

G.I.F.T. for Companion Families

Providing A Good Life for Pets

“ Balancing The Gut Microbiota Is The Key In Maintaining Pets’ Health
Lactobacillus dominates in the digestive and urogenital tracts of dogs
and cats. ”

SYNPET™ G.I.F.T. Program

SYNBIO TECH INC. is specializing in basic and applied research of probiotics. We assembled university researchers and field scientists integrate modern functional probiotics, prebiotics, and postbiotics and to develop the SYNPET™ G.I.F.T programs for our furry friends.
