

My Multipack Revoloop

COLLATION SHRINK FILMS

Engineered to boost closing the loop: Sustainable excellence by RKW Group & DOW

At RKW Group, sustainability is not just a goal—it's the core of our innovation. In collaboration with DOW, we have developed an advanced collation shrink film that is setting new benchmarks in sustainable packaging. My Multipack is a leading collation shrink film that fulfills all aspects of quality, sustainability and reliability. Discover an innovative film that can support you in advancing your sustainability efforts, new circularity and low-carbon targets.

High-performance collation shrink film with eye-grabbing shelf appeal

My Multipack is a leading collation shrink film that fulfills all aspects of quality, sustainability and reliability. Discover an innovative film that can support you in advancing your sustainability efforts, new circularity and low-carbon targets. By integrating REVOLOOP™ 100% PCR and REVOLOOP™ containing household waste with virgin materials, the final product is a collation shrink film that contains up to 70% recycled content including 35% household waste.

Key benefits
