Competence

Casting technologies

- HPDC - high pressure die casting
- LPDC - low pressure die casting
- GTC - gravity tilt casting

Heat treatment (T5, T6):

- 50 % of castings are heat treated

CNC machining and assembly

- 80 % of castings are CNC-machined.
- 20 % of castings are assembled (bearings, bushes,...)

Other technologies

- Cracks control
- Passivation
- Powder coating, Anodization

Melting

Gravity die casting

Low pressure die casting (LPDC)

High pressure die casting (HPDC)
