for your pool.

Plan a real
holiday paradise.

HOME FITNESS CENTRE

Turn your garden

Do you dream of your own garden? Of a refuge from everyday life for you and your family?

Then your planning has to include a pool, because swimming pools offer you a thousand ways to relax. The size makes no difference.

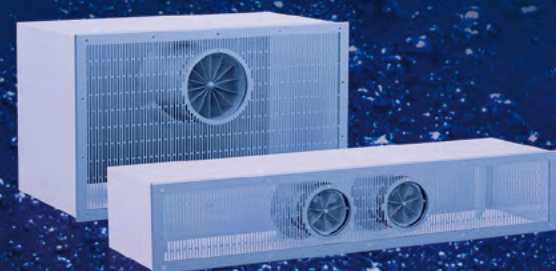

TUNE OUT THE DAILY GRIND

One for everyone

*Whether it's long-distance swimming, wellness exercises or just splashing about – **HydroStar** from BINDER offers you pool fun for the whole family!*

Making all this possible is the broad, powerful current you can easily direct using the remote control, piezo button switch or the BINDER24 training app. Maintenance is no problem either: since the system runs completely under water, there's hardly any maintenance to do.

HydroStar
Die Turbinenschwimmanlage

into a wellness oasis!

This is because our unique turbine swimming systems transform even small pools into real fitness and wellness oases. The systems are suitable for every kind of pool and are available with volume flows from 160 to 1,200 m³/h. They boast low-noise operation and can be quickly installed by authorised dealers. On top of this, thanks to their patented turbine technology, our systems use up to 80 per cent less energy than comparable products.

EASY WAY TO LEARN TO SWIM AT HOME

The counter-current system for retrofitting: for a unique swimming sensation

... pure joie de vivre!

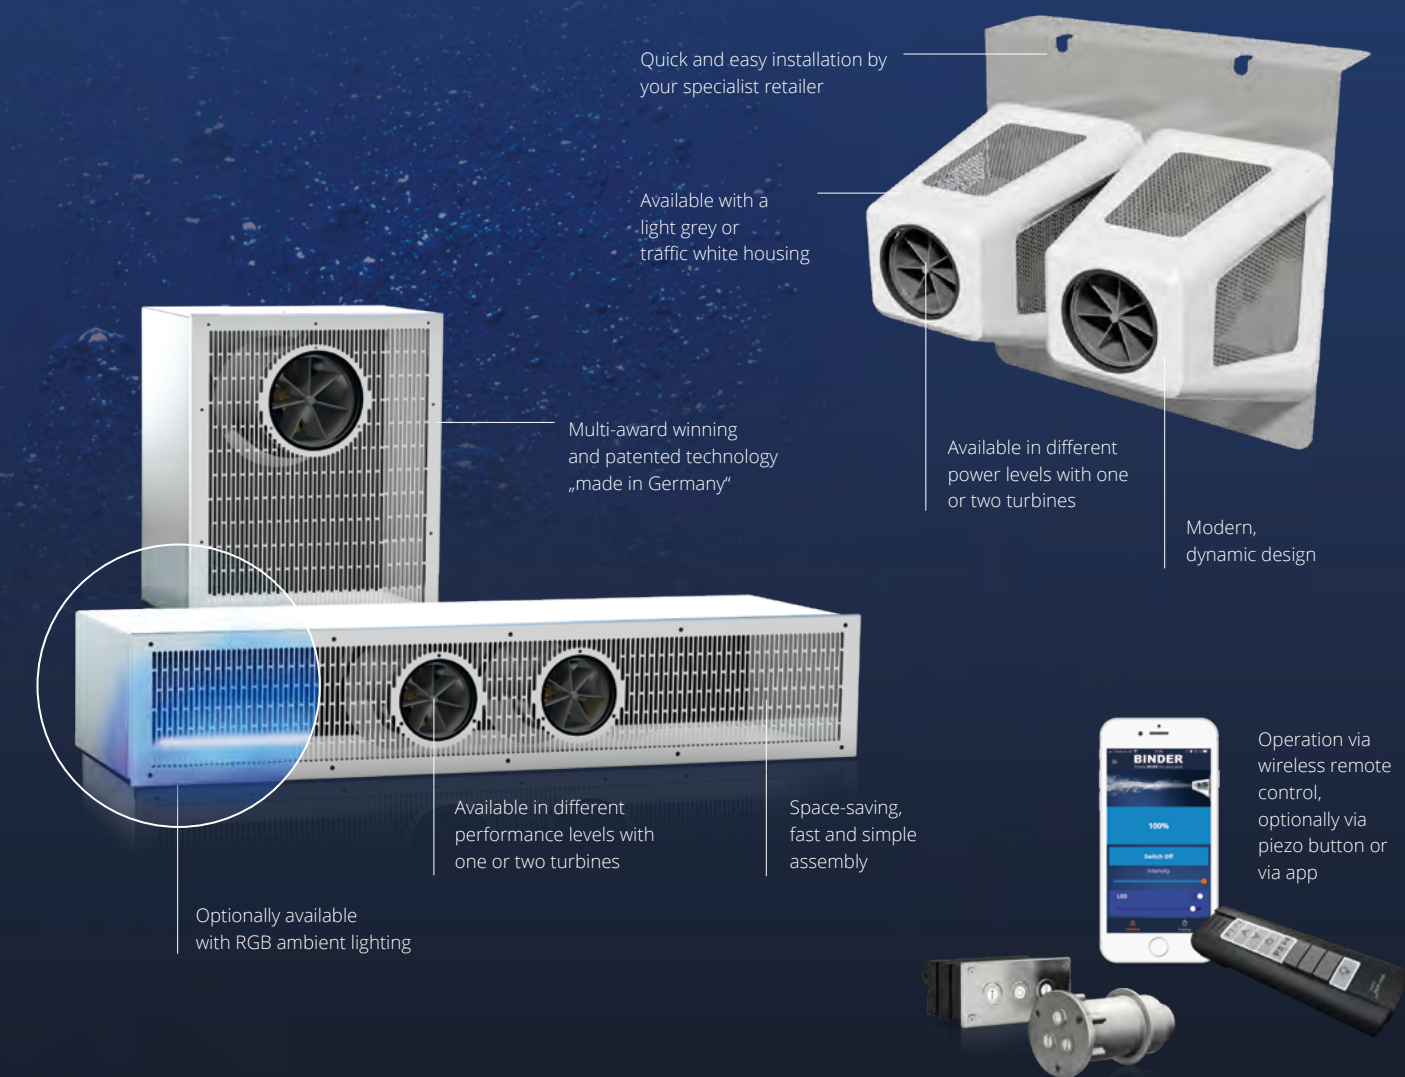

To upgrade pre-existing swimming pools at low cost, BINDER developed the modern design **EasyStar** retrofitting system. This compact turbine swimming system has all of the functions, performance levels and features of the stationary design. Its dynamic design blends in perfectly with its surroundings.

For our turbine driven counterflow system HydroStar and EasyStar you do not require a high-voltage connection!

into a bathing paradise!

Whether large or small, a pool is the highlight of any garden, offering bathing fun and relaxation for the whole family. It can either be the centrepiece in the garden or it can blend in discreetly. In any case, it enhances the use of your own garden significantly and completes your holiday from everyday life.

Simple to install

Specialist dealers only need around three hours to install HydroStar. The retrofit system EasyStar can be installed even faster: All it takes are a few simple steps to attach the installation bracket to the edge of the pool. The energy efficiency of the turbine swimming systems is also unique: Its drive is cooled with water, so that no external cooling is required.

A high-voltage connection is not required either.
