

WOOD

Wooden cooking trays

Our trays, we make a meal out of them !

Our wooden trays are ideal to showcase your fruit and vegetables to cook, bake or reheat your ready meals and pastries.

Thanks to their specific properties, they allow you to freeze your food safely or cook and reheat it in the oven or microwave according to your needs.

Take advantage of the different shapes of our wooden trays for practical and aesthetic use!

Features

Oven or microwave safe

Supports freezing

Water and grease resistance

Compatible Flowpack

Decoratable by pyrography

Capacity	Length
84 to 2100 ml	65 to 253 mm
Height	Width
29 to 65 mm	45 to 194 mm
Diameter	
230 to 230 mm	

Environmental impact

The carbon footprint is the amount of greenhouse gases emitted by the manufacturing of the packaging, from the extraction of raw materials to its end of life. The carbon footprint of our wooden packaging is **0.30g CO2 equivalent/g of processed material**.

Our wooden packaging is industrially compostable according to **European standard EN13432**.

As part of our responsible approach, our poplar groves and our wood activities are PEFC/10-32-2605 certified, sustainable forest management.

WOOD

WHAT YOU NEED TO KNOW ABOUT WOODEN PACKAGING

Poplar groves of the Lacroix Group - Saône et Loire

From renewable resources

Our poplar groves and our wood activities have been PEFC certified, sustainable forest management since 2012.

Suitable for direct food contact

Naturally, poplar is bactericidal, oven-safe and resistant to freezing.

Low environmental impact

The carbon footprint of our wood activity is 0.30g CO2 equivalent/g of processed material, which makes it a material with a low carbon footprint.

No recycling channel, but...

They benefit from an exemption in the PPWR based on the intrinsic qualities of the wood and on an end of life in energy recovery. (cf CITEO, ADEME, SIEL Study, 2022)
