

THERAPY IA

DMC's intelligent laser,
powered by
Artificial Intelligence.

Clinical precision applied to laser therapy.

Why Therapy IA

AI-guided
treatment protocols

Greater clinical
predictability

Automatic device
configuration

Fewer manual
adjustments

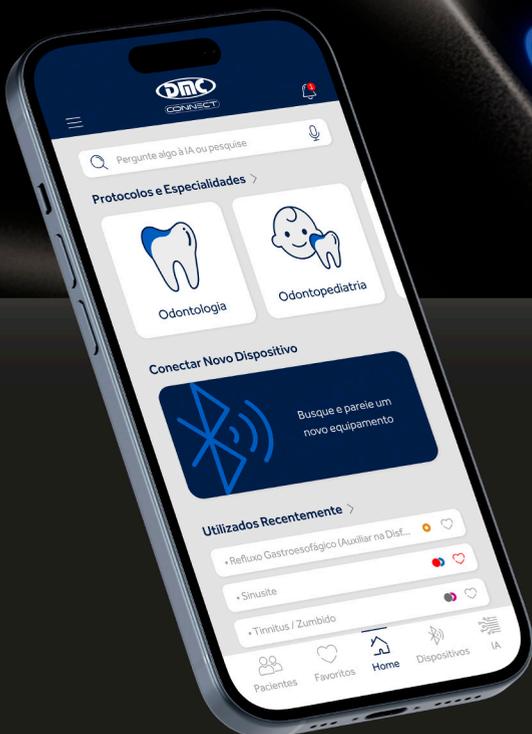

How it works

Therapeutic goal defined ▼

AI identifies the protocol ▼

Device automatically configured ✓

Simple.
Direct.
Reliable.

Integrated with
DMC Connect

Technology developed for real
clinical practice.

dmcgroup.com.br

THE ONLY **7-IN-1** SYSTEM

One device.
Multiple applications.

- Photobiomodulation
- ILIB
- PDT
- Antimicrobial Light
- Laser Surgery
- Laser Photopolymerization
- Lesion Detection

THERAPY IA FAMILY

THERAPY EC IA

red laser • 100 mW
Infrared laser • 100 mW

THERAPY BLV IA

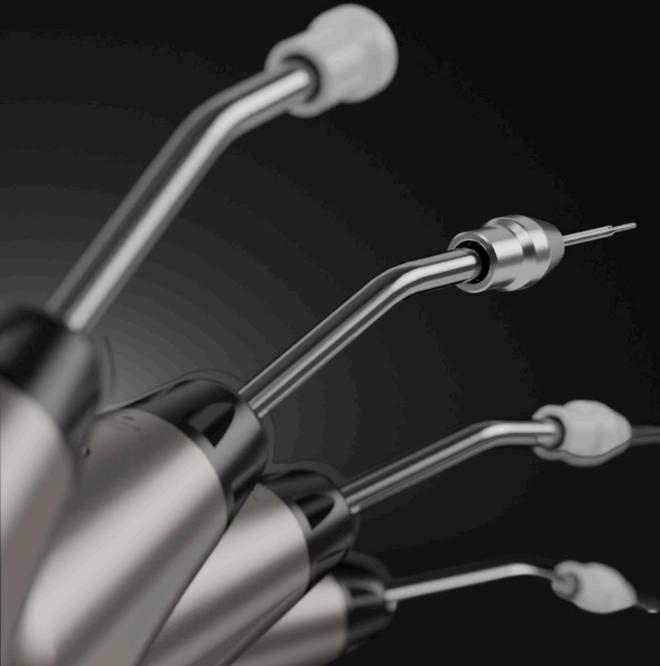

blue laser • 1.000 mW
red laser • 100 mW
Infrared laser • 100 mW
violet laser • 200 mW

THERAPY PLUS IA

red laser • 100 mW
infrared laser • 250 mW

THERAPY PDT IA

red laser • 200 mW
infrared laser • 100 mW
violet laser • 200 mW

Intelligent Ecosystem

Automatic device configuration

Consistent results in every session

Reduction of human error

More efficient workflow

Designed for Professionals

Dedicated tips and handpieces

Induction charging

Cordless operation

Ergonomics and precision
