

AAAmachine, Inc.

Our product line=>

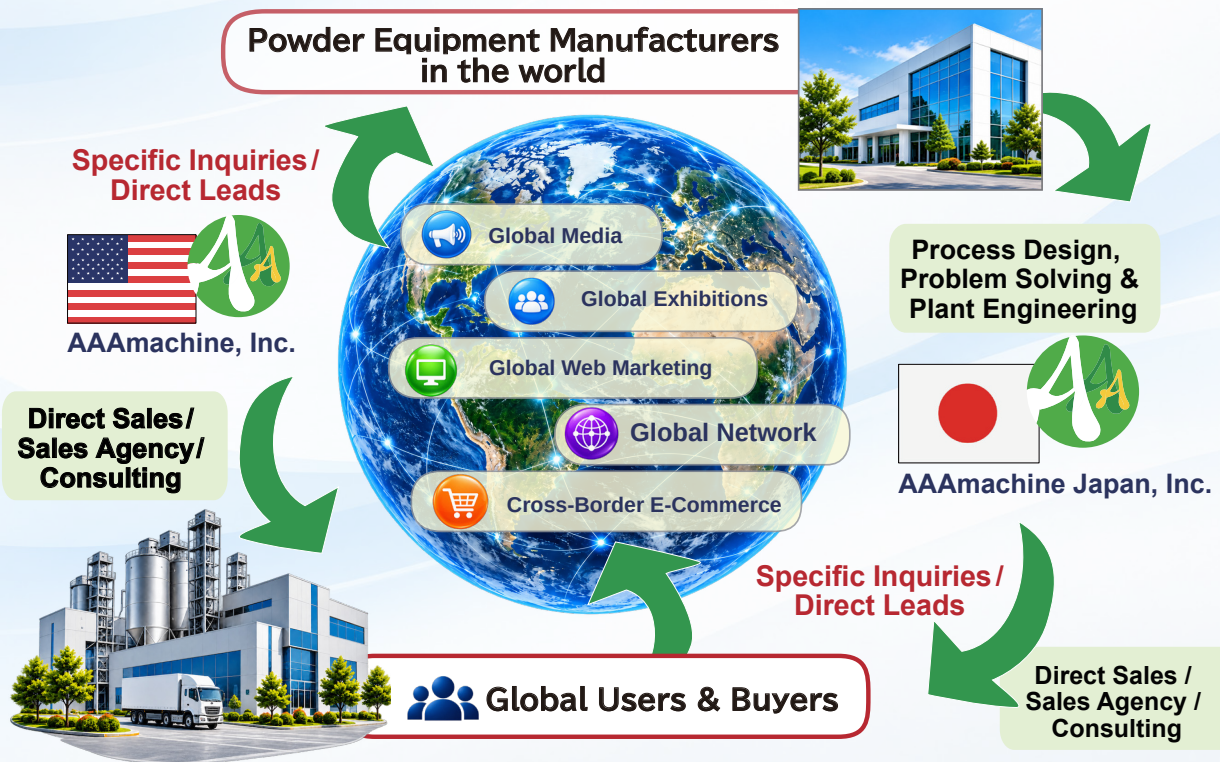

Connecting Powder Tech Worldwide: Be Found Globally, Choose Globally.

Global Direct Sales & Engineering Infrastructure Platform

YOUR DIRECT GATEWAY TO GLOBAL POWDER & ENERGY SOLUTIONS

"Bridging advanced technology directly to global buyers,
without middleman complexity."

AAAmachine Business Model

KEY ADVANTAGES FOR OVERSEAS EXPANSION

■ Direct Sales Approach

Eliminate middleman complexity & maintain direct client relationships.

■ US Office Base (Chicago)

Instant North American presence with desk lease & operational support.

■ Engineering Expertise

Technical consulting bridging engineers to engineers for higher conversion.

■ Full Infrastructure

From initial lead generation to long-term post-sale assistance.

AAAmachine Platform : Comprehensive Service Details

Connecting Cutting-Edge Powder & Energy Equipment Manufacturers directly to Global Industrial Buyers.

1. Strategic Value: Proactive & Direct Overseas Expansion

Traditional overseas sales relying solely on conventional trading houses often lack specialized technical engagement and proactive lead generation. AAAmachine changes this paradigm by offering a direct, specialized sales infrastructure.

Machinery manufacturers preserve their core engineering focus while leveraging AAAmachine's turnkey marketing, US branch infrastructure, and technical sales capabilities to capture qualified international demand directly.

2. The 4 Core Pillars of Infrastructure & Support Services

A. Global Lead Generation & Marketing

- Multi-lingual web portals & targeted digital marketing.
- Representation at major international expos.
- Cross-border e-commerce integration for spare parts & units.

B. Technical Sales & Process Consulting

- Specialized engineering consulting to translate specs.
- Process design and problem-solving for client plants.
- Direct conversion of technical inquiries into firm orders.

C. US Operational Base & Desk Lease

- Physical US presence via AAAmachine, Inc. (Chicago).
- Desk-unit office lease options for Japanese manufacturers.
- Local business address, phone, and administrative support.

D. After-Sales & Customer Support

- Complete post-sale coordination and warranty assistance.
- Reliable spare parts fulfillment & local customer care.
- Continuous client relationship management overseas.

3. Value Proposition for Stakeholders

FOR EQUIPMENT MANUFACTURERS

Expand directly into North America and worldwide without the heavy initial capital expenditure of setting up an independent foreign subsidiary. Focus 100% on core manufacturing while AAAmachine manages sales channels and infrastructure.

FOR GLOBAL INDUSTRIAL BUYERS

Gain direct access to world-leading Japanese powder handling, nano-technology, and energy saving machinery with prompt local US technical response, expert process consulting, and full engineering support.
