

KAOBO ELECTRICAL (SHANGHAI) CO.,LTD

Flow ounce switch/temperature switch/pressure switch/level switch/refrigeration accessories

Company Profile

The company has passed 1S09001, CE, CQC, ROHS and other explosion-proof certifications. Since its establishment, the company has constantly introduced international advanced manufacturing technology and testing equipment, and regularly conducted extensive technical cooperation and exchange with domestic and foreign experts, striving to reach the world's leading level. Its product quality has won the trust of domestic and foreign users, and its products are exported to Malaysia, Europe, Singapore, Australia, Thailand and other countries. The annual output value of Reliable Expo continues to grow every year. At present, Reliable Expo has become the leading enterprise in the domestic production of fluid products, and its total volume is far ahead in the industry.

A wide range of product lines

An extremely extensive product line is one of KAOBO's strengths, which not only covers standard solutions, but also can meet the special requirements of individual industries. The products developed and put into production include the development and sales of flow, liquid level, temperature, pressure valves and other products.

List of some products

Target type egg flow switch LKB OIBb type

Water flow switch VKS type

Safety valve DV1502

Dingzhuang make-up water valve AWW

Waste valve LEV1502

Voltage control switch PFS02

Fixed pressure pad switch PFSOI type

Water flow switch WFS-27

Air valve LEV1502

Expansion tank series

Intelligent anti-freeze switch series
