

The interactive and connecting link between seniors with dementia and their outside world.

What is De BeleefTV?

De BeleefTV ('The ExperienceTV') is an interactive, mobile activity table, developed specifically for people with dementia. Playing stimulating games, listening to music and recalling memories helps residents of healthcare centres connect with each other and with their environment.

What does De BeleefTV do?

De BeleefTV provides valuable daily activities that guarantee fun and positive brain stimulation. The various games challenge clients both mentally and physically. This way their brain and fine motor skills are stimulated in a fun way. De BeleefTV connects people.

Perfect for every target audience

Software functions on De BeleefTV can be adjusted entirely according to one's own wishes. This way De BeleefTV will always perfectly match the intended target audience.

Created for and together with healthcare centres

We implement received feedback from various healthcare centres in our games and updates. A free update is available every quarter. New visual material and improvements are implemented in this update. This way we keep De BeleefTV fun and innovative for everyone!

Wheelchair friendly

The trolley has been specially adapted for wheelchairs. All components have been properly concealed and De BeleefTV can fit through every doorway. This way De BeleefTV can be used throughout the building, even in a resident's bedroom.

Easy to use

De BeleefTV is electronically adjustable in height and can be tilted up to 90 degrees: it can be used as a table, television and easel.

No knowledge of electronic devices is needed in order to use De BeleefTV. Do you find yourself getting stuck nonetheless? Call our service desk for free.

What others say about De BeleefTV:

"We experience so many beautiful and fun moments with our clients."

"This is a must-try!!! Our residents enjoy it immensely!!!"

"A great device with so many options for all residents to enjoy. Can be used anywhere. Everyone should have De BeleefTV."

"We were able to purchase De BeleefTV through crowdfunding. The TV is a real gain for our clients, they enjoy it immensely."
