

Natural care for pets who deserve the best

# Supplements

## Complementary Feed

At Pawtese, we believe that optimal pet health comes from high-quality, natural ingredients chosen with purpose. Our supplements are crafted to support specific areas of wellbeing for both dogs and cats, whether you're nurturing everyday health or addressing targeted needs. From heart support and digestive balance to immune strength and overall vitality, each formula blends nutrition-dense botanicals, enzymes, probiotics, and essential nutrients — without artificial fillers or unnecessary additive

# Colostrum Complex Powder

## Skin Allergy & Gut Support

A carefully formulated blend to support **gut health, immune function**, and overall wellbeing in dogs. This natural formula combines bovine **colostrum**, soothing herbal extracts, antioxidants, and prebiotic fibres to help maintain a healthy digestive system and balanced immune response.

Colostrum provides bioactive compounds that support immunity and gut integrity, while marshmallow root helps soothe the digestive tract. Quercetin, pomegranate extract, and curcumin provide antioxidant support and help maintain a healthy inflammatory response. Prebiotic fibres such as pectin and inulin nourish beneficial gut bacteria, while nettle extract and zinc contribute additional nutritional support.

**This formula is particularly beneficial for dogs with allergies**, as it helps support **immune balance, gut health**, and a **healthy inflammatory response**. Ideal for dogs needing digestive support, immune balance, or extra nutritional support during recovery or stress.

# Saccharomyces boulardii

## Probiotic Support

A beneficial **probiotic** yeast that helps support digestive health, **microbiome** balance, and **immune function** in dogs and cats. Saccharomyces boulardii works by supporting beneficial gut flora and helping maintain a healthy intestinal environment.

Unlike many bacterial probiotics, S. boulardii is **naturally resistant to stomach acid and antibiotics**, making it especially helpful during digestive disturbances, diarrhoea, or antibiotic treatment.

This probiotic is also beneficial for pets with **leaky gut, food sensitivities, allergies**, and digestive issues linked to pancreatic stress as it helps support gut barrier integrity and promotes a balanced immune response. By helping restore balance in the gut, it can support overall digestive comfort and nutrient absorption.

Ideal for dogs and cats needing digestive support, gut recovery, and microbiome balance.

# Pawfect Pulse

## Targeted Heart Support

Pawfect Pulse is a carefully formulated heart supplement for dogs and cats, created to provide pure, effective cardiovascular support. Developed through research, holistic nutrition principles, and genuine care, it delivers a unique blend of heart-supporting nutrients not commonly found together in one formula.

### What Makes Pawfect Pulse So Special?

This unique blend combines some of the most trusted heart-supporting ingredients in both Western and holistic veterinary nutrition:

CoQ10 – strengthens heart muscle function and supports energy production

Taurine – essential for normal cardiac rhythm and overall heart performance

Hawthorn Berry – traditionally used to support circulation and heart vitality

D-Ribose – fuels cardiac cells and supports recovery and energy metabolism

Siberian Ginseng – supports stamina, resilience, and overall vitality

Together, they work in harmony to nourish the heart, boost cellular energy, and support long-term cardiovascular health in both dogs and cats. This isn't just a supplement — it's complete heart support in one capsule.

Made With Care. Backed by Science. Inspired by Love.

# Omega 3

## Why Omega-3 Matters and Why Pawtесе Formula Stands Out

If your dog or cat struggles with itchy skin, dull coat, stiff joints, or recurring inflammation, Omega-3 fatty acids can make all the difference. Pawtесе new and improved Omega-3 Anchovy Oil delivers a highly bioavailable source of EPA and DHA — the two omega-3s backed by research for skin, heart, and joint health.

### Key Benefits

#### SKIN & COAT HEALTH

EPA helps soothe inflamed, itchy skin and reduces dandruff. DHA supports healthy cell membranes for a shiny, resilient coat. Ideal for pets with allergies or recurring skin issues.

#### JOINT MOBILITY

Omega-3s help reduce joint inflammation, making movement more comfortable for senior pets or those with arthritis.

#### HEART & CIRCULATION

EPA and DHA contribute to normal heart rhythm, healthy blood flow, and long-term cardiovascular wellness.

#### BRAIN & NERVOUS SYSTEM SUPPORT

DHA is essential for cognition, memory, focus, and brain development — beneficial for growing pets and aging seniors alike.

#### What's Inside Each Capsule?

1000 mg Premium Anchovy Oil – a clean, low-toxicity fish source  
EPA (180 mg) – helps calm inflammation, support mobility & skin repair  
DHA (120 mg) – supports brain, eyes, and nervous system health  
Vitamin E (5 mg) – protects the oil from oxidation and supports immunity

#### Why Anchovy Oil?

Compared to large fish, anchovies have:

- Lower heavy metal accumulation
- Higher concentrations of EPA + DHA
- Better digestibility for sensitive pets

This ensures maximum purity and potency in every capsule.

