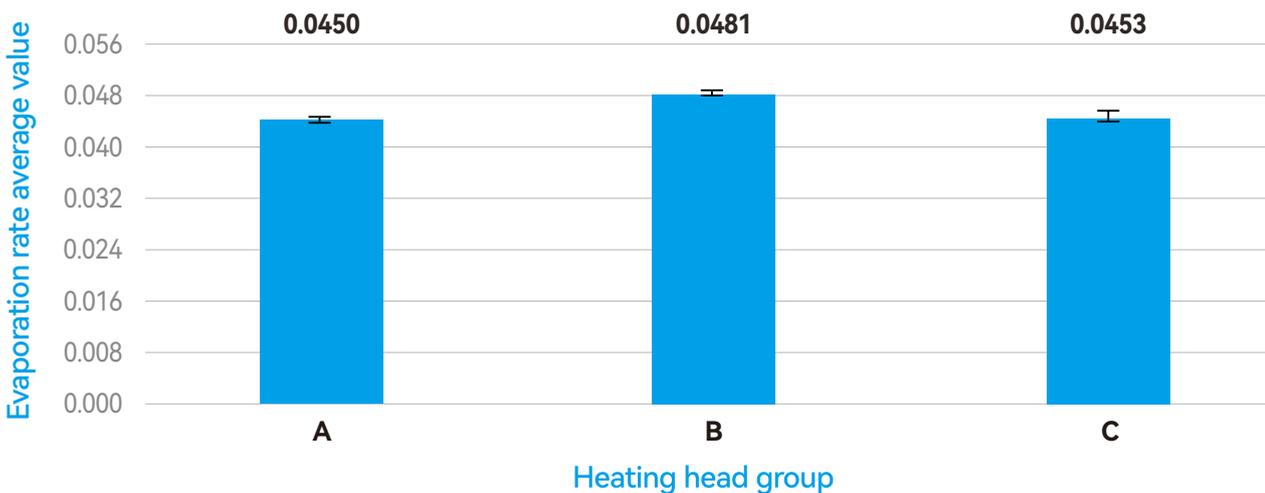

- Reduced percentage of behavioral problems in cats with Felizone Diffuser

## Stabilized volatilization

Randomly select 3 heating heads and measure their daily evaporation rate for 22 consecutive days.

- Volatilization rate stabilization of electric heaters

- Predicted volatilization days are about 30 days

Project \ Groups	A	B	C
Test days	22	22	22
Volatiled/g	26.3295	28.4271	26.7287
Left/g	9.6705	7.5729	9.2713
Volatile days	31	29	31
