

OPEN SOURCE + INDUSTRY = OSADL

OSADL PROVIDES EVERYTHING THAT IS NEEDED TO SUCCESSFULLY USE OPEN SOURCE SOFTWARE IN PRODUCTS

BUSINESS MODEL: Develop once for the use of many

The Open Source Automation Development Lab (OSADL) eG is a registered cooperative that develops community-based solutions relating to Open Source for its members from all over the world.

## OSADL MEMBERSHIP

A company must acquire once one, two or more cooperative shares for 1,000 euros each to become bronze, silver or gold member.

An annual flat-rate service fee of 8,000 euros applies per share.

All employees of a member company can use the OSADL services without restriction and at no additional costs.

Companies that do not wish to become cooperative members can obtain the same services as associate members for 1.5 times the service fee.

## OSADL SERVICES for MEMBER COMPANIES

### COMPLIANCE TOOLS & SERVICES

- Open Source Policy Template and implementation of compliance processes
- Checklists for license obligations and for compatibility check
- Legal FAQ, legal assessments and possibility to ask new questions at any time
- License compliant container base image in numerous variants
