

Smart Packaging Solutions for Demanding Industries

PEBAL s.r.o. - A Manufacturer Who Understands Your Industry

We develop high-performance, eco-friendly plastic packaging

From multilayer films to fully recyclable laminates

Why Choose PEBAL

Complete in-house production

All processes under one roof

Modern technologies and in-house recycling

Sustainable manufacturing approach

Certified quality and sustainability

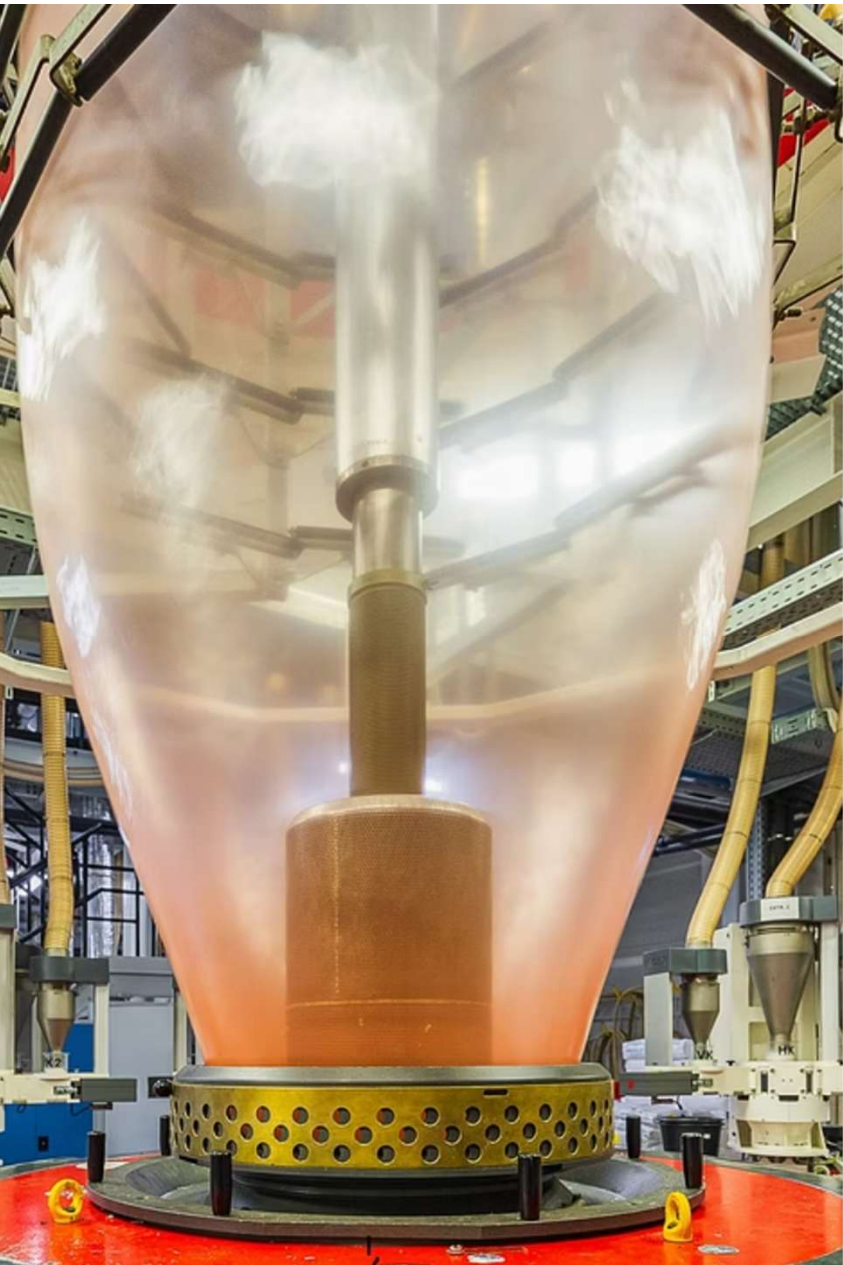

Industry-leading standards

Flexible solutions, fast delivery

Shipping across Europe and worldwide

LDPE Extrusion

HD Flexo Printing

Up to 10 colors

Width up to 1,300 mm

EGP/CMYK technology

Fewer spot colors, lower impact

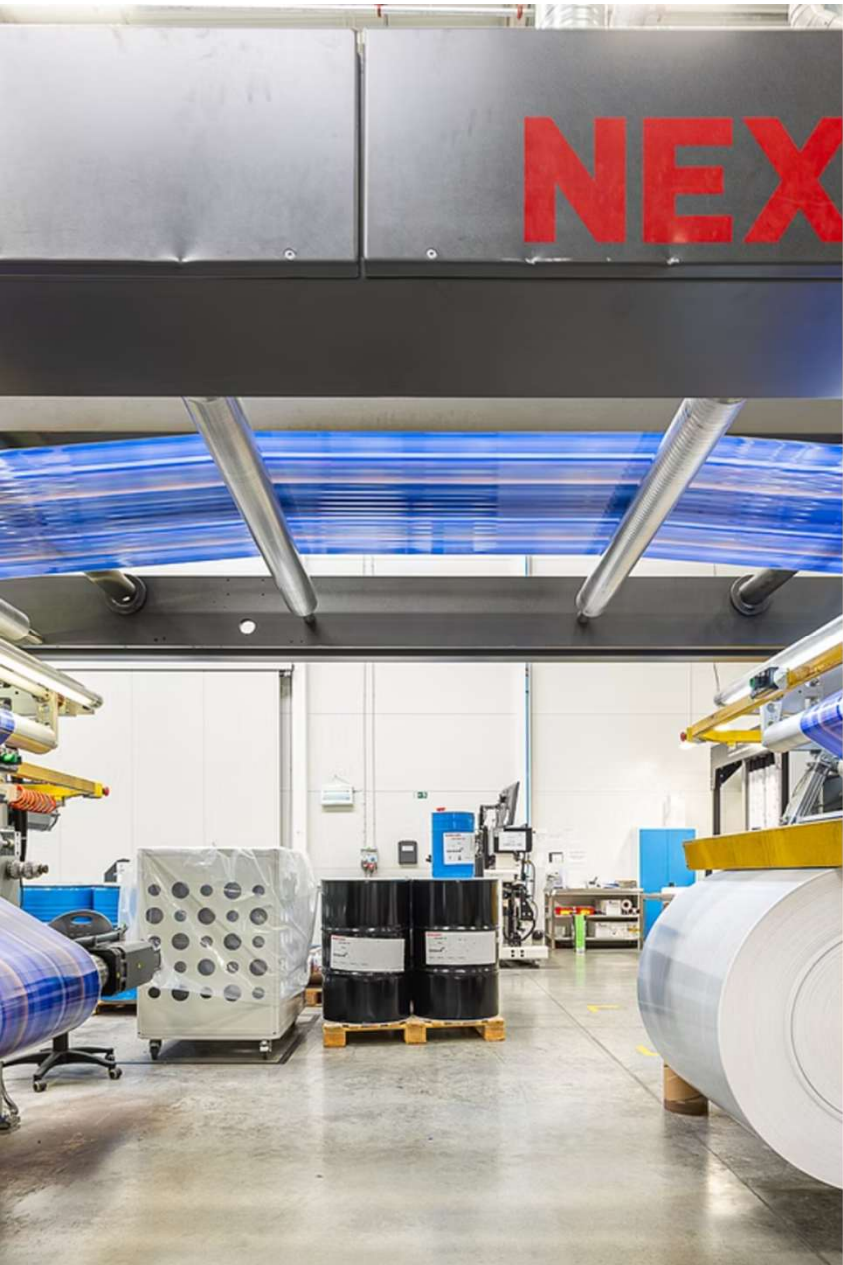

