Greif is a global leader in industrial packaging products and services –
pursuing its purpose of **CREATING PACKAGING SOLUTIONS**
FOR LIFE'S ESSENTIALS.

 GREIF'S FOOTPRINT IN DARK COLOR

PACKAGING SUCCESS TOGETHER®

1

ADHESIVES*

Our U.S. plants manufacture adhesives used in corrugated boxes, tubes and cores, edge protectors, boxboard, can, carton and honeycomb applications and offer custom formulations.

2

BOTTLES, JERRYCANS & TIGHT HEAD CONTAINERS

Greif offers small plastic containers from 50 milliliters to 30 liters. Our bottles, jerrycans, and tight heads feature sustainable barrier technology options, ensuring robust performance while meeting diverse customer needs.

3

BULK LAMINATED BINS*

Greif produces bulk laminated bins that safely transport and store dry flowable products. These bins come in a variety of sizes and styles supporting resin, plastic and food markets.

4

COATED RECYCLED PAPERBOARD*

Greif produces a wide range of grades and calipers of CRB for consumer packaging, food service and food/beverage packaging. Products are available in both sheets and rolls. Newly developed sustainable barrier coatings are available.

5

CONSTRUCTION PRODUCTS*

Greif excels in the concrete forming tube market. Our forming tubes are made with 100% recycled paperboard. Look for Greif EasyPour® Weathershield® construction products.

6

CONTAINERBOARD*

Greif produces many containerboard grades including recycled linerboard, recycled medium and semi-chemical medium. These grades are specifically designed to perform on high-speed corrugators and laminators.

7

CORRUGATED BULK BOXES*

Greif can create the perfect bulk box to protect and promote your products. From wheel bearings to watermelons, our bulk boxes come in a large variety of sizes.

8

CORRUGATED LITHO LAMINATION*

High-resolution images are added to corrugated board, providing a recyclable, superior coated graphic, optimized for retail and shelf-ready packaging.

9

CORRUGATED SHEETS*

The overall design and structure of our corrugated sheets are very durable – available in single, double or triple wall.

10

EDGE & ANGLE BOARD PROTECTORS*

Greif offers the best in edge and angle protection for all points in the supply chain including lumber, building material, furniture, appliances and many other products.

11

FIBRE DRUMS

A broad portfolio of drum types ranging from 1 to 75 gallons, Greif fibre drums provide heat and weatherability protection within space saving construction.

12

INTERMEDIATE BULK CONTAINERS (IBCs)

Exceeding superior strength and durability compared to the competition, the GCUBE® IBC tote is used for storing and transporting bulk quantities of liquid and semi-liquid products.

13

INTERIOR PACKAGING & PARTITIONS*

ColePak is an industry leader in the manufacturing of partitions and other interior packing products, specializing in a variety of different materials. The product offerings include fiber partitions, corrugated partitions, layer pads and die cutting.

14

LAND MANAGEMENT SERVICES*

Soterra is a land management company that uses intensive regeneration techniques to maintain an ongoing timber supply while protecting the land from erosion. We are active in the conservation of our property by following forestry best management practices.

15

PACKAGING CLOSURES

With over 100 years of experience, Tri-Sure® offers a full line of industrial closures – the industry's highest quality bungs, flanges, plugs, caps, cap seals, along with other specialty closure products and closure systems.

16

PAPER COATINGS*

Numerous coatings to choose from: anti-abrasion, anti-static, water resistance, wax replacement and more. Exceptional coating grades available for consumer, food and beverage products.

17

PLASTIC DRUMS

From tight to open head drums, Greif supplies a variety of plastic drums with customizable options available in terms of volume, covers, closing rings and handles.

18

RECONDITIONING SERVICES

Our network of life cycle service providers across North America and Europe can extend the life of your used packaging and responsibly recycle their component raw materials at the end of their life cycles.

19

RECYCLING SERVICES*

Full recycling services are available from audits, fiber analysis, baling, collection (roll-offs, compactors, routes, full loads), mill procurement, brokerage, fleet services (spotted and live loads), to exporting.

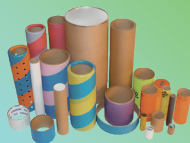

20

STEEL DRUMS

A variety of large, intermediate and specialty steel drums are available globally, equipped with a wide range of internal coatings and liners designed to safely package and transport goods.

21

TUBES & CORES*

100% recycled paperboard convolute, and spiral tubes and cores have many applications, from textiles to construction. Customization includes embossing, printing, scoring and notching available for select tubes and cores.

22

UNCOATED RECYCLED BOARD*

Greif produces the widest range of URB products in the industry. We have expertise in tube & core, bending chip, partition chip, laminated chip, pasted chip, construction grades and many other specialized products.

23

WATER BOTTLES

Greif produces water cooler bottles dedicated to the home and office water delivery industry in South America, Russia and Poland. With capacities ranging from 10 to 20 liters, these bottles can be customized to suit your needs.