#### Suitable For:

- Dogs & cats aged 12 weeks+
- Pets with dry, itchy, flaky skin
- Allergies or sensitivities
- Senior pets needing joint support
- Active pets needing recovery support
- Heart & brain health maintenance

#### How to Use:

Puncture and squeeze over food, or give whole.

# Healthy Joints

## Targeted Support for Mobility & Comfort

Healthy Joints is a thoughtfully formulated joint-support powder designed to help dogs and cats maintain comfortable movement and long-term musculoskeletal health. This natural blend supports joint flexibility, cartilage nourishment, and connective tissue strength — helping pets stay active and pain-free.

### Key Ingredients & Their Benefits

- Glucosamine — Supports cartilage repair and joint resilience
- Chondroitin — Helps maintain joint cushioning and hydration
- MSM — Assists in managing inflammation and joint comfort
- Boswellia — A natural anti-inflammatory to ease stiffness
- Green Lipped Mussel — Provides omega-3s and joint-protective compounds
- Bioactive Collagen Peptides — Nourish connective tissues
- Hyaluronic Acid — Supports joint lubrication and smooth movement

Together, these ingredients work to ease stiffness, support tissue regeneration, and promote comfortable, flexible mobility.

Because healthy joints mean a happier life.

# Wag & Flex

## Preventative Joint Support

Designed as a preventative formula, Wag & Flex is perfect for young, active dogs including puppies, aiming to maintain healthy joints and mobility throughout their lives.

### What Makes Wag & Flex Stand Out?

Our formula is enriched with scientifically-backed ingredients known to support joint health:

Glucosamine – helps build and maintain healthy cartilage

Chondroitin – supports joint cushioning and flexibility

Hyaluronic Acid – promotes joint lubrication and mobility

Collagen Peptides – vital for strong connective tissues

Vitamin C – essential for collagen synthesis and immune support

Zinc, Copper & Manganese – trace minerals that promote proper joint development and help prevent deficiencies

Great for:

- Fast-growing large breed puppies
- Active young dogs always on the move
- Overweight pups needing extra joint support

Start early — prevention is the key to lifelong mobility and comfort!

# Complete Boost

## Comprehensive Wellness Support

Complete Boost is a thoughtfully formulated natural supplement designed to support overall vitality, immunity, digestion, and recovery for both dogs and cats. Ideal for pets on single-protein or home-prepared diets, growing puppies and kittens, and animals recovering from illness, surgery, or birth, this blend delivers broad-spectrum nutritional support in one daily scoop.

### Key Ingredients & Their Benefits

**Probiotics & Prebiotics** — Promote a healthy gut microbiome and digestive balance

**Chlorella Algae** — Supports natural detoxification and immune function

**Taurine & L-Carnitine** — Contribute to healthy heart and muscle performance

**Shiitake Mushrooms** — Provide essential nutrients to support immunity and vitality

**Boswellia Serrata** — Helps manage inflammation and tissue comfort

Complete Boost is crafted to support pets through growth, recovery, and everyday wellness — providing a strong nutritional foundation for long-term health.

Because strong foundations create thriving pets.

# Probiotics, Prebiotics & Detox

## Gut Health • Immune Resilience • Digestion Balance

This gentle soil based formula is designed to support digestive health and overall wellbeing in dogs and cats. A balanced gut microbiome is the foundation of strong immunity, efficient nutrient absorption, and comfortable digestion — and this blend works to support all three.

By combining natural prebiotics, probiotics, and detox-supporting ingredients, this supplement helps maintain a stable digestive environment, reduce digestive upset, and support the body's natural cleansing processes.

### Key Ingredients

Leonardite (70%) — A natural source of humic and fulvic acids to support detoxification and gut health

Brewer's Yeast — Provides B vitamins and beneficial nutrients for digestive and immune support

Chlorella Algae — Supports natural detoxification and immune resilience

Inactivated *Saccharomyces cerevisiae* Yeast (9.8%) — A source of prebiotic compounds to nourish beneficial gut bacteria

Together, these ingredients promote smooth digestion, stronger immunity, and improved nutrient absorption — supporting whole-body wellbeing from the inside out.

Because a healthy gut supports a thriving pet.

# Premium Prebiotic Grooming Range

The Pawtese Natural Prebiotic Grooming Range delivers gentle, effective care for pets' skin and coats using thoughtfully selected natural ingredients. Specifically formulated for dogs and cats, this collection includes prebiotic shampoo and conditioner that help maintain a healthy skin environment, leaving coats clean, nourished, and easy to manage.

