Raynet is again Technology Leader in the 2024 SPARK Matrix™ for Unified Endpoint Management

Paderborn, July 15th, 2024 – Quadrant Knowledge Solutions announced today that it has named Raynet as a 2024 Technology Leader in the SPARK Matrix™: Unified Endpoint Management (UEM), 2024.

The Quadrant Knowledge Solutions' SPARK Matrix™: Unified Endpoint Management (UEM), 2024 research report includes a detailed analysis of the global market regarding emerging technology and market trends. The research comprises of vendors' product features and functionalities, as well as competitive differentiating factors. The research provides competitive landscape and vendor analysis to enable technology vendors to enhance their understanding of the market and implement a growth-oriented technical roadmap.

LEADER
SPARK Matrix® 2024

Raynet
Named as a **Leader** in
Unified Endpoint
Management (UEM), 2024

„Raynet offers Unified Endpoint Management (UEM) through its RayManageSoft solution, which integrates Endpoint Management, Mobile Device Management, and Client Management to handle various endpoints across diverse configurations. This solution encompasses Identity Management, Asset Management, Vulnerability Management, Patch Management, OS Deployment, Endpoint Discovery, and Software Inventory features. Additionally, RayManageSoft UEM's Package Store provides packaging-as-a-service, assisting end users in deploying software packages and automating update and patching processes across different operating systems. Raynet has received strong ratings across technology excellence and customer impact and has been positioned as a Technology Leader in the SPARK Matrix™: Unified Endpoint Management (UEM), 2024. "

Swathi Suresh | Analyst at Quadrant Knowledge Solutions

Endpoints remain the number one target for cybercriminals. This situation is becoming increasingly complex and opaque due to evolving technologies, the increase in remote workstations and IoT devices as well as Bring Your Own Device (BYOD). This means that endpoints don't have the same security standards and drastically increase the company's attack surface. Robust endpoint management with a focus on security, compliance, and transparency is therefore an integral part of today's business world and the only way to keep risks to a minimum.

"We are proud to have been recognized for the third time in a row as the Technology Leader in the SPARK Matrix™ 2024 for Unified Endpoint Management. This acknowledgement confirms our commitment to comprehensive and innovative solutions. With RayManageSoft UEM, we have already laid the crucial foundation for intelligent Unified Endpoint Management. The know-how and UEM capabilities will be brought together with additional features for IT Visibility, Portfolio Optimization and End of Life & End of Support Management in the new Raynet One-Platform which will be officially released at the end of August. The SaaS-based software solution creates a comprehensive overview of all data through the use of AI, intelligent automation and an integrated Technology Catalog. It forms the basis for our customers' IT success. It supports companies in protecting themselves against cyberattacks, successfully mastering the digital transformation and maximizing the benefits of technology investments. This is the prerequisite for revolutionizing our customers' IT management and creating limitless opportunities for greater efficiency and performance."

Ragip Aydin | CEO der Raynet

About Quadrant Knowledge Solutions:
