SUN WOOD

ABOUT US

Historic reclaimed wood from the Alps, colorful boards from Caribbean beach huts or gigantic sequoia from the USA: We at SUN WOOD collect the most beautiful woods from all over the world and make them accessible for creative interior solutions.

Therefore, we implemented an innovative production process which allows us to reproduce these woods on local wood, with a look and feel true to the original.

COLLECT

For more than 15 years, we have been collecting the most beautiful woods from all around the world. They serve as templates for our variety of SUN WOOD designs.

DIGITIZE

Using our inhouse 3D-scanner, we digitize these wooden surfaces and use high-definition data for our unique SUN WOOD reproduction and finishing process.

REPRODUCE

The surface of our main product - a 3-layer-panel made of domestic spruce wood is chopped and/or brushed and the desired design is applied directly to the wood using innovative printing technology.

THE VISION OF
A DARING IDEA
FUELS MY
BELIEF OF THE
FEASIBLE!

ARNO STAINER
CEO & Adventurer

WE FOR YOU

We at SUN WOOD have made it our mission to make unique woods accessible for creative interior solutions. On a variety of supporting materials, we reproduce the most beautiful woods from all over the world and offer versatile product solutions for individual projects.

Architects, shopfitters, stand builders, hoteliers and carpenters - our products serve a variety of branches. An international dealer network guarantees fast availability and low transportation costs.

OUR MISSION

Handling the resource of wood consciously for us is not only natural, it is much more a motivation of our existence. Because we want to dress our dining room in exotic wood while protecting the rain forest. We want to install historic and unique reclaimed wood in our home, if we can be certain that it is free from harmful substances, toxic varnishes, pests and worms.

HANDMADE IN AUSTRIA

SUN WOOD products are produced in our plant in Salzburg. Our supporting materials are processed with lots of love and refined with a variety of designs, while always paying great attention to detail. This is how our impressive wall coverings in rustic reclaimed wood design, expressive tables in precious wood design and special interior products are made.

WITH CLEAR CONSCIENCE

The basis of our products is local wood, which is not only a guarantee for short transport routes. Many of our raw materials support ecological, economic and socially sustainable forestry using the PEFC certificate. Surface colors which are used in the finishing process comply with the GREENGUARD GOLD certificate and can be used in sensitive surroundings such as schools.

Versatile supporting materials enable universal use

By means of the innovative SUN WOOD printing and surface technology, versatile wooden supporting materials and products are refined with extraordinary designs. As a result, more than 100 reclaimed wood, precious wood and concrete decors can be used for wall and ceiling paneling, furniture fronts, parquet flooring and more.

SUPPORTING MATERIALS

3-LAYER-PANEL

SUN WOOD 3-layer panels made of domestic spruce are ideal for creative wall and ceiling cladding, for shop and trade fair construction, for furniture production or even as temporary floor panels.

LOCAL WOOD FROM SUSTAINABLE FORESTRY

We only use wood from our surrounding area as the basis for our products and demonstrably support ecological, economic and socially sustainable forestry through the PEFC certificate.

PEST- AND POLLUTANT-FREE

Unlike their originals, SUN WOOD products are pesticide-, wood worm- and pollutant-free.

100% HANDCRAFTED

Every single one of our products is unique, because there is a lot of handwork in it. Before we apply the desired SUN WOOD decor, the surface is chopped and/or brushed by hand.

LARGE FORMATS - PERMANENT AVAILABILITY

We refine supporting materials of all types. Wooden beams up to 15 m, 6 x 2 m panels or individual special formats aren't a problem for us! In addition we guarantee the availability of our decors on long-term.

VERSATILE USE

Optional certifications render our panels fit for use in sauna areas, ship construction or in public spaces where fire protection classification is needed.

PROPERTIES

- Material**
3-layer panel made of spruce wood
- Design**
one-sided (optionally two-sided)
- Surface**
chopped or brushed
- Protective coating**
protective coating on brushed surface
- Formats**
6.000 x 2.050
5.000 x 2.050 | 1.250 | 1.020 mm
2.990 x 2.050 mm | 1.020 mm
2.500 x 1.250 mm
2.490 x 1.020 mm
1.990 x 1.020 mm
(Compact solution = practical handling with low transport costs thanks to compact formats. Panels are cut into smaller sizes and can be reassembled easily.)
- Thickness**
19 mm (Alternative thicknesses on request.)

ADDITIONAL CERTIFICATIONS

- Fire protection**
DIN EN 13 501-1 B-s2, d0 (Europe), CAN/ULC-S102 (Canada), ASTM85 (USA)
- Format fire protection panel**
2.990 x 1.250 mm
- Sauna**
ÖNORM EN ISO 12460-3
- Format sauna panel**
5.000 | 2.490 mm x 2.030 mm
- Ship construction**
International Maritime Organization
IMO Res. MSC. 307(88) FTP Code 2010
- Format ship construction panel**
2.990 x 1.250 mm

PROFILE BOARDS

- Material**
3-layered spruce wood
- Design**
one-sided
- Surface**
chopped or brushed
- Format | Installation**
2.350 x 280 mm | 2.340 x 270 mm
- Thickness**
19 mm
- Packaging unit**
3 pieces
- Covering width**
1,89 m²
- Certification**
PEFC

TONGUE- AND GROOVE BOARDS

- Material**
solid spruce wood
- Design**
one-sided
- Surface**
chopped or brushed, backside slit
- Covering width**
185, 225 mm, cladding width + approx. 10 mm
- Length**
5.000 mm
- Thickness**
23 mm
- Usable space per packaging unit**
5 pieces / 4,63 m² | 5,63 m²
- Certification**
PEFC

