ALL-SEASONS BIRD FOOD

COMPLETE FEEDSTUFF FOR GARDEN BIRDS

This grain and mealworm mix attracts seed-eating and insect-eating birds, covering their dietary needs during winter and the reproductive period.

INSTRUCTIONS FOR USE

- Distribute freely and evenly in a bird feeder and/or directly on the ground
- Increase the ration during periods of intense cold Keep the bird feeder clean by removing any uneaten and/or damaged grains

WEIGHT

2 kg / 4 kg

LOCAL INGREDIENTS

Grains : (wheat, cracked corn, red sorghum, black oil sunflower seeds, vetch - origin Auvergne).

Dried mealworms (origin Auvergne)

MEALWORM PECKING BLOCK

MEALWORM PECKING BLOCK FOR CHICKENS, PIGEONS & POULTRY

Contains crushed seashells, minerals and dried mealworms - anti-stress and anti-pecking - helps keep your chickens happy and healthy.

PROPERTIES

- Excellent supplement to chicken feed
- Strengthens bones and eggshells
- Pecking improves the welfare of laying hens
- Helps trim beaks, reduces the risk of injury
- Enriched with dried mealworms for a more appetizing feed

INSTRUCTIONS FOR USE

- Providing young birds with the block early on prevents the appearance of delinquencies
- Pecking helps to calm the birds, thus improving their egg laying capabilities

WEIGHT

900 g

NUTRITIONAL VALUES (% ms)
