Who We Are

As Europe's premier designer and manufacturer of wildlife habitats and feeders, Wildlife World has always maintained a solid commitment to offering a wide range of environmentally friendly and sustainable wildlife products that are fit for purpose.

We supply many well-known businesses within the retail industry and independent retailers across the UK, Europe and the USA. Wildlife World also supports wildlife charities and provides products for wildlife protection agencies in the UK and Europe.

We are proud that our considered and innovative wildlife products make a significant, ongoing contribution to species survival all over the world.

Product Design & Testing

Our experienced design team works closely with a range of wildlife experts and advisors to develop only fit-for-purpose products. Before finalising our products, production samples are tested locally around our head office in the Cotswolds, UK as well as our woodlands in Devon, UK to ensure they work and are suitable for the respective wildlife. Our efforts to produce innovative and valuable nesting habitats and feeders for birds, mammals, amphibians and insects are benefiting wildlife around the globe. Our commitment to original product features has gained us an enviable reputation as leaders in both design and manufacture, which has resulted in multiple award-winning designs of unique and innovative products.

Environmental Responsibility

Wildlife World has had conservation at its heart for over 20 years. We are using recycled, reused materials in our products where possible, sustainably sourced or FSC®-certified timber, recyclable packaging and support a wide range of wildlife charities and rewilding projects. Many of our products are specifically designed to be plastic-free.

We live by the ethos that production of wildlife products must not be at the expense of other wildlife or the environment, which is why we are strongly committed to working to the highest environmental standards.

We are FSC® and Sedex registered, and the bulk of the timber we use for unique and bespoke production comes from a local sawmill in the Forest of Dean, UK. Furthermore, our workshop uses renewable electricity. In Devon, we have converted intensive grassland into organic wildflower meadows, planted organic cider apple orchards, 4000 native trees, native hedgerows and created new wildlife corridors.

We are also championing Fair Trade and are working with World Fair Trade Organization registered manufacturers that are supporting their local communities and create beautiful, handcrafted products for us.

EU Fulfilment

Dimass Group B.V. supports national and international organisations and companies in the areas of fulfilment, e-commerce and customer service. Dimass operates daily from their headquarters in the Netherlands with local hubs in Germany, Belgium, Finland and Sweden. They guarantee short lead times and excellent customer service and furthermore pursue a socially responsible enterprise with favourable working conditions for their employees, a strong commitment to society and sustainability.

Artisan Range

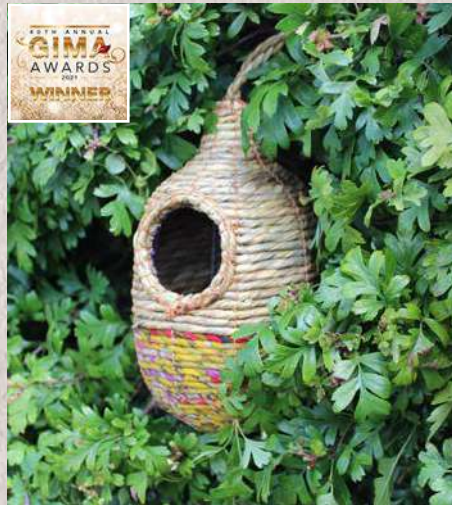

ARTISAN BIRD NESTERS

[AN1] Artisan Wild Bird Nester

[16 x 15 x 19 cm] Case Size 6

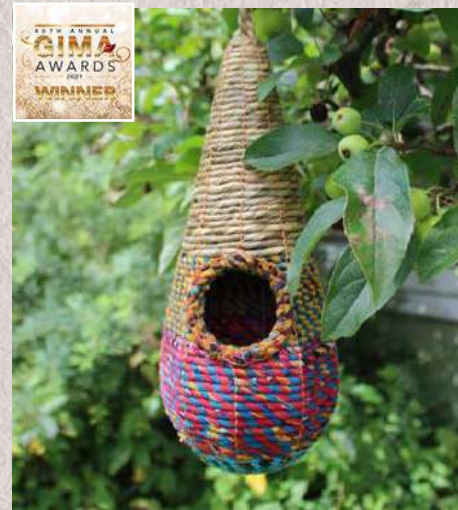

Anita is the largest 'spherical' model of our Artisan Wild Bird Nester range. It offers a larger cavity perfect for species of small garden birds who roost together.