Vivid, sharp branding

With environmental benefits

High-resolution printing saves ink and cost

Lamination

Barrier laminates

Solvent-based and solventless

Width up to 1,300 mm

Various material combinations

Recyclable laminates

Eco-conscious solutions

Suitable for food packaging

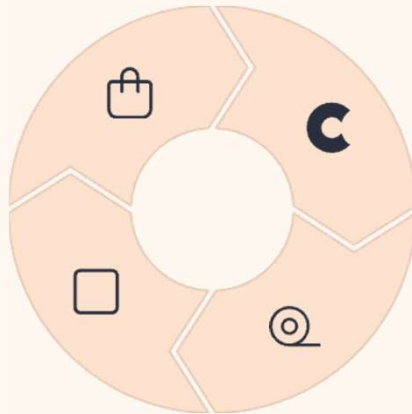

Customized to your requirements

Barrier and recyclable laminates made for your needs

Converting

Bag-on-roll
For easy dosing

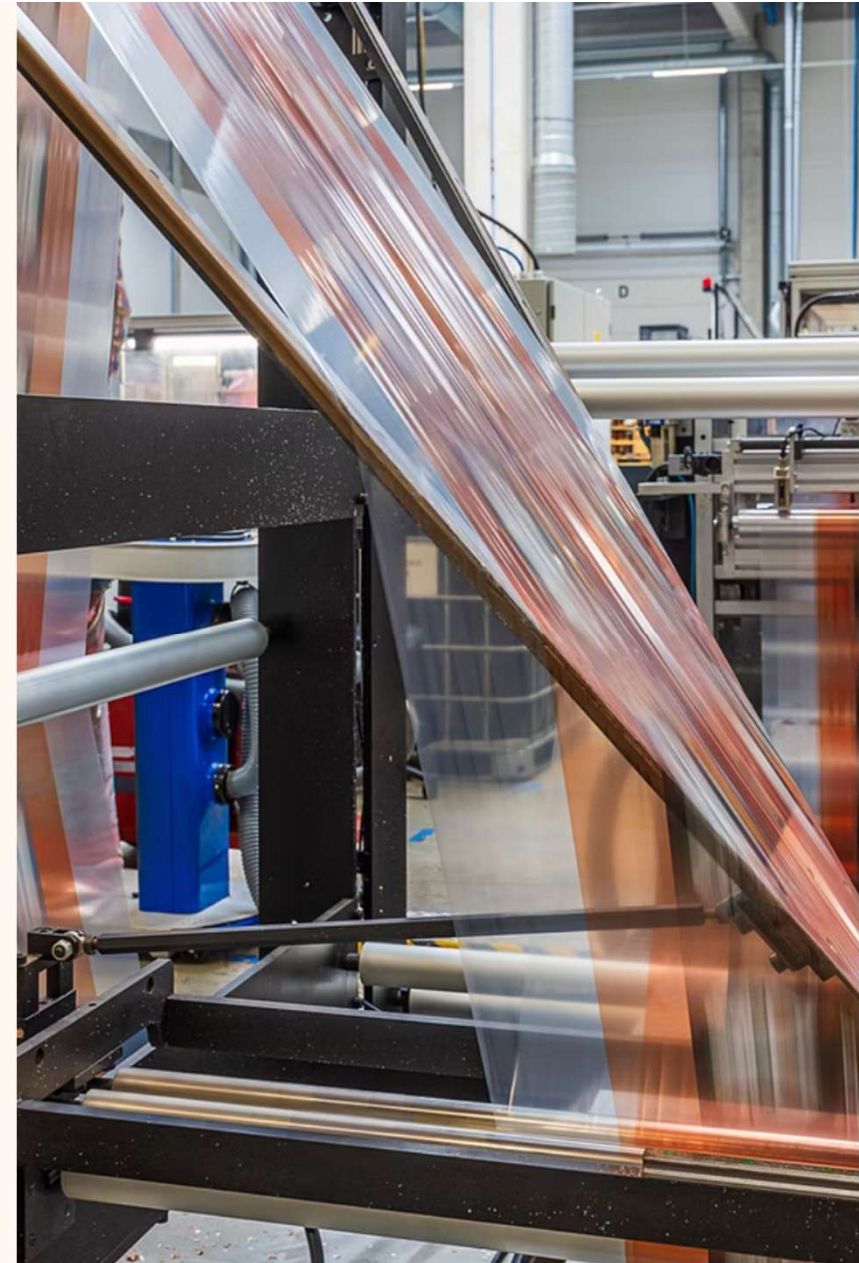

Sheets
Flexible formats

Welded bags
Precise sealing

Tape bags
Practical closure

From film to final product: 6 converting lines

Slitting

Widths up to 1,600 mm

Maximum flexibility

Customized roll formats

Tailored to your operations

Clean cuts

Ready for your machines

Precise slitting to match your production needs

Sustainable Portfolio

PBS films

OK Home Compost
certified

Blue Angel
certified materials

Use of PCR/PIR plastics

Monomaterial
laminates

Fully recyclable

Solar energy

Real carbon savings
from our 1MWp PV
system

In-house
recycling

Internal waste
processing line

EGP & CMYK

Efficient printing
Fewer spot colors

Packaging with a Future: Circular by Design

Certified Quality

ISO 9001

Quality Management

Systematic process control

ISO 28000

Supply Chain Security

Reliable logistics

BRCGS

Food & pharma-grade packaging

Highest safety standards

We meet the industry's highest standards

Let's create better packaging solutions together
