TACTICAL PACKAGING
CONE PAL-based · Paper-based
LOGISTICS / TRANSPORT

Light. Strong. Thinking ahead.

Our ambition: the best pallets in the world.

We develop and manufacture CONE PAL: corrugated cardboard pallets and the load-bearing foundation for complete paper-based packaging systems.

Original product: CONE PAL 800 × 600 mm

EURO FORMAT 1,200 × 800 mm

3.6 kg
approx. tare weight

1,000 kg
approx. recommended dynamic load[1]

Nestable. Space-saving.

The nestable design reduces the space needed to store and transport empty pallets.

Paper in the loop.

At least 70% recycled paper content; standard pallets are 100% recyclable.[2]

Simpler international shipping.

The paper pallet requires no treatment or marking under ISPM 15.[3]

PPWR in mind.

Material-efficient designs developed for recycling support packaging minimisation and recyclability.[4]

THE PALLET RANGE AT A GLANCE

Size (mm)	Tare weight	Dynamic load[1]	Static load[1]
1,200 × 800	approx. 3.6 kg	approx. 1,000 kg	3,649 kg
800 × 600	approx. 1.75 kg	approx. 600 kg	2,181 kg
600 × 400	approx. 0.75 kg	approx. 350 kg	1,254 kg

FROM PALLET TO COMPLETE SYSTEM

CONE PAL + outer packaging + inserts + closure

The CONE-Tainer combines our pallet with a folding side wall and lid. We develop tailored systems for components, spare parts and equipment - with application-specific tamper protection and visible evidence of opening on request.

Your application. Our CONE PAL.
