Carefully selected ingredients

We know that vitality comes from nature! That's why we want to provide your pet with the very best. VITA products are made from selected ingredients that are not only tasty, but also support your pet's health!

Each VITA dry food granule filled with top-quality ingredients, but also with a super-powered additive!

The composition of dry food is based on superfoods and minerals that have a positive effect on your dog's health.

- **Support of the immune system** – the zinc in the formula helps to maintain optimal functioning of the immune system.
- **Prevention of plaque formation** – the presence of tripolyphosphate helps to slow the formation of plaque.
- **Muscle and bone support** – glucosamine and chondroitin sulphate support the musculoskeletal system.
- **Healthy coat and skin** – fish oil rich in Omega-3 fatty acids to support the condition of your dog's skin and coat.

Superfoods

A collage of various superfoods. At the top left, there are green moringa leaves and a piece of its root. In the center, several orange carrot slices are arranged in a vertical line. To the right, a large, vibrant red beetroot is shown. At the bottom, a whole red apple is visible, partially overlapping with more moringa leaves.

Superfoods – nutrient-rich vegetables, fruits, herbs beneficial for dog’s health and well-being.

Discover the magic power of moringa

Immune system booster from miracle tree, which is rich in vitamins and essential minerals. Moringa leaves are characterized by a high content of as many as 46 antioxidants. They are also a source of iron, phosphorus, calcium, magnesium and manganese. Moringa supports digestion and circulation, and also helps reduce cholesterol levels. Moringa also contains all essential amino acids, 26 compounds with anti-inflammatory properties, and omega-3, -6 and -9 fatty acids. Additionally, it increases energy levels and supports dog’s cognitive functions.

Carrot:

rich in beta-carotene and antioxidant that supports healthy vision. Carrots also promote bone health.

Apple:

rich in vitamin C, which supports the development of a strong immune system.

Dried chicory pulp:

contains inulin, which strengthens the immune system and slows down aging. Chicory helps maintain healthy bacteria in the gut.

Beetroot:

rich in vitamin B, iron, fiber and manganese, which has a positive effect on the digestive system. It also contains potassium, which supports proper functioning of the nervous system and muscles.

Balanced protein source

Lamb is an excellent source of high quality protein, which is essential for muscle building and recovery. Lamb and superfoods provide a variety of nutrients that support your dog's body functions, providing a comprehensive source of energy and building blocks.

Efficient digestive system

The fibre contained in apples, carrots, chicory and beetroot, helps to regulate digestion and prevent gastrointestinal problems. Lamb is also an easily digestible source of protein, which can be beneficial for dogs with sensitive digestive systems.

Healthy skin and coat

Lamb is often recommended for dogs with food allergies or skin problems. The addition of superfoods, which contain vitamins A, C and E, and other nutrients have a positive effect on keeping the coat in good condition.

COMFY APPÉTIT VITA

BUFFALO

ADULT ALL BREEDS

Good for sensitive stomach

Buffalo meat can be a good choice for dogs with food allergies or intolerances, as buffalo is a less common allergen compared to other meat sources.

Shiny coat

Buffalo contains healthy fatty acids, including linoleic acid and oleic acid. These fatty acids are important for skin and coat health, as well as supporting cardiovascular health in the dog.

Rich in nutrients

VITA dry pet food with buffalo not only provides your dog with protein, but also other essential nutrients such as iron, zinc, vitamin B12 and selenium, which are important for the proper functioning of your dog's body, supporting the health of the skin, coat, immune system and metabolic processes.

About Us

Complete Pet Food

We aim to thoroughly fulfil the nutritional needs of pets. We consult with a veterinarian during the process of introducing a product to the market.

Pet food for animal health and development

- No dyes or artificial additives
- High content of meat ingredients
- Rich in vitamins and minerals

We started our development with Comfy Appétit over 10 years ago

Our experience in developing tasty and healthy treats for dogs and cats has allowed us to go further. We have decided to expand our product range with pet foods with a high content of meat ingredients for dogs and cats.

