

## SHW Ergo-Line

Ergonomics meets quality - the new Ergo-Line for SHW gardening tools has been specially developed for first-class comfort and maximum efficiency. This is ensured by the special, ergonomic bend in the handle. The innovative combination of lightweight poplar and robust beech wood guarantees maximum stability with minimum effort.

### Product features:

- Ergonomic double-curved handle shape
- High-quality wood layers made of lightweight poplar wood and durable beech wood
- Stable glulam processing
- Perfectly matched cone

### Quality characteristics

Ergonomic design

Combination of poplar and beech wood

Suitable cone from handle to tool head

### Benefits

Reduces strain on the back and joints

for a lightweight yet sturdy handle

for a secure and firm fit