[AN2] Artisan Wild Bird Nester

[21 x 12 x 13 cm] Case Size 6

Shesali is the medium-sized 'oval' model of our Artisan Wild Bird Nester range. Offers a cavity perfect for small garden bird species which roost alone or in a pair.

[AN3] Artisan Wild Bird Nester

[28 x 12 x 14 cm] Case Size 6

Tahera is the elegant elongated 'teardrop' model of our Artisan range. The shape offers a smaller cavity perfect for species of small garden bird who roost alone.

Our beautiful award winning Artisan Nesters and Artisan Planters are made from Hogla grass and recycled saris. They are handwoven and handstitched onto a metal frame by artisan women in Bangladesh

ARTISAN HANGING PLANTERS

[ARTIH] Artisan Bee Nester
[20 x 10 x 10 cm] CS 6

Our stunning Fairtrade Artisan range includes these attractive and useful Bee Nesters that are made from recycled saris in Bangladesh helping families out of poverty. Every one of these Artisan Bee Nesters is unique.

[ARTCONES] Artisan Hanging Planter - Small Cone
(H22 x D16 cm) CS 6

This hanging plant basket in the shape of a small cone is handmade and handwoven in Bangladesh. It's made from fast growing Hogla grass and recycled saris making every piece unique.

[ARTBKTM] Artisan Hanging Planter - Medium Basket
(H15 x D15 cm) CS 6

Our handmade medium-sized hanging plant basket in cylindrical form features a very sturdy frame, a second-life recycled plastic lining and a strong hanging cord.

[ARTBKTS] Artisan Hanging Planter - Small Basket
(H12 x D12 cm) CS 6

This attractive small Fairtrade planter can fit into the medium sized one to make a perfect gift for plant lovers. The sustainable materials of Hogla grass and recycled saris are long lasting and attractive.

Bali Range

The beautiful Bali Island range is handmade and hand painted by Balinese artisans in a genuinely authentic Indonesian style. The entire range is constructed using sustainably sourced timber and has been lovingly hand-painted using a dot painting technique.

[ARTBEE] Artisan Bee Hotel
[13 x 14 x 20 cm] Case size 6

These Bee Hotels are handcrafted in Bali, Indonesia from sustainably sourced timber using traditional painting techniques to produce a truly unique garden feature or gift.

[ARTNB] Artisan Nest Box
[22 x 18 x 28 cm] Case size 6

Provides a safe and secure habitat for small birds to roost and nest from autumn through the winter to spring when they will look to have their young.

[ARTHBT] Artisan Hanging Bird Table
[24 x 22 x 27 cm] Case size 6

Provides an excellent opportunity to feed a variety of wild bird foods from seed mixes and kibbled peanuts to suet snacks and safe food scraps.

Vintage & Barrel Range

These attractive and fit for purpose products can be paired together to make wonderful gifts for any occasion

[VCGHER] Cherington Bird Bath
[80 x 44 x 25 cm] CS 6

The stunning Bird Bath is designed to be a timeless sculptural feature in your garden or outdoor space. This all-metal product has a bronzed antique appearance to enhance your flowerbed, planter or lawn area.

[VGBAGP] Bagpath Hanging Bird Feeder
[9 x 27 x 27 cm] CS 6

This elegant and vintage looking feeder in an bronzed antique finish hangs from three chains and has a solid perch around the entire feeding dish to provide ample room as a landing spot for several birds.

[BARNB] Bird Barrel
[13 x 13 x 18 cm] CS 4

Our UK-designed Barrel Bird Nester is perfect for a variety of small wild birds to nest and roost in your garden. Safe from predators with its deep cavity and secured lid, built from FSC® timber from well-managed forests.

[BAR] Bee Barrel
[23 x 19 x 19 cm] CS 4

Our Bee Barrel connects you to the natural world. Hang the bee barrel in your garden & watch as the canes get filled up with 'baby bees' during the summer months, then wait until next spring to see the new bees emerge.

Bird Houses & Roost Nest Pockets

Trees and bushes are disappearing from the natural world, so now more than ever, it's important to provide safe habitats for our much loved yet dwindling wild bird species.

[DOVENB] Dovecote Nest Box
(47 x 26 x 16 cm) CS 4

This charming nest box for small birds comes in the style of a traditional dovecote with a water-based white paint finish. The roof has handmade timber shingles topped with a white finial.

