# RENOLIT FABRIC-REINFORCED POOL LINERS

trend-pool.de

# RENOLIT POOLFOLIEN BY TREND POOL

Inspiring surfaces for your  
swimming pool

The RENOLIT ALKORPLAN fabric-reinforced pool liner is not only a solution for waterproofing swimming pools, but also offers an attractive appearance. Simply choosing a certain color or design completely changes the external appearance of the pool and the color of the water. The liner has therefore become a crucial and fundamental design element for pool owners.

We offer you a wide range of liners and options that meet both aesthetic needs and technical requirements in terms of resistance and durability.

All fabric-reinforced pool liners are manufactured using high-quality raw materials and pigments with a long service life and, of course, all are provided with a protective coating. All with the RENOLIT guarantee!
