

Press Release

Brigl & Bergmeister presents expanded product range with unique selling proposition at Fachpack 2024

Niklasdorf, Austria – September 23, 2024 – Brigl & Bergmeister (B&B Paper Solutions), the leading manufacturer of label and specialty papers, is participating for the first time at Fachpack Nuremberg and will present its extensive product portfolio. This major event provides an excellent opportunity to showcase the latest developments in flexible packaging papers, as well as functional and barrier papers to a wide audience.

Flexible Packaging Papers and Product Innovations

Brigl & Bergmeister places great emphasis on presenting its flexible packaging papers, known for their quality and versatility. The range has now been expanded to include functional and barrier papers, which are developed and produced at the company's new Innovation Center. These packaging solutions provide optimal protection functions and are ideal for various applications in the food and consumer goods industries.

The company focuses particularly on customized solutions that go far beyond standard products. Brigl & Bergmeister stands out for its customer-specific and innovative approach to developing barrier and functional papers. The company supplies both specialty papers for coating applications and tailor-made functional and barrier paper solutions.

Innovation Center for Barrier and Functional Papers

"HIGH-SPEED CUSTOMISING" – The core of our high-speed developments is our newly built Innovation Center, operated in cooperation with one of our sister companies. "Here, we focus exclusively on the development and production of barrier and functional papers," explains Markus Pölzl, Managing Director of Brigl & Bergmeister.

Customers do not have to adapt to existing papers. Instead, B&B works closely with them to develop individual solutions precisely tailored to their needs. This process begins with creating a requirement profile that includes technical, commercial, and end-customer-specific details.

"Instead of sending out a mass of samples and hoping for a lucky hit, our specialists work closely with our customers to find the optimal solution. The result is a custom

paper solution that better meets individual needs than an off-the-shelf product," emphasizes Pölzl.

Invitation to Press Talk

Brigl & Bergmeister cordially invites you to a press talk on Tuesday, September 24, 2024, at 9:30 AM at Stand 3A-331 in Hall 3A. Attendees will have the opportunity to learn first-hand about the latest products and technologies and gain insights into the company's sustainable solutions.