[NENBG] New England Nest Box
(25 x 22 x 18 cm) CS 6

Reminiscent of New England beach huts, each house features real shingle roofs and lapboard sides and a silvered hole protector. Perfect for small bird and delightful addition to your garden.

[BOB3] Barn Owl Nest Box
(67 x 57 x 49 cm) CS 1

The Barn Owl Box was developed jointly with experienced owl conservationists. As a result, it provides a safe and suitable nest site for breeding barn owls.

[RNP7] Giant Roost Pocket
(24 x 16 x 17 cm) CS 6

Our giant roost nest pocket is a perfect roosting or nesting space for small garden birds. Cosy roosting spaces out of the prevailing wind can be a lifesaver for small birds during harsh weather.

Bird Baths

As they say – water is life. A watering pool is essential for the survival and prevention of dehydration for all garden wildlife visitors especially garden birds, bees, beneficial insects and small mammals.

[EBB]
Echoes Bird Bath
[6 x 34 x 34 cm] CS 5

Made from frost-resistant glazed terracotta, the Echoes Bird Bath features an attractive ripple step that provides extra footing for birds. Around the rim is a quote by the poet William Blake *'To see a world in a grain of sand and heaven in a wild flower, hold infinity in the palm of your hand and eternity in an hour'*.

[CONBB2]
Coniston Bird Bath
[21 x 50 x 50 cm] CS 2

Our classic Coniston Bird Bath is a practical and attractive bathing solution for most types of small to medium birds. The bath has an aged stone appearance with a scroll design on the rim and is made from lightweight recycled plastic and clay. Its extremely durable and can weather any climate.

[OASIS2] **Aristotle Oasis Bath and Drinker**
[5 x 30 x 30 cm] CS 6

Our Aristotle Oasis is firstly a small birdbath and secondly an essential watering pool for wildlife. Made from a sustainable material called Clayplas in a marbled design, its not only environmentally friendly but also frost resistant.

[LIFEBB]
Water is Life Bird Bath
[12 x 40 x 40 cm] CS 4

This modern and elegant birdbath is designed with an innovative step and slope design providing safe drinking for birds, bees and other pollinators and insects. The ramps ensure that any creature that enters the water can get out with ease. It's made from Polyboo which is a 100% recycled material.

[SHBB2] **Shenstone Theatre Bath and Drinker**
[12 x 45 x 45 cm] CS 5

Our Shenstone Theatre is the perfect garden feature for birds, bees and other wildlife. The theatre step design provides safe drinking for birds and other pollinators and insects. It is embossed around the rim with the opening lines from W. H. Davies poem 'Leisure'.

Bird Feeders

[DEWWFv2]

Dewdrop Window Feeder
[23 x 14 x 15 cm] CS 6

This clever feeder is designed to stick to your window pane using the attached strong rubber suckers. Alternatively it can be hung using the attached rope! Its made of clear Perspex for unobstructed views of feeding birds.

[ECOBC]

Eco Beacon Bird Feeder
[20 x 20 x 20 cm] CS 18

This lantern style bird feeder is already on its second life - it has been recycled and can be recycled again! As a result, this product is kind to the planet! Designed and manufactured in the UK, this feeder is easy to fill via the swivel port and easy to take apart for cleaning.

[BEBT]

Bampton Hanging Bird Table
[30 x 20 x 20 cm] CS 6

Our Hanging Bampton is simply one of the most attractive and practical bird tables around. It is handmade from FSC-certified timber from sustainably managed forests. It features decorative woodwork, a removable feed tray, a real Verdigris copper roof and a natural rope for hanging.

[F3S]

Seed Bird feeder
[29 x 17 x 17 cm] CS 4

Our plastic-free Seed Bird Feeder uses the highest quality materials for superior performance. Its all-metal construction provides maximum protection from squirrel damage as a result. You can release the whole base of the feeder to make your regular cleans so much easier.

The decline in natural habitats means that gardens are more important than ever for birds. To attract wild birds, your green space needs to be attractive to them all year round. A bird-friendly garden offers food, water, shelter, nesting sites and protection from predators.

[FWR-B]
African Daisy Bird Drinker
[16 x 70 x 16 cm] CS 12

The eyecatching African Daisy Ceramic Bird Drinker is in the shape of, good guess, a daisy! The bird drinker is easy to assemble with the threaded steel stem in three sections and the ceramic bowl sitting on top. This allows the product to fit into a small cardboard box.

