

Dear Customers,

We are reaching out to introduce **EVI Country**, a new all-electric multi-purpose 4x4 vehicle that is reshaping off-road and utility transport in Europe. Designed for agriculture, municipalities, green maintenance and professional services, EVI Country offers a unique opportunity to expand your product portfolio with an innovative, high-growth solution.

Why partner with us?

- **Exclusive market growth:** We are seeking **1–2 importers per country**, creating protected territories and clear, scalable business opportunities.
- **High-margin, zero-emission product:** EVI Country combines unrivalled performance with environmental compliance, enabling your customers to work off-road and on public roads without emissions.
- **Full support:** As manufacturer, Evitalia provides comprehensive technical training, marketing resources and after-sales assistance to help you establish and grow your local network.

Key technical highlights

- **Power:** 200 hp electric drivetrain.
- **Drivetrain & stability:** **4x4 with four independent suspensions**, enabling the vehicle to tackle **30% gradients at full load**.
- **Practicality:** Standard tipping bed, three-seat cabin and generous payload capacity.
- **Efficiency:** Long-range battery with fast charging and minimal maintenance requirements.

EVI Country represents an exceptional opportunity for forward-thinking importers. We would be delighted to discuss territorial options and arrange a demonstration at your convenience.

Thank you for your time; we look forward to the possibility of working together.

Sincerely,

Evitalia S.r.l.
