www.immuniweb.com

1. Just upload your app and select scan mode
2. Run instant or scheduled security scanning
3. Get help with patching and re-scan to validate the fix

Quality. Simplicity. Speed.

Zero False-Positives SLA
Money-Back Guarantee for a single false positive

AI-Enhanced Testing
Deep Learning AI engine detects more vulnerabilities

24/7 Expert Assistance
Vulnerability remediation help for your software developers

Top-Notch Reports
Zero noise, working exploits, risk-based scoring

DevSecOps Native
Full automation of testing and CI/CD pipeline integrations

Instant Start
Secure online payment to instantly start using the product

Centralized Scan Management and Multiuser Dashboard

© 2026 ImmuniWeb SA | www.immuniweb.com

Most Comprehensive Mobile Security Scanning

SAST & DAST

Dynamic and Static testing of your mobile apps

OSS Ratings & SCA

Open-Source Software Security Ratings & Software Composition Analysis

Privacy & Encryption

Privacy and encryption analysis of mobile app & its backend APIs

Authenticated Scans

Authenticated multiuser testing with SSO & MFA full support

iOS & Android

Full support of mobile apps for iOS and Android

ImmuniWeb® Neuron Mobile Deliverables

Mobile Security Scanning

- Full Scan Customization
- AI-Powered Vulnerability Detection
- Authenticated Scans (SSO/MFA)
- Mobile Security Scanning:
  - SAST Scanning
  - DAST Scanning
  - Software Composition Analysis (SCA)
  - OWASP Mobile Top 10 Scanning
  - OWASP MASVS Level 1 Testing
  - Mobile App Privacy Analysis
  - SSL/TLS Encryption Testing
- Endpoints & APIs Privacy Review
- Mobile App Compliance Review
- Open Source Software Security Ratings
- Detection of AI-Related Vulnerabilities
- Detection of Vibe-Coding Flaws

Reporting

- Zero False-Positives SLA Money Back
- Risk-Based Prioritization of Findings
- Simple Instructions to Reproduce Findings
- Web, PDF, JSON, XML and CSV Reports
- Friendly Remediation Guidelines
- Screenshots and Raw HTTP Data
- Consolidated View of All Scans
- CVE and CWE Mapping
- CVSSv4 Scoring

Remediation

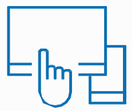

- 24/7 Expert Assistance 30 Languages
- RBAC Scan Management Dashboard
- Seamless DevSecOps Integration
- Unlimited Dashboard Users
- Turnkey CI/CD Automation
- Simple Scan Scheduling
- Email Alerts

Industry Recognition and Technology Awards

ImmuniWeb disrupts traditional application security testing by delivering web and mobile application testing augmented with proprietary machine- learning technology and human testing

ImmuniWeb has woven together machine learning with its own expert testers to confidently offer unique zero false-positive SLA

ImmuniWeb offers true automated penetration testing where its machine speed allows it to scale, while the human penetration testers ensure complete accuracy

ImmuniWeb outperformed IBM Watson for Cybersecurity and won in the "Best Usage of Machine Learning and AI" Category

ImmuniWeb won "Inc. Power Partner Award 2025" for proven track records of global growth, innovation and industry leadership

ImmuniWeb AI Platform

1 Discover blind spots, risks, data leaks and incidents

Continuous Threat Exposure Management

ImmuniWeb® Discovery

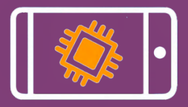

2 Rapidly detect most easily exploitable vulnerabilities

Web & API Security Scanning

ImmuniWeb® Neuron

Mobile App Security Scanning

ImmuniWeb® Neuron Mobile

3 Perform holistic testing of your critical IT assets

Web & API Penetration Testing

ImmuniWeb® On-Demand

Mobile App Penetration Testing

ImmuniWeb® MobileSuite

4 Ensure 24/7 testing and risk-based patching

Continuous Penetration Testing & Scanning

ImmuniWeb® Continuous

One Platform. All Needs.
