MOBILE DEVICE MANAGEMENT
FOR COMPANIES

THE VERSATILE SOLUTION FOR DIGITIZING BUSINESS PROCESSES IN COMPANIES OF ALL SIZES

Whether company-owned or private devices – quickly and easily configure, secure, equip and use them in the business environment.

ADVANTAGES

■ **Easy enrollment**

QR code, automatic enrollment (DEP, KME, zero-touch), bulk enrollment

■ **Multi platform**

iOS / iPadOS / macOS / tvOS / Android / Android Enterprise / Samsung Knox / multi touch displays / Windows 10 / 11 / Google Chrome

■ **Simple app distribution**

Standalone enterprise app store with access to centrally managed app stores

■ **Data separation**

Simple and data protection-compliant separation of business and private content. BYOD use through user enrollment and work profiles

■ **Data sovereignty**

Multitenant operation / In your own infrastructure / In the municipal data center / In a german cloud

■ **Convincing price model**

Cheaper than US manufacturers

■ **Data protection compliant use**

Dispensing with cloud IDs by connecting local user directory services (AD, LDAP, SAML, OIDC)
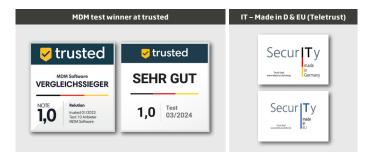

■ **Optimized integration**

Connection of file directory services (SMB, WebDAV) / synchronization with Apple Business Manager

■ **Secure Gateway**

Easy use of Exchange server functions. Relution works as a proxy via Exchange Active Sync (EAS)

■ **Relution Shield**

Triple-secured access from and to the outside. Combines Virtual Private Network (VPN) with Private Key Infrastructure (PKI) and UEM – MDM
