ATGBICS®

Industrial & Enterprise Network Connectivity Solutions

About Us

ATGBICS is a globally recognised brand of network connectivity products specialising in compatible network transceivers and fibre cabling. In addition to the quality and reliability of our products, all of our solutions offer considerable savings compared to OEM pricing.

2008 Established	**300+** Supported Vendors	**20,000+** Part Numbers
150+ Years of IT Experience	**-40 to +100°C** Industrial, Rugged & Enterprise Grade Solutions	**90%** Orders Shipped within 48 Hours

Product Range

Fibre Optic Transceivers
SFP, SFP+, QSFP, OSFP, GPON, XPON
1Gbps - 1Tb

Legacy Transceivers
1x9 Through Hole, 2x5 Through Hole, XFP
100Mbps - 10Gbps

DACs & AOCs
SFP, SFP+, QSFP, OSFP, Breakout
1Gbps - 1Tb

Fibre Patch Cables
OS2/OM2/OM3/OM4/OM5 , SC/ST/FC/LC/
MPO/MTP® Connectors, Simplex & Duplex

Network Interface Cards
Copper & Fibre, Chipset - Broadcom®, Intel®,
Nvidia®, Single / Dual / Quad Ports

Networking
Mux/Demux, Switches, Media Converters
Fibre Adaptors & Attenuators

Solutions

Drop in Solutions

✓ Provide OEM compatible discontinued products, extending life of equipment in the field

✓ Through hole 1x9, 2x5, SFP 100Mbps-2.6Gbps, or any other legacy transceiver you require

✓ Equivalent form, fit and functionality as original OEM products

Obsolescence Management

✓ Qualification & Testing of 'drop in' compatible solutions from legacy to current technology

✓ All products meet CE, EMC, FCC, RoHS, and REACH standards, with UL and TAA available on request

✓ MSA Compliance ensures interoperability and cost effective OEM alternatives

Controlled BOM Management

✓ Prototypes to client specification with testing, evaluation, and project roll out support

✓ Transceiver, Direct Attach Cable and Active Optical Cable prototypes usually within 2 weeks

✓ Evaluation unit(s), prototype build, prototype datasheets, test reports, buffer stock

Prototype Design & Build

✓ Detailed list of required parts, documents and drawings to manufacture a product

✓ Ensured consistency and repeatability in production regardless of scale

✓ Our robust BOM management guarantees clients receive tested and approved components

Why Trust ATGBICS?

Compatibility Guarantee
Clients have the assurance they will be supplied with fully tested, 100% compatible, MSA compliant versions of OEM parts.

Fully Compliant
Due to our ISO and industry protocol standards, all products conform legally to Multi-Source Agreement (MSA), CE, FCC, RoHS, REACH, FDA and IEC-60825-1.

Lifetime Warranty
In the unlikely event that you experience an issue with your product, we will provide a replacement immediately.

Technical Support
Pre and post sale technical and configuration support from our experienced team of engineers.

Consistent Supply Chain
We partner with a select number of carefully vetted suppliers who share our ethos for quality and reliability. All of our products are fully traceable.

Robust Global Logistics
Together with UPS, our global shipping partner, we provide fully tracked shipments door to door.

Markets & Applications

Telecoms
Connecting people and businesses through high speed global networks

Public Sector
Supporting essential societal infrastructure and services

Datacoms/Data Centre
Enabling super fast and secure data storage, processing and transfer

Avionics & Military
Powering reliable, secure technology for defence, aerospace and intelligence

Healthcare
Improving medical services, treatments and innovations through technology

Test & Measure
Ensuring accuracy and reliability through advanced testing and measurement solutions

Media & Broadcasting
Distributing live and on-demand content across the globe

Energy & Utility Sector
Powering industry and homes with optimised solutions

Transportation
Driving innovation in safety, efficiency and connectivity across all transportation networks
And many more industries that utilise fibre optic products
