

FROM PROFESSIONALS, FOR PROFESSIONALS

For over 70 years, we have been designing and manufacturing high-quality, durable workwear that combines style with comfort. Moving beyond industry stereotypes, we continuously set new trends in professional apparel.

Alongside traditional OR garments, we now offer highly flexible, high-performance fabrics with a modern aesthetic - drawing inspiration from the sportswear industry. Our products are developed and rigorously tested in collaboration with medical professionals, ensuring they meet the highest international standards - even under extreme conditions (the products, not the professionals!).

Sustainability and fair production practices are at the core of our values.

In short: We take pride in our products, and we invite you to compare their quality with any other on the market.

*// THATS WHERE WE ARE GOOD AT*