[FWR-R]
Wild Poppy Bird Feeder
[16 x 70 x 16 cm] CS 12

The colourful Wild Poppy Ceramic Bird Feeder is in the shape of, you guessed it, a poppy! The bird feeder is easy to assemble with the threaded steel stem in three sections and the ceramic bowl sitting on top. It features drainage holes to keep feet from spoiling in wet weather.

[FWR-Y]
Sunflower Bird Feeder
[16 x 70 x 16 cm] CS 12

The pretty yellow Sunflower Ceramic Bird Feeder is in the shape of, that's correct, a sunflower! The Sunflower bird feeder is easy to assemble as it's created in three sections with the ceramic bowl sitting on top. It features stability spikes and can be height adjusted.

Squirrels & Hedgehogs

[SF] Squirrel Feeder
[23 x 13 x 22 cm] CS 4

Our heavy-duty squirrel feeder is designed to stand up to the demands of squirrel feeding. This strong peanut hopper with a lifting lid is a fun way to feed wild squirrels in your garden or woodland area. The squirrels will quickly learn to lift the lid to access the peanuts visible behind the Perspex screen.

[BFL2] Squirrel Baffle
[7 x 40 x 40 cm] CS 4

Baffle those cheeky acrobatic squirrels with our attractive hanging Squirrel Baffle! Designed to deter squirrels, no matter how agile, from eating the bird food in hanging bird feeders. Our powder-coated metal baffle hangs over a bird feeder from a tree or feeding station. Will also give some cover to the bird food during extreme weather conditions.

[HH10] Igloo Hedgehog House
[22 x 59 x 53 cm] CS 10

This Igloo home offers hedgehog families a safe and spacious retreat and is covered with brushwood for a natural looking finish. It features an entrance tunnel to deter predators, a robust steel frame and waterproofed lining to give some protection from the worst conditions. May be covered with extra leaves in winter and secured to the ground with tent pegs.

Squirrels and hedgehogs are the most iconic mammals visiting our gardens. Hedgehogs are found in a variety of habitats including gardens, parks and hedgerows and keep these places clear of slugs and snails. Squirrels play an important ecological role in seed dispersal and forest regeneration whilst entertaining us with their playful behavior

[HH11] Hedgehog Haus
[18 x 40 x 50 cm] CS 4

Our Hedgehog Haus provides a stylish habitat for wild Hedgehogs. It offers shelter and sanctuary from common garden dangers like tools, dogs and badgers. Underneath the textured brushwood finish is a sturdy steel frame covered with a waterproof felt lining. The wooden entrance door forms a predator defence tunnel.

[HH7] Hogilo Hedgehog House
[23 x 52 x 39 cm] CS 4

Our Hogilo is made in our workshop from a material that uses farm waste and recycled plastic. It's an advanced special design that offers hedgehogs a safe and long-lasting refuge and can be used for hedgehog rehabilitation. The swivel lid provides easy access inside the Hogilo for cleaning, feeding or tending recovering hedgehogs.

[HHSB/WB] Hedgehog Snack/Water Bowl
[4 x 11 x 12 cm] CS 12

Our hedgehog water and snack bowls are specially designed and a convenient, hygienic way to offer food and water for hedgehogs. They are made from hi-fired frost-resistant ceramic and finished in an attractive green glaze.

Beneficial Insects & Pollinators

Solitary bees can look like tiny flies. These non-aggressive, gentle bees don't sting and are some of our most effective pollinators, which is why we love attracting them into our gardens

[CBN3] Ceramic Bee Nester

[19 x 21 x 18 cm] CS 4

This delightful bumblebee nester emulates straw skeps from many centuries ago when bees were kept in baskets and is made from hi-fired ceramic in a honey-coloured glaze. Yellow attracts bumblebees.

[SBH2] Interactive Solitary Bee Hive

[21 x 18 x 16 cm] CS 6

Our hugely popular and cleverly designed Solitary Bee Hive is an interactive habitat constructed in durable FSC-certified timber with stacking trays which can be opened for inspection and cleaning. Attracting solitary bees to the garden is not only safe but beneficial to flowers.

[LBT] Ladybird Tower

[30 x 14 x 11 cm] CS 6

Our Ladybird Tower is made from naturally seasoned FSC-certified timber logs. Each tower is cleverly constructed to provide a hollow central chamber filled with straw to provide insulation and security for beneficial insects. The apex roof protects the central chamber. Appearance may vary.

