DATASHEET

HURRICANE

The new modular seat harnesses in the HURRICANE line are specially tailored for police and military use and pay homage to the legendary British fighter aircraft from the Second World War. The HURRICANE harness is characterised by a robust yet lightweight design and is ideal for professionals. Lightweight, quiet and safe, thanks to its slimline harness construction and textile fall arrest eyelets. Carrying has never been more comfortable, unobtrusive and flexible thanks to a removable top section. Equipped with a unique padding system, it ensures exceptional comfort. With a laser-cut MOLLE system integrated into the padding, the HURRICANE offers versatile options for attaching additional equipment.

- memory foam padding for increased comfort
- narrow webbing construction for low weight without compromising strength
- designed to be worn over a protective shield for unrestricted freedom of movement
- optimised for peak performance in demanding conditions

FEATURES

Attachment points:	Sternal polyamide attachment point, Dorsal polyamide attachment point, Side polyamide attachment point, Restraint polyamide attachment point, Sit harness polyamide attachment point
Number of material loops	7 kg: 4
Application areas:	LEAF