Our grooming formulas are free from harsh chemicals and artificial additives, making them suitable for pets with sensitive skin or allergies. Prebiotics help balance the skin's microbiome, which supports overall skin health and can reduce irritation. These products are ideal for regular use to keep your pet's coat soft, resilient, and beautifully maintained.

Because healthy skin and a shiny coat start with gentle, natural care.

# Hemp Shampoo & Conditioner

Our Premium Hemp Dog range are a soothing and nourishing treatment for your furry friend. Infused with aloe vera, prebiotics, and omega 3 essential fatty acids, this shampoo supports healthy skin and a shiny, vibrant coat.

The shampoo also protects against microorganisms and odours, restoring balance to your pet's delicate skin.

Deeply nourish, calm, and moisturize dry, itchy, or irritated skin with natural moisturizers and essential oils.

Key Benefits:

Free from harmful chemicals:

No Parabens

No SLS/Sulfates

No Phosphates

No Petrochemicals

No Artificial Colours

No Phthalates

No Synthetic Fragrances

Cruelty-Free: Our products are NOT tested on animals.

**Recommended for Allergies and Flaky Skin**

# Lavender Shampoo & Conditioner

Formulated with love (and lots of tail wags), this duo is designed to nourish, soothe, and protect your dog's skin and coat naturally. We know how common dry, itchy, or irritated skin can be, especially in sensitive pups — that's why we chose ingredients that work with your dog's skin microbiome, not against it.

## Why Prebiotic?

Just like in the gut, your dog's skin has a delicate ecosystem of good bacteria. Our prebiotic formula helps to feed and support healthy skin flora, creating a balanced environment that keeps irritation at bay and promotes strong, resilient skin.

## Why Lavender?

Lavender doesn't just smell amazing — it's known for its calming and soothing properties. Perfect for anxious pups who find bath time a little stressful! Plus, it helps to moisturise, nourish, and soften your dog's coat, leaving them fresh, clean, and huggably soft.

Turn your pup's bath time into a spa experience that cares for their skin and soothes their senses. Because they deserve the same love and quality we'd want for ourselves.

# Coconut Shampoo & Conditioner

Prebiotic Boost • Gentle Natural Cleansing • Coconut Infused Conditioning • Skin Balance • Coat Nourishment • Organic

**Prebiotic:** Prebiotic helps to strengthen the friendly bacteria to recover and grow faster than the harmful bacteria, even when the skin's natural balance is disturbed. Friendly bacteria have a serious advantage over harmful ones, these friendly organisms help to create a barrier against damage caused by pollution, temperature changes, excess sun or cold or conditions caused by different stages of life.

**Calendula:** as great anti-inflammatory It addresses sore, inflamed, and itchy skin conditions, heals, soothes, and softens skin.

**Organic Yarrow:** It is astringent, healing, anti-inflammatory and soothing effects on the skin.

**Chickweed Extract:** it soothes dry and sensitive pet skin. It relieves the itchiness and redness associated with skin irritations and also has anti-inflammatory properties.

**Chamomile extract:** Has anti-inflammatory and soothing properties for relieving inflamed and itchy skin.

# Honey Shampoo & Conditioner

Prebiotic Boost • Gentle Natural Cleansing • Honey Infused Conditioning • Skin Balance • Coat Nourishment • Organic

# No Rinse Shampoo

Premium No Rinse Shampoo is an effective waterless prebiotic dog grooming form that cleanses your dog when water is not available, between washes, when short on time or when bathing is not possible. This product helps to reduce allergies, scratching, fleas, mites, flies, ticks and bugs, whilst especially selected natural and organic essentials helps calm, soothe and comfort your pet and freshens pet and your house.

Direction: Pump foam into hand, rub together and apply to your pet rub in thoroughly, towel the excess off and brush as usual.

# Detangling Spray

Pawtese Velvety Smooth Dog Detangle Spray is a premium, plant-based formula designed to gently detangle, smooth, and refresh your dog's coat.

Enriched with natural conditioners, panthenol, and prebiotics, it helps to soften knots, reduce tangles, and improve manageability without leaving residue or weighing the coat down. The lightweight formula supports healthy skin while leaving the coat silky, smooth, and easy to brush.

With carefully selected ingredients to help control odour and maintain the coat's natural balance, it's perfect for use between washes or as part of your regular grooming routine.

Gentle and effective, it is suitable for all coat types, including sensitive skin.

## Key Benefits

Premium, plant-derived formula

Helps detangle and smooth the coat

Supports healthy skin with added prebiotics

Lightweight, non-greasy finish

Helps refresh and reduce odour

Suitable for all coat types

# Ear Cleaner

Especially formulated 100% natural ear drops to clean and sooth itchy, waxy ears.

This natural oil will help soften and dissolve hardened wax and eliminate dirt and odour. The oil is also anti-bacterial and anti-fungal for extra protection.
