

MAKE
YOUR OUTDOOR
BETTER

Sunroll Shading Systems is a reputable Turkish company that specializes in the production and application of motorized canvas and shading systems. Founded in 2008, it has established itself as a leading brand in the sector due to its long-standing experience and world-standard production systems. The company provides creative solutions for shading and protection from the sun, rain, and wind, which allows customers to enjoy their outdoor spaces in all four seasons. Sunroll prioritizes quality and innovation in its projects and offers affordable prices while maintaining its customization principle and quality. With Sunroll's shading systems, customers can experience comfort and style in their outdoor spaces, regardless of the season.

The company is committed to providing creative and tailor-made solutions to meet the specific needs of their customers, both locally and internationally. They have a team of experienced professionals who provide a customer-oriented service and strive to deliver permanent solutions. The company prioritizes quality and innovation in its projects and ensures that all services are performed to last for years. Sunroll attaches importance to customer satisfaction since its foundation and has gained the trust of the industry by offering affordable prices while retaining its customization principle and quality. This approach has helped Sunroll to establish itself as a reputable and reliable company in the shading systems industry.

DOUBLE MOTION BIOCLIMATIC PERGOLA

The Bi Motion bioclimatic pergola redefines outdoor comfort with its advanced mobility and aesthetic design. The system's single tubular motor and two linear motors allow the slats to both open and close, and to fully retract. This allows for optimal sunlight control at any time of day.

Adaptable to all seasons, this system offers users maximum comfort and complete control. Its intelligent construction system not only protects your spaces but also enhances them visually and functionall

RETRACTABLE BIOCLIMATIC PERGOLA

The Rollora bioclimatic pergola offers comfort without sacrificing functionality with its single-motor system. Powered by a single tubular motor, this system retracts the slats, creating a spacious, open feeling outdoors.

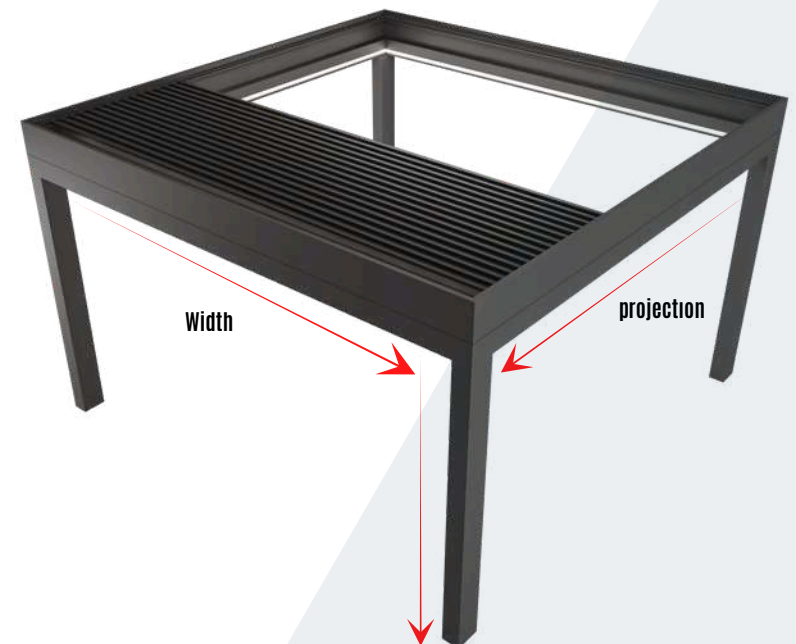

It's an ideal solution for those seeking direct contact with the sky on sunny days. Despite its simple design, Rollora's durability and aesthetic appeal complement your living spaces with elegance.

ADJUSTABLE BIOCLIMATIC PERGOLA

Tilta's unique design, which allows the slats to rotate axially, allows you to control sunlight in the most efficient way.

With its retractable, angle-adjustable slat system, it offers comfort all year round. The system's two powerful linear motors distinguish themselves with their quiet operation and high precision.

FABRIC PERGOLA:

The Sunroll Texio Fabric Pergola is resistant to all weather conditions thanks to its PVC Blockout fabric and waterproofing properties. Unlike traditional awnings, the pergola awning boasts a robust and contemporary design. Its connecting screws and pins ensure maximum durability. It can be easily controlled via remote control.
