

## Malsa recognised as one of the 500 leading SMEs for business growth in Spain

*Gerardo Cuerva, president of CEPYME and Jesús del Castillo, CEO MALSA*

We are proud to announce that Malsa has been recognised as one of the 500 most outstanding companies in the Spanish business world as part of the CEPYME500 initiative. This award, granted by the Spanish Confederation of Small and Medium-sized Enterprises (CEPYME), identifies and promotes SMEs that are leaders in terms of results, innovation, job creation and international presence.

At Malsa we are dedicated to the manufacture of aluminium die-castings parts and also carry out machining and surface treatments. In addition, we design and manufacture our own moulds and tools, allowing us to offer our customers complete, high-quality solutions. This recognition reflects the efforts and dedication of our entire team, as well as our commitment to innovation and continuous improvement.

Receiving this recognition at a difficult time for the sector undoubtedly fills us with pride. It spurs us on to continue working with the same passion and commitment to continue our growth and to continue offering products and services of the highest quality.

We would like to thank CEPYME for this award and, above all, our customers, employees and collaborators who have contributed to this success. We will face the challenges of the future with fresh energy.
