LABELSPLATFORM 5

The modular labelling software.

LabelsPlatform 5

Our modular LabelsPlatform 5 software can be used for any printing, labelling, automation or visualisation task. It gives you the flexibility to design labels.

With LP5, you can easily design your label according to your requirements - whether with barcodes, graphics, product information or other data. The possibilities are endless.

LP5 Modules | Features

A solution for every application

Sophisticated modules, ERP interfaces and other interface tools provide extensive functionality to optimise workflow, reduce costs and eliminate errors.

Designed as a platform, you are ready for future expansion in labelling and automation. Use the design tool to create attractive labelling layouts, from simple barcode labels to high performance, automated product labels with continuous text and printing conditions.

LP5 LABEL EDITOR

The integrated label editor is the heart of the LP5 automation solution

LP5 SOCKET / LP5 COM

allow you to remotely control LP5 from your own applications using standard network functions

LP5 FORMATMANAGER / LP5 REMOTE

make the use of PC workstations in production unnecessary

LP5 COMPLIANCE MODULE

Enables compliance with local and/or industry-specific policies and laws

LP5 PRINT TOOL APP

Convenient and easy control of LP5's printing functions via Android app

LP5 DATABASE MANAGER

Keep track of your data and connect to other systems

LP5 TOUCH EDITOR

Touch-optimised label editor for creating and changing layouts

LP5 COMMANDER / LP5 AUTOMATIONCENTER

Automate label printing and the entire process workflow

LP5 Versions

Choose the module that suits your needs

Our LP5 labelling software allows you to choose the right version for your needs. This means you get exactly the functionality you need. A simple upgrade allows you to move to a more comprehensive version at any time.

Version overview

+ ECO with basic functions

+ STAR, the standard version

+ PREMIUM, the complete version

LP5 Support

As flexible as your requirements

Depending on the scope of your application and your individual requirements, we can provide you with the appropriate support packages (direct from the manufacturer). We offer you 24/7 support via our ticket system.

+ SLA light

+ SLA superior

+ SLA no limit

We offer our customers a choice of three levels of support contracts (SLA). Based on your industry, the size of your installation and the number of users, you can decide which SLA you want to use to ensure fast access to our experts.
