

ABOUT US

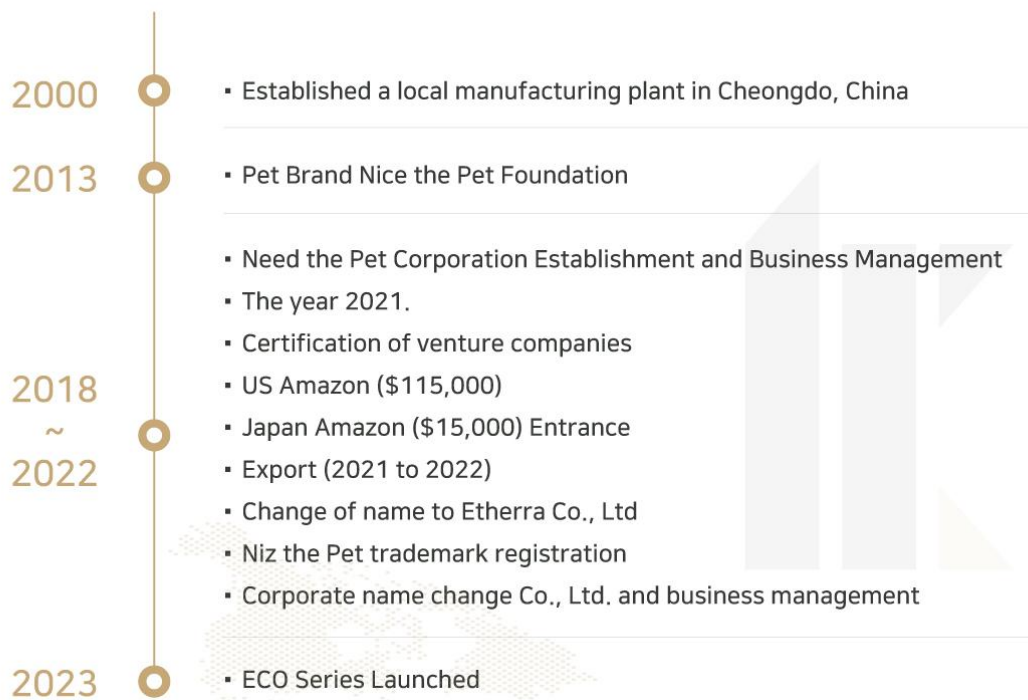

The company that manufactures outdoor mountaineering products and has recently expanded into pet products is a company that is focused on providing high-quality, durable, and reliable products for customers who enjoy spending time in the great outdoors with their pets.

Founded by a group of avid outdoor enthusiasts, this company has a deep understanding of the needs of outdoor adventurers and has used this knowledge to design and produce a range of products that are tailored to meet the needs of pet owners who love to explore the great outdoors.

The company's range of pet products includes everything from rugged dog harnesses and leashes to portable dog bowls and lightweight pet carriers. All of these products are designed with durability, functionality, and safety in mind, so pet owners can have peace of mind knowing that their furry companions are well-protected and comfortable during their outdoor adventures.

Overall, this company's expansion into the pet market is a natural extension of their passion for the great outdoors and their commitment to providing customers with high-quality products that help them make the most of their outdoor adventures, whether they have two legs or four.

Focusing on the pet brand Need the Pet Co., Ltd., we are producing outdoor specialized harnesses and clothing that can be safely used from small to large dogs by applying domestic functional fabrics and subsidiary materials through our factory in China.

OUR ADVANTAGE

Brand that embraces COMFORT, ACTIVITY, HEALTH, and FUN from the viewpoint of companion animals. We hope that your companion animal naturally enjoys the design privileges that we enjoy by being faithful to the basics.

Based on 30 years of know-how on sewing skills combined with the use of carefully selected fabric, we are trying to repay your coming to us with products of reasonable prices as well as good quality and function. Replacing the fabric material of our flagship product with eco-friendly recycled fabric, we're trying to produce more valuable products.

Based on the know-how of having produced brand-name hiking gear, our company produces high quality products using various functional fabrics and subsidiary materials. From 2023 we are launching recycled products and doing fabric replacement work.

We expect that we will be able to provide good values to products by manufacturing with recycled waste resources such as waste PET bottle, fishing nets, et