CHIPBOARD

Material
high-quality chipboard

Design
one-sided (optional two-sided)

Surface
spruce veneer (0,9 mm) brushed,
smooth backside

Protective coating
protective lacquer (water-based)

Format
2.800 x 2.070 mm

Thickness
19 mm

PLYWOOD PANELS

Material
plywood panel

Design
one-sided (optional two-sided)

Surface
smooth or brushed,
smooth backside

Formats
2.520 x 1.720 (smooth)
2.500 x 1.700 mm (brushed)

Thickness
4 mm (smooth)
6 mm (brushed)

VENEER EDGES

Spruce veneer (Reel material)
24 x 1 mm
50 linear metres per reel

ABS edges (Reel material)
23 x 1 mm
50 linear metres per reel

SHEET VENEER

Birch veneer
2.500 x 1.240 x approx. 0,6 mm
smooth surface

Spruce veneer
3.000 x 280 x approx. 0,9 mm
Slightly brushed surface

SELF-ADHESIVE WOOD VENEER

Material
spruce veneer in 0,9 mm

Surface
slightly brushed

Format
2.100 x 280 mm
(additional lengths up to 3.200 mm on request)

Total thickness
1,9 mm

Backside
full-surface adhesive tape 1 mm

Installation
glue on smooth surfaces

WOOD BEAMS

Material
BSH from spruce

Design
1 to 4-sided on request

Surface
chipped or brushed

Formats
You can find all formats
on our website

Length
up to 15 m

Additional service
Finishing of provided CNC-milled wood beams
is possible

PARQUET

Material
3-layer parquet
with oak top layer 3,6 mm

Surface
slightly brushed with
protective coating

Format
2.200 x 222 mm

Thickness
14 mm

Packaging unit
6 boards (2,93 m²)

Scope
suitable for underfloor heating

Available accessory
machting skirting boards in
every design

Certification
ÖNORM C2354, DIN EN 14342

ACOUSTIC PANELS

Reclaimed wood, oak, concrete or **BURNT WOOD** - over 100 different designs are available on acoustic panels from a wide range of manufacturers. You use acoustic panels from your own manufacturers? No problem! Choose from our wide range of high-quality **SUN WOOD** designs and let us finish them for you!

POSSIBLE MANUFACTURERS

- ADMONTER
- BURKE ACOUSTICS
- HARO AKUSTIK
- LIGNOTREND

NOTE
We are not a manufacturer of acoustic panels.
We refine the acoustic panels of all well-known manufacturers with our designs.

DESIGNS

BARK 810 LTECH

FOREST AMBIANCE

for interiors

With the new BARK 810 LTECH design, we take the look and feel of a tree bark reproduction to an amazingly authentic and unprecedentedly lifelike level. Deep structures, indentations and shapes ensure that the panels are visually and haptically hardly distinguishable from original tree bark. At the same time, they score with versatile advantages over original bark for indoor use.

Available formats

Poplar plywood

15 | 18 mm

2.520 x 920 mm

Also available with sauna certification.
Format 2.830 x 1.030 x 15 mm.

// TYROL 02

Modern rustic reclaimed wood for your walls! TYROL 02 impresses through its friendly and harmonic color scheme and its ability to create a particularly precious and cosy mountain lodge flair. This typical reclaimed wood design from the Alps comes with an effectively chipped surface, which creates an astonishing natural look and feel.

HIGH
LIGHT
DESIGNS

// AMBER 08

The SUN WOOD design AMBER 08 impresses with its gorgeous grain. For this template, we used oak boards with a light and friendly shade of brown, which was created through years and years of sunlight. Knotholes and designed joints round off the surface of this beautiful design.

// WHITE PAINT 29

Through its typical used look, the SUN WOOD design WHITE PAINT 29 conveys a special vibrancy. Between the brush strokes, the natural brown color can be seen, shimmering through the white painted and weathered boards.

// HIGHLAND 54

With its vibrant color, the reclaimed wood look design HIGHLAND 54 conveys a particularly vivid flair and turns your walls into a colorful eyecatcher. This particular design originates from an old english bar.

// STALLGRAU 60

Our SUN WOOD design STALLGRAU 60 originates from an old barn located in the South Tyrolean Dolomites. During a tour SUN WOOD founder Arno Stainer encounters the barn's dismantling. He brought the most beautiful boards of wood back to the company's head office in Salzburg, where they're being reproduced as high-quality wood products.

// OAK ISTRIA 700

Wooden panels in precious oak wood design. By choosing our modern-reduced oak wood design OAK ISTRIA 700 you can get your very own piece of nature for your home! Stylish interior design is guaranteed with OAK ISTRIA's slightly brushed surface and its modest grain.

VISIT US

AND BE INSPIRED

In the midst of the gorgeous Saalach valley of Salzburg lies the **WOODPRINT HOUSE**. A colorful place, which combines the **SUN WOOD** product variety as well as an unique wood theme park and a cosy café with an astonishing ambience.

THE THEME PARK

Go on an exploration adventure between gigantic sequoias, historic reclaimed wood boards and special features from all over the world and pamper yourself with sweet delicacies in our café.

THE SHOWROOM

Let yourself be inspired in the SUN WOOD showroom after booking a consultation appointment. Besides wall coverings, veneers, beds and original upcycling ideas, we are excited to show you our vast variety of design choices and product applications. We are looking forward to meeting you!

B2B AREA

THE SUN WOOD B2B AREA
Register now and benefit:
