

# B – Lopper Series

## By-Pass Landscape/Tree Lopper

Weight : 41.9oz (1188g) – 44.9oz (1417g)  
Size: 26" (66cm) – 36" (91.5cm)  
Cut Diameter : 2 1/2" (60 mm)

### B26A

Weight: 41.9oz (1188g)  
Size: 26" (66cm)  
UPC: 7-57735-01569-3

### B28A

Weight: 43.5oz (1235g)  
Size: 28" (71cm)  
UPC: 7-57735-01570-9

### B30A

Weight: 45.1oz (1280g)  
Size: 30" (76cm)  
UPC: 7-57735-01571-6

### B32A

Weight: 46.7oz (1325g)  
Size: 32" (81cm)  
UPC: 7-57735-01572-3

### B36A

Weight: 49.9oz (1415g)  
Size: 36" (91.5cm)  
UPC: 7-57735-01573-0

# B – Lopper Series By-Pass Landscape/Tree Lopper

- Drop forged Barnel Bartanium™ alloy high carbon blade steel cutting blade and anvil, precision ground, grants the lopper's SUPREME cutting edge.
- Induction hardened blade edge, to maintain its cutting ability at optimum.
- Over dimensioned curve in the blade and in the hook (anvil), pulls the branch into the cut.
- Deep anvil sap groove, cleans the blade after each cut.
- Extra long tangs reach far into the aluminum handles to further reduce risk of breakage.
- Aircraft alloy extruded aluminum handles, light weight, offer maximum deflection/spring back feature.  
Their special elongated shape with rounded ends compensate for extreme force exerted.
- Anodize finish, repels dirt, sap and fluids.
- TPR (Thermo Plastic Rubber) extra large anti-slip comfort grips, for ergonomic sensation.
- Center Oiler Bolt Technology, allows for maintenance of the tool without taking it apart.  
It provides continuous lubrication during the operation of the tool.
- Poly – Urethane bumper shock absorber, provides long soft cushioning and is impervious to UV light, oil and moisture.
- After market blade cover, protects the blade set during storage.
- A full spare parts program is available for this series.