Naturalness

We use only natural ingredients in our products.

Quality

We focus on selected, high-quality ingredients.

Deliciousness

We believe that it is important that petfood is tasty and that our four-legged friends enjoy it.

Up to 96% of meat

The most important ingredient is meat. We want animal products to be the main source of protein in our foods.

Gluten-free

We only offer gluten-free foods.

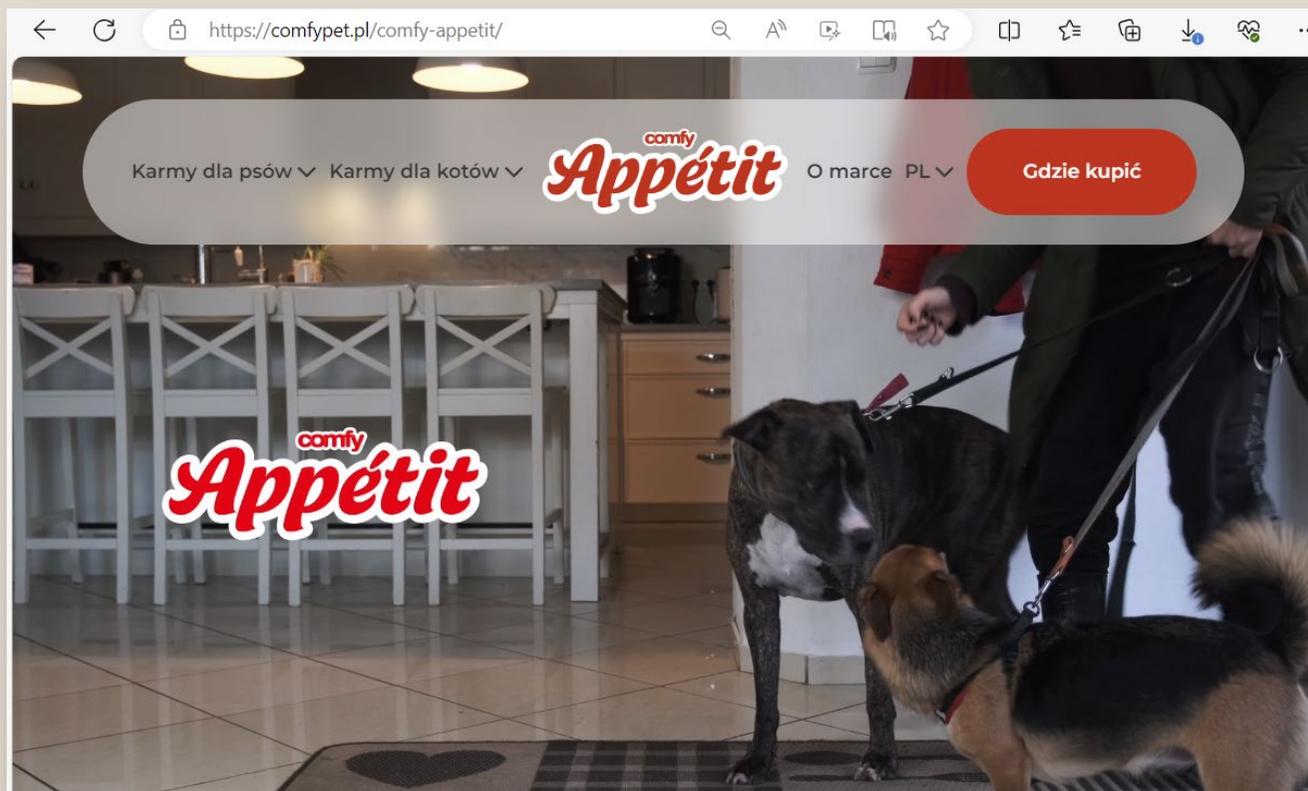

No colours or artificial flavours

Our products do not contain artificial colors or preservatives.