[LBT4] Ladybird Lodge

[26 x 12 x 15 cm] CS 6

The ladybird lodge is made from sustainable FSC-certified timber. The lower chamber features cosy bamboo tubes for overwintering ladybirds, lacewings and invertebrates. Additionally, the wooden front lodge features drilled holes for solitary bees to nest, who provide lots of pollination of plants, flowers and veg.

[EBN+BTU8] Eco Bee Nester and replacement tubes
[16 x 9 x 9 cm] CS 10

You can help the survival of solitary bees by simply hanging this Eco Bee Nester, made from environmentally friendly materials, in your garden. Then sit back and watch the fascinating life cycle of your new pollinating team.

Frogs & Bats

To help prevent further decline, we have designed safe and fit for purpose habitats for amphibians and bats too.

[FROG] Frogilo Frog & Toad Home [18 x 20 x 20 cm] CS 6

Our eco UK made Frogilo, now with inspection lid, is a stylish summer and winter home for frogs and toads. This safe shelter will protect all amphibians from predators and garden tools. Made from N-PLAS, a 100% recyclable material.

[CSVBB] Conservation Bat Box [45 x 25 x 15 cm] CS 2

The Conservation Bat Box has twin vertical chambers with the angled cut-away front showing ladder style grooves. This allows the bat to climb into the preferred chamber. Its designed for multi-species of bats.

Plastic Free Gardening

NATURAL RUBBER SEED TRAYS

Say goodbye to plastic with our Fair Trade, FSC certified, sustainable and 100% natural rubber 'Plastic Free Gardening' range.

[PFSEED6] 6 Cell XL Natural Rubber Seed Tray

[24 x 16 x 7 cm] CS 10

This clever and unique reusable six extra-large cell seed tray is made from fairly traded FSC-certified natural rubber and designed for larger seeds such as beans or squashes. The seed tray is robust, flexible and long-lasting and will not crack or break.

[PFSEED8] 8 Cell Natural Rubber Rootcoach™

[20 x 9 x 12 cm] CS 10

Made from fairly traded FSC-certified natural rubber, this robust, interlocking RootCoach™ is designed for repeated use. Once ready for planting out, the RootCoach™ opens up completely. Gardeners will appreciate being able to remove long-rooted seedlings easily.

[PFSEED20] 20 Cell Natural Rubber Seed Tray

[32 x 25 x 5 cm] CS 10

This unique and reusable 20 cell seed tray is made from fairly traded FSC-certified nature rubber. The seed tray has been designed to be cut in half easily, using the groove down the middle for handy separation to fit onto a window sill or to share with friends.

[PFSEED30] 30 Cell Natural Rubber Seed Tray

[29 x 22 x 5 cm] CS 10

This innovative and unique reusable 30 cell seed tray is made from fairly traded FSC-certified nature rubber. Unlike cheap plastic seed trays that often crack or break after one or two uses, the Plastic Free Gardening seed tray is robust, flexible and long-lasting.

Simon King

Wildlife World has worked in partnership with Simon King OBE for many years. Simon is an award-winning wildlife cameraman with a huge knowledge of wildlife watching around the world. Working with Simon, we bring his ideas to fruition through our design and manufacturing team.

[SKMED] Medusa Feeder Defender
[27 x 27 x 68 cm] CS 4

This Bird Feeder Protector is perfect for small birds but discourages larger birds from cleaning out the feeders. It has been designed to work with a wide variety of hanging feeders.

[SKYYN] Curve, Cavity Nest Box
[26 x 19 x 16 cm] CS 6

A unique Ying Yang design bird house with a curved entrance hole like a natural tree cavity. Features an easy open side panel for cleaning and an extra strong hanger in recycled plastic.

[SKROBRNP] Brushwood Robin Nester
[15 x 27 x 13 cm] CS 6

The Simon King design features an open entrance door and a secluded nest space behind the sidewall. In addition to nesting, small birds may use the nester to shelter from harsh weather.

Clearance

We've discounted these end-of-line wildlife products with our 'When It's Gone, It's Gone' deal. A lot of these products have a stock holding of less than 200, so we expect them to be gone very soon!

Wildlife World is Europe's leading artisan designer and manufacturer of wildlife products and gifts

Designed at our workshops in the Cotswolds, all products are tested at our farm and woodlands to ensure they are fit for use by wildlife. Quality of design and manufacture using naturally durable and sustainable materials is paramount in everything we make

You will find more products, wildlife information and video showing the products in use on our website:
